Effective curriculum is *transformative!*

... To a student's mind and heart.

... To a parent's workload and confidence.

... To the peaceful atmosphere in your home as students thrive!

Use this catalog and the samples on our website to decide if Christian Light is a good fit for your family.

Enjoy

THE JOURNEY

If your family is new to homeschooling, you may feel a sense of trepidation about taking on the responsibility of teaching your children.

If you are an experienced homeschooler, you may be feeling frustrated with curriculum that isn't working. Maybe you feel on the edge of burnout.

Christian Light can help! You may wish to choose curriculum from Christian Light if:

You don't have hours to spend in lesson prep.

You want your students to develop independent study skills.

You admire values such as family, community, hard work, simplicity, and service.

You are looking for affordable curriculum that doesn't compromise academic quality.

Your children get enough screen time without doing schoolwork on a computer too.

High School** (Page 60)

**Christian Light
Academy** (Page 80)

Simplify

YOUR LIFE

With Christian Light curriculum, you can watch your student grow academically without hours of teaching every day. New concepts are explained directly to students in their LightUnit workbooks instead of being confined to the Teacher's Guide. Less planning and prep work for you means you gain back time for other responsibilities as your student gains confidence and independent study skills.

Using a Sunrise Edition course is simple:

- ① Before beginning the course, you read the Introduction to the course in the Teacher's Guide.
- ② You remove the quizzes and test from the back and center of each LightUnit and file them.
- ③ Your student completes a lesson each day, with you introducing the new daily concept and coaching as needed.
- ④ Your student corrects mistakes after you score their daily lessons.
- ⑤ Your student takes a quiz every fifth lesson and a test at the end of each LightUnit.
- ⑥ Your student begins the next LightUnit in the course after successfully passing the LightUnit test.

CURRICULUM DESIGNED FOR *Student Success*

Biblical worldview anchors your student in God's truth.

Workbook format bolsters your student's sense of achievement.

Daily lessons teach new concepts in bite-size increments for better mastery.

Systematic review cements concepts in your student's memory.

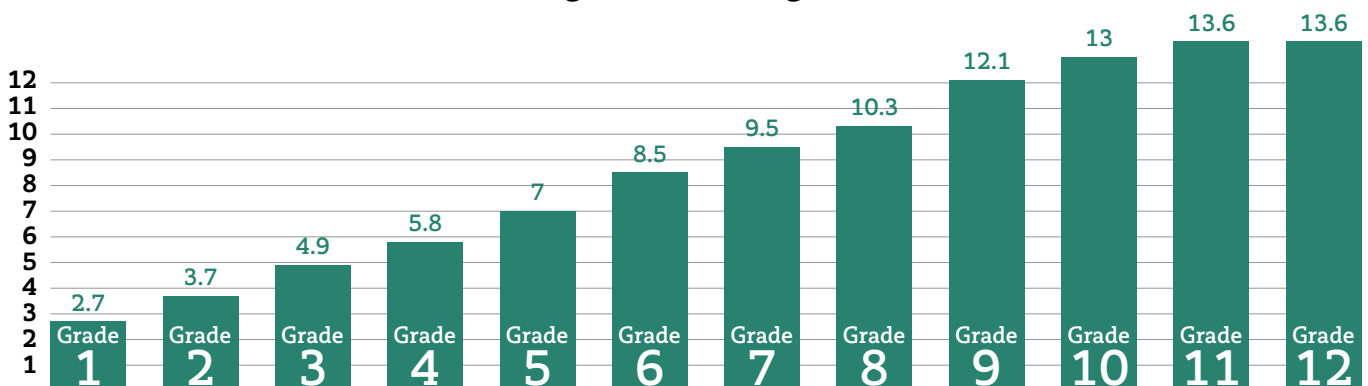

Frequent quizzes and tests gauge your student's success.

Workbook design focuses your student for productive study.

CURRICULUM DESIGNED FOR *Parent Peace of Mind*

Academic Quality You Can Trust

Christian Light curriculum is academically rigorous while also being easy to use.

An Investment You Can Afford

Homeschooling is a worthy sacrifice, but homeschool curriculum shouldn't break the bank. Many Christian Light courses cost less than \$85 for everything you need.

*Does not include science kits †High school prices do not include electives.

How to get started

1. Browse curriculum and samples on our website.

2. Take diagnostic placement tests in Math and Language Arts.

3. Place your order and enjoy the homeschooling journey!

GETTING TO KNOW *Our Format*

What is a LightUnit?

A LightUnit is a workbook that includes exercises, quizzes, and test all in one. The lesson text is also in the LightUnit, except for Reading and some Social Studies courses. The quizzes are perforated sheets in the back of the workbook, and the final test is stapled into the center. Remove the quizzes and the test before handing the LightUnit to your student.

A LightUnit typically contains fifteen to seventeen days of student work. A full one-credit course usually consists of ten Light-Units. Some courses consist of five LightUnits.

Sunrise Edition

Most LightUnits are in Sunrise Edition format with daily lessons and two quizzes. See page 10 for more information.

Non-Sunrise Edition

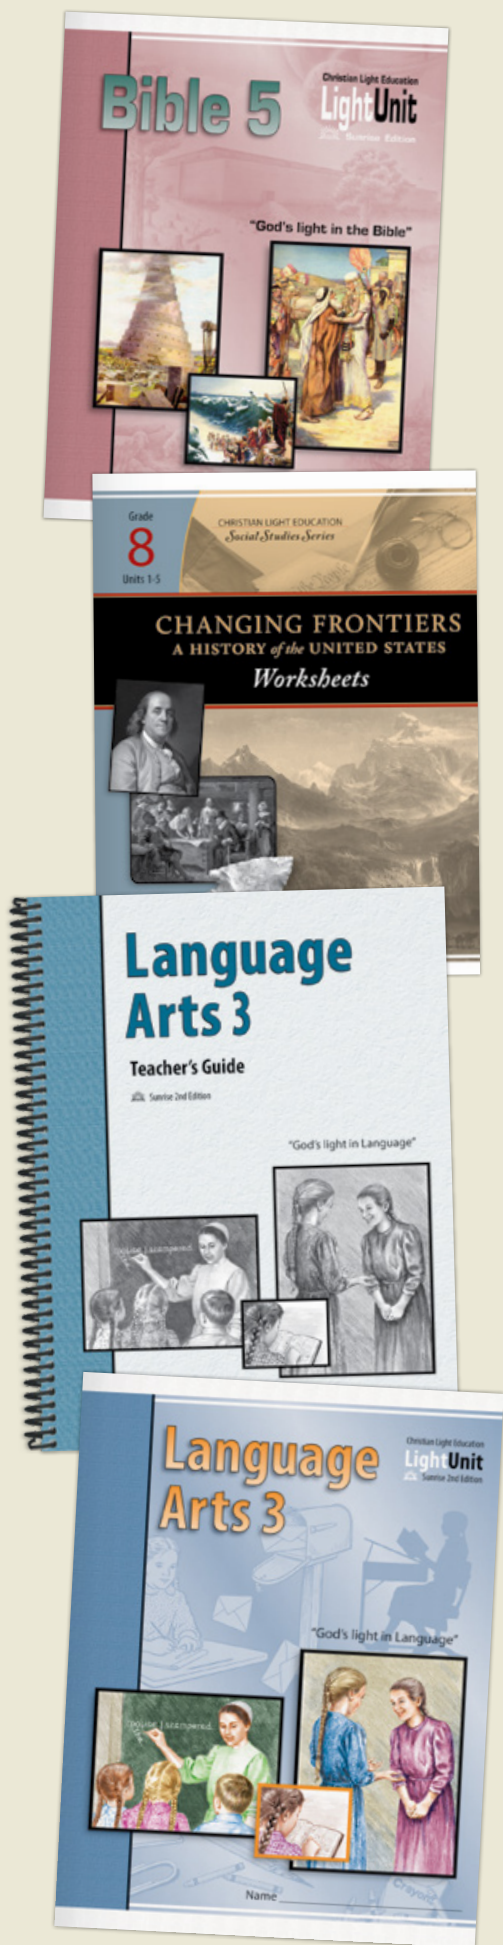

Some older courses are not yet available in Sunrise Edition. In these LightUnits, the material is presented in sections rather than lessons. Each section ends at a Self Test, which is similar to a quiz. The following courses are not yet available in Sunrise Edition:

Bible: Grades 10-12

Math: Grades 10 and 12

Science: Grades 3, 7-9, 11-12

Social Studies: Grades 9-12

Study Guide LightUnits

A Study Guide LightUnit does not contain the lesson text. Rather, it accompanies a textbook or reader and provides only exercises, quizzes, and a test.

What are Worksheets?

A few courses have a worksheet option as an alternative to LightUnits. Worksheets accompany a textbook or reader and are designed for classrooms where teachers are more actively involved in providing instruction and review. Students complete a two-sided worksheet that covers the textbook material of the lesson. The worksheets are bound in two booklets. Quizzes and tests are sold separately as a pack. Currently we offer worksheets for Grades 6, 7 & 8 Social Studies, Grades 2 & 3 Reading, and Literature 1.

What is included in Teacher's Guides?

The content of Teacher's Guides varies but typically includes review questions, instructions for teaching new concepts, and appendixes with scope and sequences and alternate LightUnit tests. Lesson plans in lower-grade Sunrise Teacher's Guides are more detailed than those in higher grades. Many Sunrise Teacher's Guides contain student pages with the answers filled in (math Teacher's Guides include solutions).

Do I need to buy Answer Keys?

If you are purchasing a Teacher's Guide that includes answers, you do not need to purchase a separate Answer Key unless you want students to score their own work. To determine if a Teacher's Guide has answers, check the course description or refer to the chart on page 11.

Request a Free LightUnit

Are you considering using Christian Light but not sure if it will work for you? We have hundreds of sample curriculum pages on our website for you to review. But if having a printed copy in your hands will help you make a better choice, just let us know.

We'll send you a LightUnit free of charge in the United States and Canada. You can keep the LightUnit whether or not you buy the complete course.

Homeschool Planet

Lesson plans for Christian Light's elementary courses are available on Homeschool Planet, an online homeschool planner. Keep track of assignments, grading, attendance, and family schedules at homeschoolplanet.com.

homeschoolPLANET™

Thank you for providing a wonderful curriculum my daughter has used since 4th grade. What a difference your company has made in our family. —Wisconsin

Christian Light fits my values and educational goals beautifully, and my children are pleased with it and working so hard to do well. Thank you! —Michigan

I have two children graduated and my youngest still to go. All three of my children are strong in their math, reading, and language arts, and that is thanks in large part to Christian Light. —Arizona

How It Works

Sunrise Edition curriculum uses a spiral learning method. Here is how it works to make learning easier for students:

Incremental teaching. In language arts, math, and reading, new material is introduced in small steps, making the learning process less overwhelming and more efficient.

Students' daily work is based on a 30-to-70 ratio, with approximately 30 percent of the exercises being new material and 70 percent being review material. The "learning thread" on a particular concept is simple in the beginning and expanded in later lessons so that learning is cumulative.

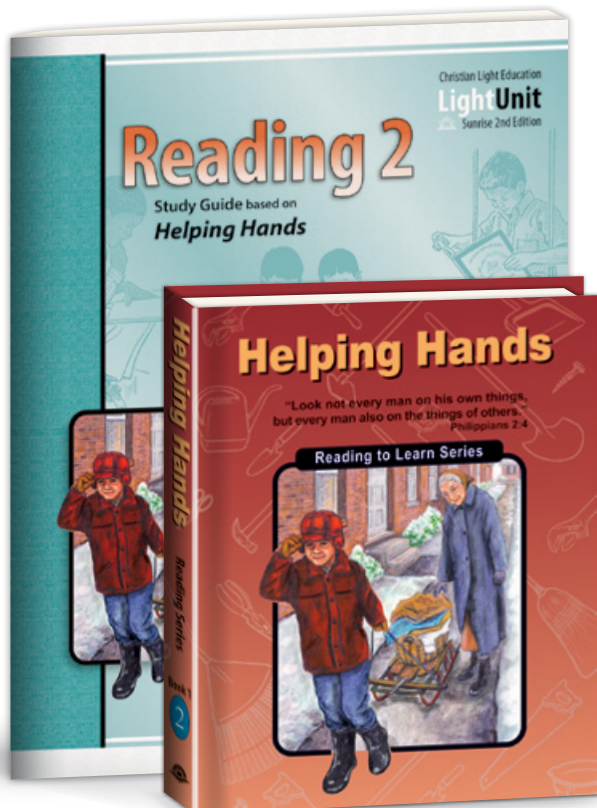

Picture a train winding up and around a mountain. For example, the fraction train starts in Grade 1 with cars carrying a light load of simple fractions. As the train winds up and around the track, it pauses at stations, filling the cars that were partially filled with more difficult concepts about fractions and adding new cars carrying small loads of new concepts. The train chugs to the top a few years later with cars filled with facts and concepts.

Systematic continuous review. Part of the incremental approach is a system of continuous, comprehensive review. After a concept is introduced, students review it multiple times through exercises in following lessons. Students gain mastery by continually reviewing concepts.

Reading

that develops wisdom
and discernment

Reading well is an essential life skill. In addition to fostering a lifelong love of reading, Christian Light's Reading program helps students develop the reading and analytical thinking skills they need in today's world. With a foundation of good stories and poems, the curriculum emphasizes vocabulary, comprehension, and literary elements, techniques, and genres.

Overview

Christian Light Reading begins with Learning to Read, our comprehensive phonics-based reading program (pages 28 & 29). Phonics continues in Language Arts 1 & 2. After Learning to Read, first-grade students are ready to begin with the reader *I Wonder* in Reading 1. Reading 1 focuses on comprehension and oral reading with limited phonics review.

Grades 2 & 3 each have ten LightUnits to accompany their hard-cover readers. Teacher's Guides contain aids to teaching and are integral to Grades 1-3.

Grades 4-8 consist of one reader and five LightUnits per grade. This lighter workload allows more subjects to be studied while still honing reading comprehension and literary analysis. The average student can complete most of the work with little teacher help.

Grade 1 LightUnit sample

The Roll of Bread Lesson 7

Study Words

1. bread (brɛd)	6. golden (gɒl•dən)
2. busy (bɪz•ē)	7. once (wʌns)
3. clickety (klɪk•ət•ē)	8. shakily (ʃə•kə•lē)
4. fields (fɛldz)	9. sifted (sɪf•təd)
5. gentle (jɛn•təl)	10. sowed (sōd)

Read the list to yourself two times. ☐

Vocabulary exercises

Grade 5 LightUnit sample

8 The Water Ouzel Outwits an Enemy

Vocabulary

△ intact jaunty somber teeter

A Look up the vocabulary words in the glossary. Complete each definition.

1. intact: _____; having _____ part
2. jaunty: having a _____ or _____ manner
3. somber: _____ and _____; dark _____
4. teeter: to _____

Story Comprehension

B Read the introduction and write an answer to the question.

The bobcat could not catch a bird that was able to run underwater as well as fly, but she tried to use her eyes and nose to find the nest where Mrs. Ouzel and her babies were hidden.

The story title gives you a hint about what will happen in the story. What can you predict by reading the title?

△ 5. _____

C Check your prediction by writing an answer to each question.

- Who was the enemy looking for the Ouzel's nest? _____
- How did the Ouzel outwit the bobcat? _____

Comprehension exercises

Exercises prompt reading selections

Phonics-based approach to learning new words

Study Words

Know or Think?

Things we can know for sure, "I **know** 2 + 2 = 4."

Things we cannot know for sure, "I **think** it will rain."

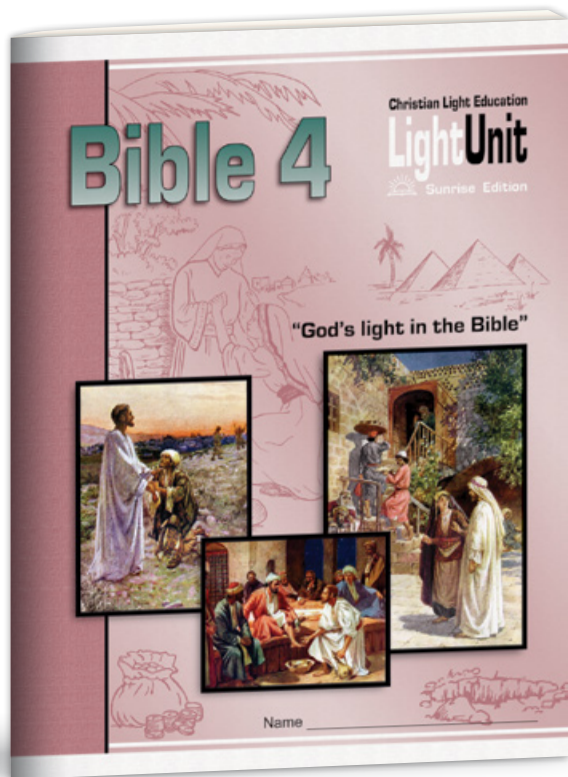

Write two Study Words with the ed suffix. _____

Write know or think in the blanks. _____

_____ the boy in the story was named Ted.

Readers These readers not only keep children turning pages, but also teach character and Biblical values through timeless stories and poems. Many stories are adapted from early American readers.

Bible

that deepens
knowledge of God

The goal of our Bible program is to point students to Jesus Christ, strengthen their love for the Word, and deepen their desire to surrender their hearts in devotion to Him. Students will gain a thorough knowledge of Bible facts and increase their understanding of and appreciation for God's timeless principles.

Overview

In the lower levels, Christian Light Bible teaches Bible stories in chronological order, introducing simple truths along with Bible history, geography, and cultures of the Old and New Testaments.

Sunrise Bible is available in Grades 1-9, but is an optional subject in the first two grades. There are no quizzes or tests in Grades 1 & 2, giving students the opportunity to develop a positive attitude toward Bible learning without pressure. Grades 3-9 follow the Sunrise format of lessons, quizzes, and a final test.

The Bible stories in elementary levels are retold in fresh, readable language that brings the Bible to life for students. Realistic pencil drawings illustrate most stories.

Grades 10-12 are being developed to fit the Sunrise model. Until then, these grade levels consist of ten self-study LightUnits. A day's work consists of selected Bible readings and corresponding exercises. Students can complete most lessons on their own.

Grade 3 LightUnit sample

Lesson 8

By the time Herod found out that the wise men had tricked him, those men were well on their way to the Far East. At the same time Jesus was traveling south, safe in His mother's arms. The King of the Jews had escaped the wicked king of Jerusalem.

Most lessons include an illustrated Bible story in Grades 1-8.

From the Story

Write L for Jewish leaders, H for Herod, W for wise men, S for shepherds, or J for Joseph.

1. ___ Wanted to find
2. ___ Knew the Son
3. ___ Went home a
4. ___ Rich nighttime
5. ___ Fleed to Egypt
6. ___ Poor nighttime
7. ___ When he was

Grade 6 LightUnit sample

THE LAY OF THE LAND

① Saul and David were living in Gibeath, Saul's hometown and the capital city of Saul's kingdom.

Complete the exercises using the map.

1. Label and circle Saul's hometown.
2. Label Ramah.
3. Which road did David travel from Gibeath to Ramah?
4. Name three other cities that the road which David traveled passes through.
 - a. _____
 - b. _____
 - c. _____

KNOW YOUR BIBLE

Circle the letter of the answer.

5. What drove Saul to try to kill David again?
 - a. David was trying to overthrow Saul's kingdom.
 - b. Jonathan and Michal had sided with David against Saul.
 - c. Saul thought David might be the one to replace him as king.
 - d. The people of Israel had begun to turn away from Saul.

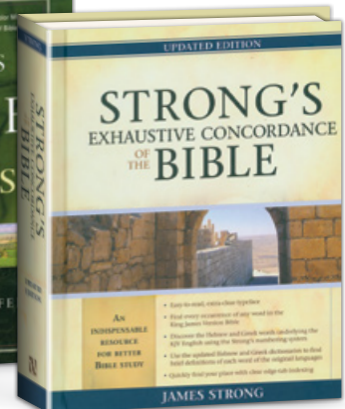

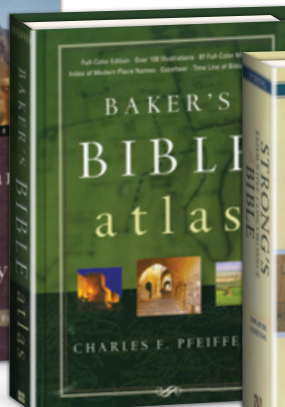

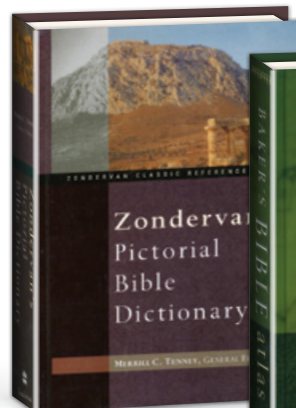

Answer the questions.

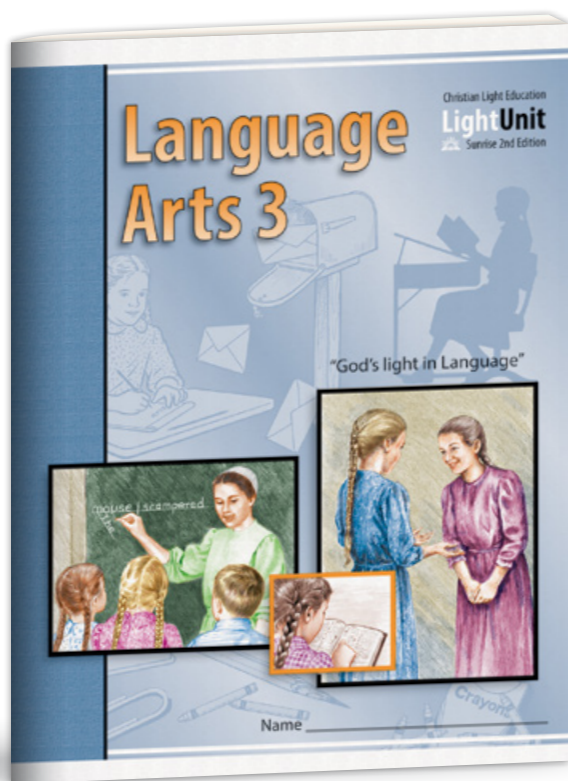

6. When Saul sent his guards to arrest David in his house, what did the guards find in David's bed? _____
7. Who had put it there? _____
8. Why did David choose to flee to Ramah? _____
9. What happened to Saul and the men he sent to catch David in Ramah? _____

57

Exercises help students retain Bible facts and historical knowledge.

Support Materials (see page 75)

Language Arts

that enables careful,
clear communication

The Sunrise Language Arts program provides tools for communicating with clarity and purpose. More than simply teaching proper grammar and punctuation, we strive to equip students to become able writers, careful listeners, adept speakers, capable researchers, and lifelong students of positive, wise communication.

Overview

Grades 1 and 2 Language Arts are required to complete our phonics program begun in Learning to Read, but can also be used with any phonics-based learning-to-read program.

In Language Arts, students study grammar, language mechanics, and the use of resource books, while also becoming adept at researching and writing. Each day a new concept is introduced in a small easily mastered increment. A review section covers a variety of old and new increments to ensure mastery. The lesson ends with penmanship and spelling practice so that you do not need a separate spelling program.

Creative writing assignments are included in the LightUnits in Sunrise 2nd Edition.

Perspectives of Life in Literature and Perspectives of Truth in Literature challenge high school students with selections from Bunyan, Frost, Hawthorne, and others (page 53).

Grade 4 LightUnit sample Penmanship

Lesson 1

Penmanship

In this LightUnit you will be writing the names of the sixty-six books of the Bible for Penmanship.

Go to page 59. In your notebook, copy the penmanship for Lesson 1.

- Write Old Testament Books as the title.
- Write the books of the Bible.

Spelling Word Pronunciation

Spelling Words

bench	elect	model	sermon	weather
Dutch	English	o'clock	steal	wood
preach		steel	would	

Grade 2 LightUnit sample

Verbs That Do Not Show Action 12

Verbs That Do Not Show Action

You have learned that verbs show action: run, talk, and laugh. A few verbs do not show action. Am, is, are, was, and were are verbs that do not show action.

Andrew was at his desk.
The rabbits are in their hutch.

A Put two lines under the verb that does not show action.

- Jane was my teacher.
- I am in second grade.
- Those horses are strong.
- Ann is in the first grade this year.
- Justin and Joshua were at Grandmother's house.

B Find these words in the glossary. Match the words and meanings.

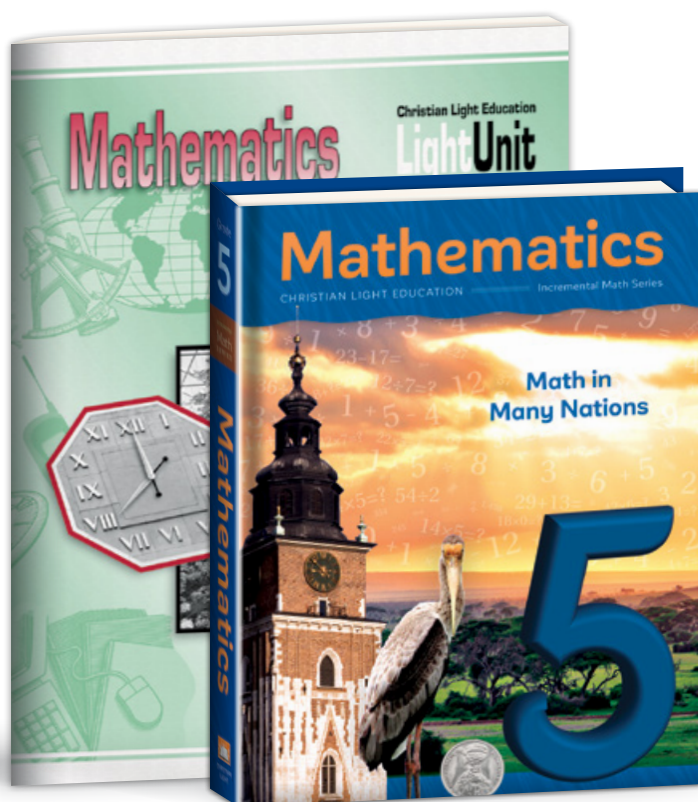

- series • words that have opposite meanings
- antonyms • a list of three or more things in a sentence

43

Continuous review of previously taught material

Support Materials (see pages 32 & 72)

Mathematics

that unlocks the secrets
of God's order

Sunrise Math takes a systematic approach to learning. New concepts are introduced in small increments, followed by comprehensive daily review. Story problems and exercise themes promote Biblical values in finances, family living, and in our understanding of the created world.

Overview

Strands such as geometry and algebra are introduced early to build a solid foundation.

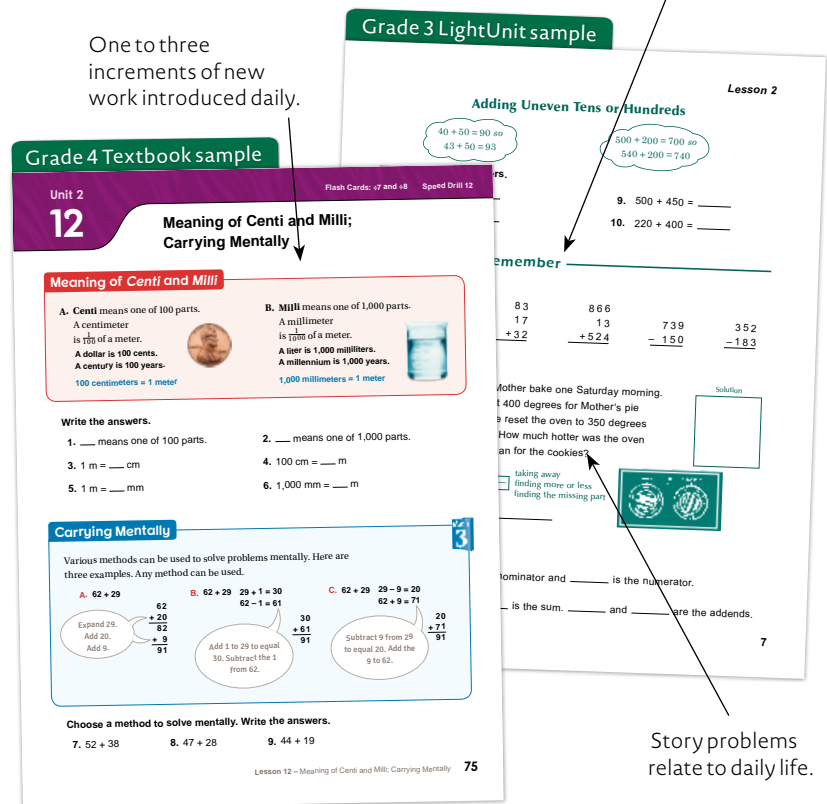

Students learn the U.S. and metric measurement systems together to become proficient in both. The unique flash-card system, along with daily speed drills, helps students master basic facts with higher efficiency. We offer support items such as a counting chart, a clock with gears, and a calendar book, but most hands-on activities use simple items available anywhere.

For high school, only Algebra 1 and Algebra 2 (preliminary edition) are available in Sunrise Edition.

For Grades 4-9, two study options are available. Choose either the LightUnit or textbook format.

One to three increments of new work introduced daily.

Mixed review keeps previously learned concepts fresh.

LightUnit Study Components

LightUnits Each consumable LightUnit workbook contains explanation of new concepts, student exercises, and a test. The first LightUnit in Grades 2-8 is a diagnostic review of the previous grade.

Teacher's Guides Teacher's Guides for Grades 1-8 have teacher tips and contain reproductions of the student LightUnit pages with solutions. Answer Keys for these grades are optional because answers are in the Teacher's Guides.

Support Materials (see pages 33 & 76)

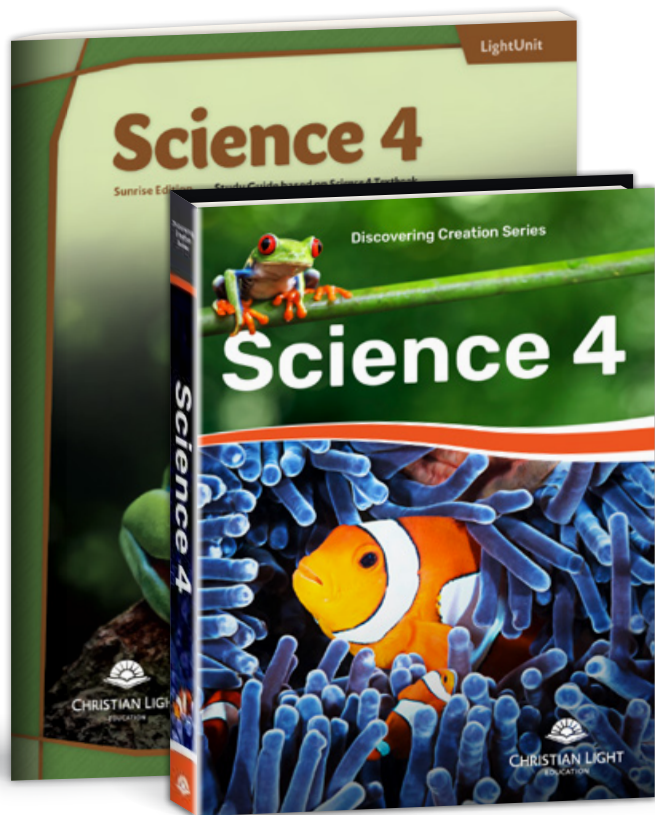

Textbook Study Components

Textbooks More colorful than the LightUnits. They cover the same material and use the same learning approach as LightUnits: spiral, incremental learning, and continuous review.

Student Material Includes consumable quizzes, tests, and daily speed/mastery drills that review math facts and measurement equivalents.

Teacher's Guides The full-color Teacher's Guide contains reproductions of the textbook pages with answers. A CD inside the back cover includes printable posters, charts, and practice sheets.

Full Solution Answer Keys Show each problem with its solution for the textbook, quizzes, and tests.

Science

that declares the
Creator's greatness

Christian Light Science takes students on a journey of exploration into the fascinating world of science. The study of the natural world and how things work is never complete without recognition of the awesome Creator who designed it all, from the intricacies of the atom to the infinity of space.

Overview

In elementary grades, Christian Light Science uses simple experiments along with workbook exercises to help students explore and learn scientific laws. Health studies are incorporated into Science. Science supplies for experiments are available from Home Science Tools®.

Grades 1, 2, 4, 5, and 6, and high school biology are available in Christian Light's Sunrise Edition format. All other grades are in the older format where the daily exercises are not divided into lessons and review is limited. Science is considered a supplemental course for Grades 1 and 2.

Grades 4, 5, and high school biology are based on a textbook. The other grades are LightUnit-based.

High school courses include general science, biology, chemistry, and physics. We offer some Apologia and Berean Builders courses as alternatives to our own while new Christian Light courses are being developed.

Students learn science vocabulary.

Grade 3 LightUnit sample

PHYSICAL CHANGES

Matter can be found as a solid, liquid, or gas. A solid has a fixed size and shape. It may be big like a brick or small like the powder of sand or sugar. A solid may change its shape but stay a solid. A block of ice may be smashed into smaller pieces. The smaller pieces are still solid. Each solid piece has a fixed size and shape. If the ice melts into water, the shape changes. When the solid melts, a liquid forms. A liquid has a fixed size, but no fixed shape.

Try this!

You will need these things:
oven scale or balance scale (with baby food jar)

Follow these directions. Put a when you do each step.

1. Put the baby-food jar on the
2. The mass of the jar is
3. Put the ice cube in the jar
4. The mass of the jar and cube

24 (Twenty-four)

Hands-on investigation leads students to participate in making scientific conclusions.

Grade 6 LightUnit sample

Lesson 3

Special Layers of the Atmosphere

Vocabulary Words

ion (i-on) an electrically charged atom.
ionosphere (i-on-oh-sphere) the outer layer of the atmosphere that contains ions.
molecule (muh-skyul) a particle made up of two or more atoms.
ozone (oh-zon) a molecule made up of three atoms of oxygen.
ozone layer a region in the upper stratosphere where ozone is concentrated.
△ Pronounce these words to someone.

Ozone Layer

This special layer lies within the stratosphere. It is very important to us because it absorbs 97 to 99 percent of the sun's harmful ultraviolet radiation. Without the ozone layer, we would very quickly get a bad sunburn if we went outside during the day.

Ozone is formed when sunlight hits oxygen. Regular oxygen has two atoms per molecule, but ozone has three atoms per molecule.

Ozone molecule

Oxygen molecule

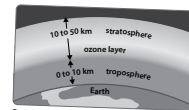

Although we talk about the "ozone layer," there is actually very little ozone in the ozone layer. There are two to eight ozone molecules per million molecules of air in the ozone layer. This is similar to two to eight drops of water in

an automobile's fuel tank. If all the ozone in the ozone layer was compressed to the pressure at sea level, it would only be about 3 millimeters (1/8 in) thick. Even with so little ozone, it is still enough to protect us from most of the burning ultraviolet rays of the sun.

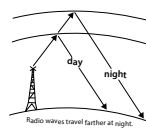

Ozone is poisonous because it has one more oxygen atom than regular oxygen molecules. Because of this, it is good the ozone layer is high placed in the stratosphere. How wonderful it is that God placed the ozone layer at just the right place to protect us!

Ionosphere

The ionosphere begins in the lower thermosphere and extends from about 90-480 km (57-300 mi) above the earth. The ionosphere is a layer of ionized air. Ions are electrically charged atoms of gas. As energy from sun rays strikes atoms, they become

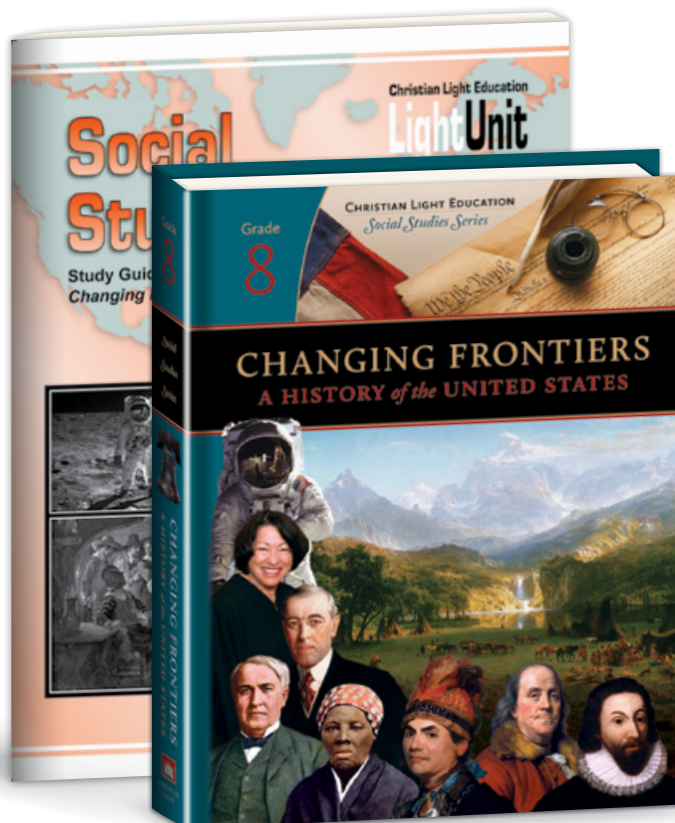

The ozone layer is high above the earth in the stratosphere.

Radio waves travel farther at night.

Support Materials (see page 74)

Social Studies

that sees the world
from God's perspective

Christian Light Social Studies presents students with a Biblical view of God's dealings with mankind since the beginning of time. These courses recognize God's sovereign hand in history and His loving care for His people. Studying people and places, past and present, students will realize that the world is much larger and more complex than just their neighborhood.

Overview

A primary focus in our social studies is to prepare students for a life of service—serving God by strengthening the church, blessing the community, and fulfilling the Great Commission. Written from an Anabaptist perspective, these courses clearly teach the two-kingdom concept of separation between church and state.

In the first two grades, social studies is a supplemental course for students needing additional work.

Grades 3-8 consist of one textbook per grade with corresponding student material. Study Guide LightUnits are available for each textbook and offer the simplest way to cover the textbook. For teachers wanting more interaction with students, we also offer worksheets (see page 9) and other materials that can be used in conjunction with the questions in the textbook. See specific grade-level descriptions for more information.

Grades 9-12 each consist of ten self-study LightUnits with no textbook.

Students are directed to read sections in the textbook.

Biblical applications where relevant.

Grade 4 LightUnit sample

400 - Lessons 11, 12

17. Name five groups of people who live in the Sahara. _____

18. Which group is called the "keepers of the desert"? _____

19. Which group has lived in the desert longer than the Arabs? _____

What Does the Bible Say? Do these activities.

20. Palestine, the land of Jesus, has a Mediterranean climate much like that of northern Algeria. What does Song of Solomon 2:11 tell you about the time of Palestine's rainy season? _____

21. Who is in charge of the rain? _____

22. Write Psalm 147:8. _____

42

Lesson 12 People and History of Algeria

Read these words to someone, pronouncing them correctly.
Tassili-n-Ajjer (tà sè lè' nà jèr') hippopotamus

Read "The People and History of Algeria" and "Unusual Cave Paintings" on pages 379, 380. Answer the questions.

- For how long have people lived in Algeria? _____
- Where are the Tassili-n-Ajjer Mountains? _____
- What does the name mean? _____
- How old are the cave paintings that have been found? _____
- What do the paintings show? _____
- What besides the paintings tell us of a time when the Sahara was a well-watered grassland? _____
- What was Egypt like in the days of Abraham? _____
- When did Algeria become an independent nation? _____

Grade 7 LightUnit sample

Strong Nations Develop Through Global Trade LESSON 2 SECTION 19.2 (pp. 336-339)

Read "Strong Nations Develop Through Global Trade" (pp. 336-339).

Write the name of each Habsburg emperor in the box above his accomplishment on the chart.

Charles	Frederick III	Maximilian I	Philip
1. _____	2. _____	3. _____	4. _____
• First Habsburg emperor of the Holy Roman Empire	• Added Nether. Lands and Parts of Burgundy, France	• Added Spain and Spanish territory in the Americas	• Added Hungary and Bohemia

Complete the exercises.

5. Explain how stock companies lowered the risks for individual investors. _____

Empire.
ion on earth at that time.
_____ Empire.

stabilize Europe's economy.
applied the Netherlands as the leader in sea trade.
duced a scientific, an industrial revolution.
considered the rebirth of the Roman Empire.

3

Exercises help students find and recall facts and interpret what they have read.

Kindergarten and First Grade Overview

Young children love learning! However, at this age, children should not be burdened with a heavy academic workload. Christian Light Kindergarten courses are designed to help you ease your child into formal learning so they are prepared for first-grade academics.

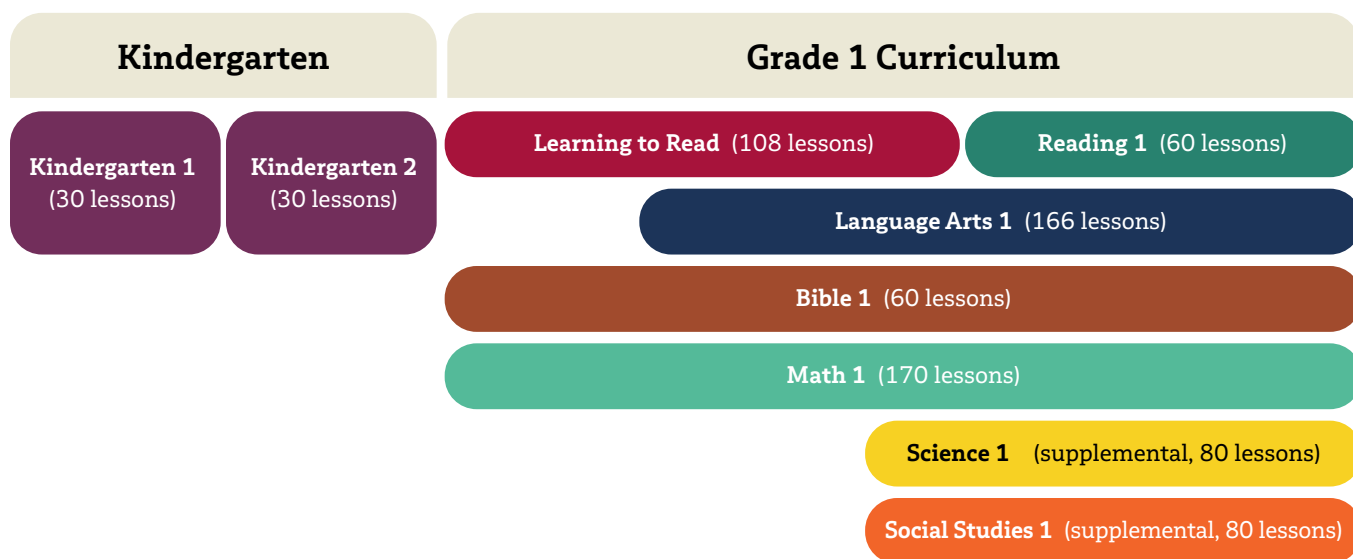

Create a positive atmosphere for learning

- Keep lessons relaxed and informal.
- Don't pressure your child to meet others' expectations.
- Read to your child often.
- Allow plenty of time for creative play to foster imagination, problem-solving, and independence.
- Watch for physical discomfort (small legs dangling from a large chair).
- Affirm your child's work and constructive play.
- Create structure through daily rhythms.

Kindergarten and Grade 1 Curriculum Arrangement

After completing Kindergarten 2, students are ready to begin Learning to Read, our comprehensive first-grade phonics curriculum. Part of the way through Learning to Read, they begin working in the Language Arts curriculum as well. The two subjects are synchronized.

The schedule for first grade is mapped out in detail in the Teacher's Guides for the core Grade 1 subjects. You will find a helpful chart in the Introduction to the Teacher's Guides.

Kindergarten 1

Ages 4-5

 **Sunrise Edition**

Kindergarten 1 provides low-pressure learning for four- to five-year-olds to enjoy a few times a week. The course includes thirty lessons with approximately five pages per lesson.

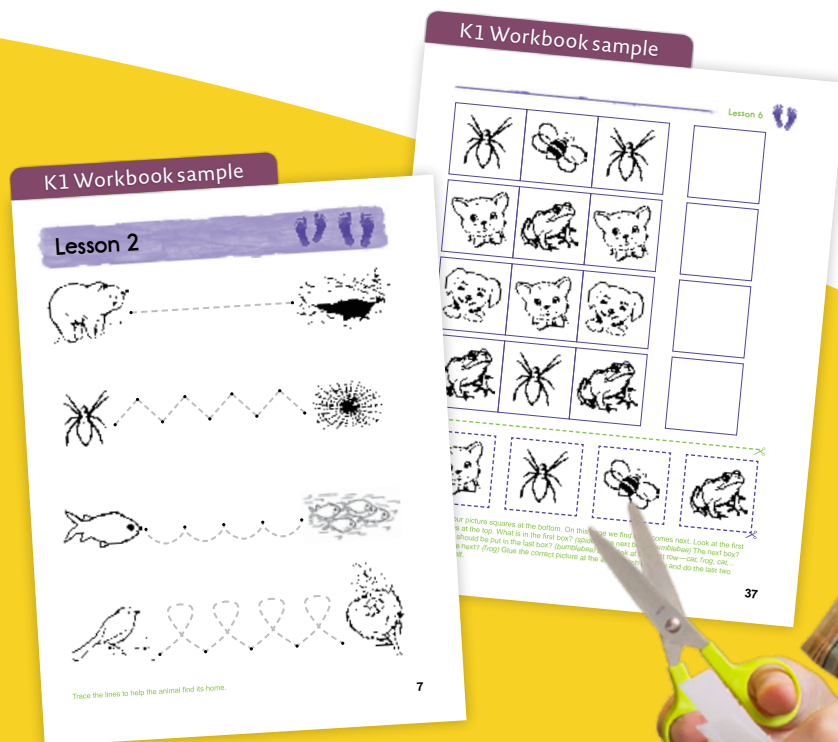

Five Workbooks cover listening skills, matching, identifying primary colors, coloring, tracing, counting, and more. Basic instructions and answers are included.

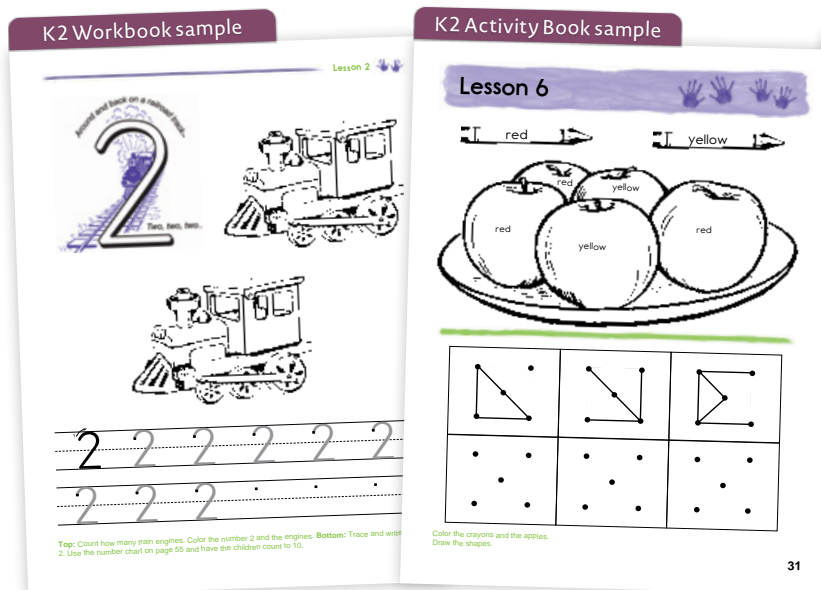

The Teacher's Guide provides detailed lesson instructions, including extra activities in motor skills, Bible memory, songs, and stories. It includes student pages with the answers filled in, and is recommended but not required.

Course Components

5 Workbooks 1-5 \$26.75

1 Teacher's Guide \$17.85

Kindergarten 2

 Sunrise Edition

Ages 5-6

This light course prepares five- and six-year-olds to learn first-grade phonics. It includes thirty lessons with approximately fourteen pages per lesson.

Complete the five Workbooks and five Activity Books simultaneously—a lesson from each per day. The Workbooks teach sounds, letters and numbers, recognizing and writing numbers 1-100, and more. Basic instructions and answers are included. The Activity Books provide exercises in matching, dot-to-dot, colors, cutting and pasting, listening skills, and identifying.

The Teacher's Guide provides detailed lesson instructions, including extra activities in motor skills, Bible memory, songs, and stories. It includes student pages with the answers filled in, and is recommended but not required.

Course Components

5 Workbooks 1-5	\$26.75
5 Activity Books 1-5	\$26.75
1 Teacher's Guide	\$21.50

ABC & GHI Readiness Series

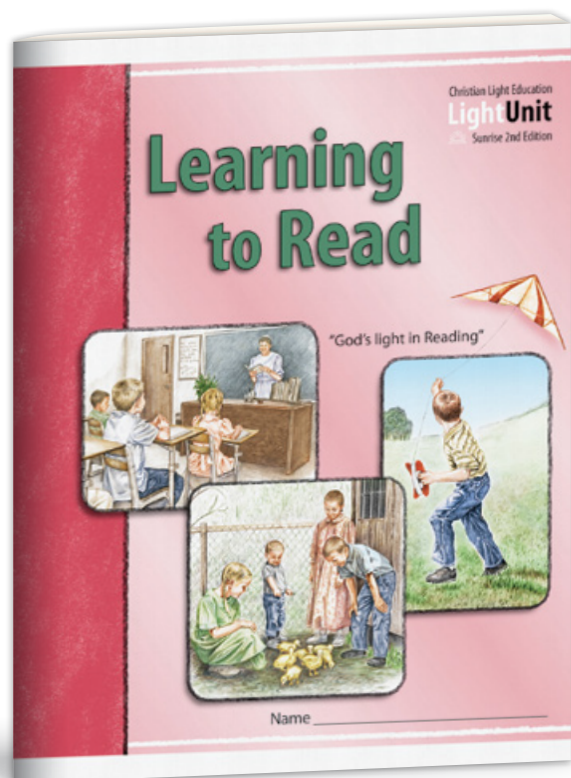

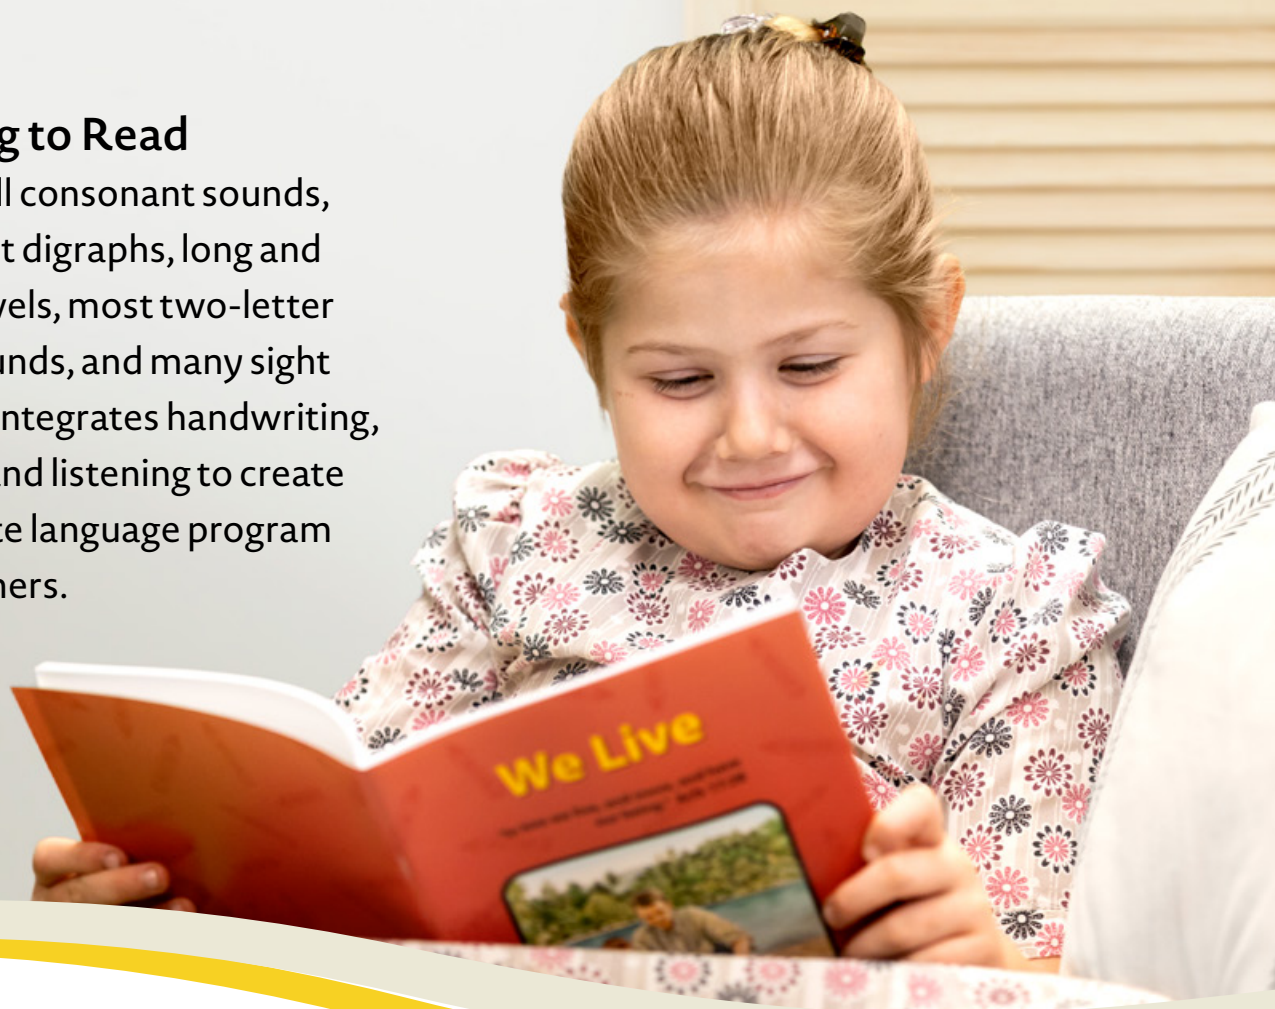

The Readiness Series from Rod and Staff Publishers may be used to supplement Christian Light Kindergarten for four- or five-year-olds.

845231	Adventures With Books	\$3.95	845235	Do It Carefully	\$3.95	845239	Set of 6 Workbooks only	\$20.50

845233	Bible Stories to Read	\$8.25	845237	Finding the Answers	\$3.95	845242	Hearing and Helping	\$3.95
845234	Counting With Numbers	\$3.95	845238	Set of 7 preceding books	\$26.95	845243	Inside and Outside	\$3.95

Learning to Read

teaches all consonant sounds, consonant digraphs, long and short vowels, most two-letter vowel sounds, and many sight words. It integrates handwriting, spelling, and listening to create a complete language program for beginners.

How Learning to Read works

Each sound is introduced with a letter card followed by a story focusing on the picture and new sound. For example, for the t sound, the story of children discovering a turtle with a house that “just fits” captures the child’s attention and motivates him to learn the sound.

The story ends with a fun rhyme to connect the sound with the letter—“/t, t, t, t/ Turtle Tim takes his house on top of him.”

Learning and repeating the rhyme rivets the combination in the child’s mind. Questions about the story help develop comprehension. The new sound is further reinforced in the LightUnits with a variety of activities—coloring, writing, listening for the new sound, oral drill, and spelling.

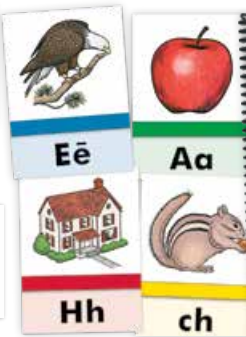

Word flash cards

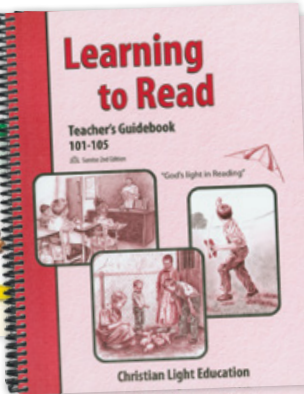

Phrase flash cards

Sight word flash cards

Letter flash cards

Teacher's Guides

Learning to Read is the first part of our reading and phonics program.

Reading is continued in Reading 1 with the reader, *I Wonder*.

Phonics is continued in Language Arts 1 and completed in Language Arts 2. Some elements are reviewed in Reading 1 and 2.

Learning to Read includes ...

LightUnits

Ten LightUnits integrate phonics, visual discrimination, listening, hand-writing, and spelling.

Primers

Four delightful books that motivate children with the thrill of reading. The reading level advances to match the student's progress.

Teacher's Guides

Two Teacher's Guides provide reproductions of student pages with answers and step-by-step instructions. They also include teaching tips, activity ideas, reinforcement games, and more.

Letter Cards

These colorful cards match the rhymes in Learning to Read with a letter and a picture. Available in two formats:

Flash Cards The back contains the letter and accompanying rhyme. 4" x 5½"

Wall Cards For classroom settings. 8½" x 11"

Word Flash Cards

This boxed set of 224 cards uses words the student is learning in the LightUnits. Essential in helping students improve in blending sounds and recognizing words.

Phrase Flash Cards

This boxed set of 228 cards helps the student progress beyond reading one word at a time to reading sentences quickly.

Optional Items

Sight Word Flash Cards

These cards teach Learning to Read sight words through colorful art and descriptive sentences. Use them in Learning to Read teaching sessions as a fun way to speed up the process of memorizing sight words. The cards do not focus on spelling patterns but promote instant word recognition. 90 cards. 5" x 7"

Sound Slider

A plastic device with sliding letters teaches blending of sounds.

Practice Sheets

Two booklets of reproducible worksheets provide extra practice.

Learning to Read Training Set

For teachers new to phonics, this training introduces Learning to Read methods and procedures. Set includes LightUnit, answer key, and audio CD.

Course Components

10 LightUnits 101-110	\$53.50
4 Primers We Live, We Explore, We Learn, We Discover	\$27.40
2 Teacher's Guides 101-110	\$26.90
or Letter Flash Cards 4" x 5½"	\$15.95
Letter Wall Cards 8½" x 11"	\$21.95
Word Flash Cards 8½" x 2¾"	\$15.95
Phrase Flash Cards 11¾" x 4⅞"	\$21.95

Optional Items

1 Sight Word Flash Cards	\$25.20
1 Sound Slider	\$16.95
2 Practice Sheets 101-110	\$10.70
1 Learning to Read Training Set	\$18.65

Primers

Reading Sunrise 2nd Edition

Reading 1 follows Learning to Read. The stories and poems in the full-color *I Wonder* reader develop reading skills while building character. Stories teach honesty, good habits, thankfulness, and trust. The LightUnits give practice in reading analysis and comprehension—applying stories to real life. This course includes five LightUnits and a Teacher's Guide. Skills and concepts are introduced gently and reviewed systematically.

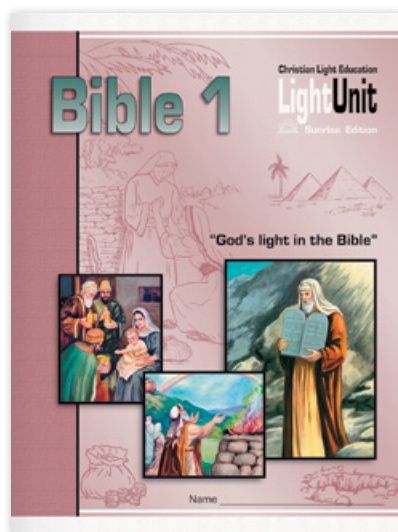

Using the Course

Successful completion of the Learning to Read program is necessary before attempting this half-year course. Students may do some exercises independently. Self checks and tests measure the child's mastery of the material.

The Teacher's Guide includes oral reviews, reproductions of each LightUnit page with answers, explanations for the exercises, ideas for class discussion, and silent and oral reading activities. Beginning teachers can successfully use this manual to teach reading.

Course Components

1 Reader <i>I Wonder</i>	\$13.50
5 LightUnits 101-105	\$23.00
1 Teacher's Guide 101-105	\$17.85

Bible Sunrise Edition

Bible 1 familiarizes students with the major Bible stories from both the Old and New Testaments. The first page of each lesson contains a simply written story to capture the child's imagination and bring the Bible to life. The second page contains a corresponding activity such as coloring, finding hidden pictures, solving mazes or puzzles, connecting dots, numbering events in order, cutting and pasting, or matching items. This course contains no quizzes or tests. It allows the child to simply enjoy the Bible and learn its truths without academic pressure.

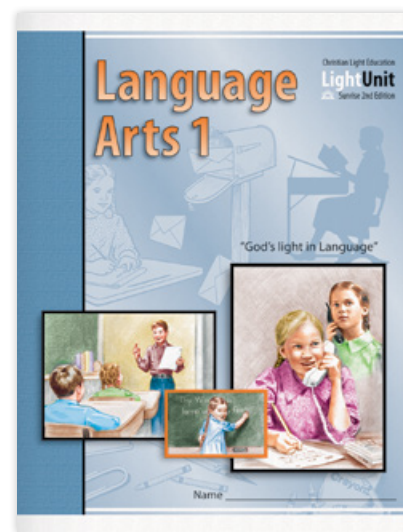

Using the Course

Each of the five LightUnits has sixteen lessons, providing two or three Bible lessons a week for a full school term.

The Teacher's Guide contains the corresponding Bible references, a more detailed version of each story to read aloud, and short meditations to inspire the teacher. Reproductions of the student activity pages with answers are also included.

Course Components

5 LightUnits 101-105	\$26.75
1 Teacher's Guide 101-105	\$17.85

Language Arts Sunrise 2nd Edition

Language Arts 1 is an integral part of our phonics program and works well with any phonics-based, learning-to-read program. Students also learn about suffixes and prefixes, sentences, phrases, and basic punctuation. LightUnits 107-110 include creative writing. Penmanship begins with LightUnit 105 after Learning to Read is finished. Spelling begins with LightUnit 106.

Using the Course

Students complete the first four LightUnits of Learning to Read before they begin this course. Use *I Can Write Manuscript* for more penmanship practice. For more Language Arts drill, use the Extra Practice Sheets. The Phonics Cards illustrate spelling and phonics rules.

The Teacher's Guide is required to teach this course. It includes lesson plans, answers, spelling word lists, scope and sequence, alternate LightUnit tests, and more teaching aids.

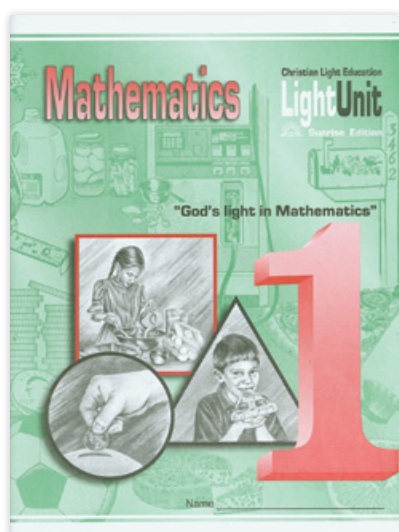

Course Components

10 LightUnits 101-110	\$53.50
1 Teacher's Guide 101-110	\$21.50

Optional Items

Extra Practice Sheets LA 1	\$5.35
Phonics Flash Cards 5 x 7	\$21.95
Phonics Wall Cards 8 1/4 x 10 3/4	\$30.75
<i>I Can Write Manuscript</i>	\$7.25

 See page 32 & 72 for support items.

Math Sunrise Edition

In Math 1, daily speed drills and flash-card exercises cement the basic addition/subtraction facts from 1-18. Students are exposed to geometry, money, and mental math. Story problems with a Biblical worldview relate math to real life. Metric and U.S. measurements are taught together.

Using the Course

No previous math instruction is needed. You'll need the Counting Chart, My Counting Book, and our special flash-card system to teach the course as the daily lesson plans direct.

The Teacher's Guide contains LightUnit answers, oral exercises, hands-on activities, teaching tips, and alternate tests. It is required for the course.

Course Components

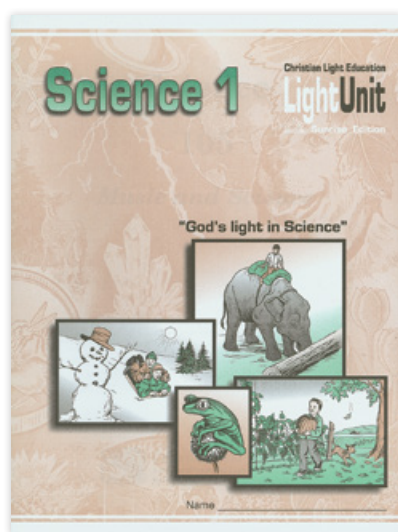

10 LightUnits 101-110	\$53.50
2 Teacher's Guides 101-110	\$26.90
Flash Cards Add. & Sub.	\$38.50
My Counting Book	\$3.50
Counting Chart 1-200	\$2.75

Optional Items

My Calendar Book	\$6.75
Student Clock with gears	\$3.70

 See page 33 for Canadian Math.

 See page 33 for support items.

Science Sunrise Edition

Supplemental Course. This optional course builds students' understanding of the natural world, covering topics such as weather and seasons, energy, personal health, pet care, and music. Each lesson contains two to four pages of exercises.

- 101 Seeing and Feeling
- 102 You and Your Pets
- 103 God's Beautiful World
- 104 The Earth and Energy
- 105 Music and Science

Using the Course

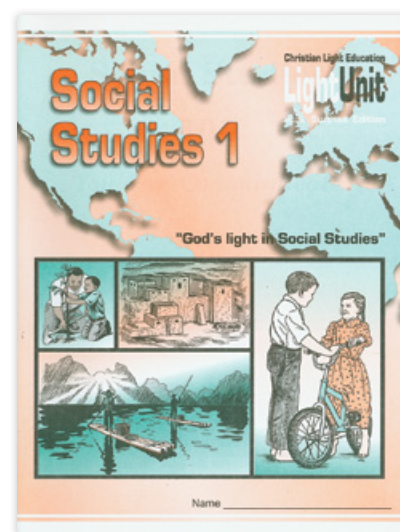

The LightUnits may be used in any order. Science 1 takes only one semester to complete if class is held every day. The earlier the course is used, the more teacher involvement is required.

The Teacher's Guide is required. It includes LightUnit pages with answers, discussion points, and ideas for extra activities.

Course Components

5 LightUnits 101-105	\$26.75
1 Teacher's Guide 101-105	\$17.85

 See page 74 for support items.

Social Studies Sunrise Edition

Supplemental Course. This optional course develops the concept of communities. Students learn about families, courtesy, communication, community living, and a bit of North American history.

- 101 You Can Communicate
- 102 My Family and Feelings
- 103 North America and Its People
- 104 My School and Community
- 105 The World and You

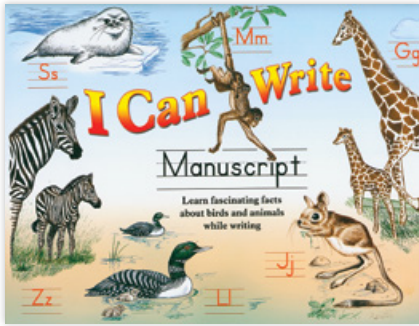

Using the Course

The LightUnits may be used in any order. Social Studies 1 takes only one semester to complete if class is held every day. The earlier the course is used, the more teacher involvement is required.

The Teacher's Guide is required. It includes LightUnit pages with answers, discussion points, and ideas for extra activities.

Course Components

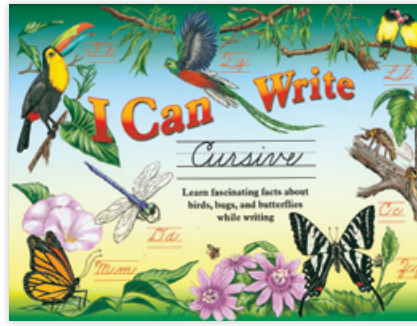

5 LightUnits 101-105	\$26.75
1 Teacher's Guide 101-105	\$17.85

I Can Write Manuscript

Children needing handwriting practice will enjoy practicing letters and numbers and copying Bible verses, sentences about animals, and simple poems. Convenient to use with Language Arts 1 because the letters are introduced in matching sequence, but can be used with any curriculum. About fifteen minutes per lesson; sixty-eight lessons.

652100 **Grade 1** **\$7.25**

I Can Write Cursive

This book provides extra practice of penmanship skills for second and third graders learning cursive writing. Facts about birds, bugs, and butterflies will intrigue students. Students review the five basic cursive strokes and practice lowercase and capital letters, numerals, and number words. Convenient to use with Grade 2 or 3 Language Arts, but can be used with any curriculum. About fifteen minutes per lesson; sixty-eight lessons.

652105 **Grades 2 & 3** **\$7.25**

Extra Practice Sheets

Extra Practice Sheets give specific review for new or difficult concepts.

2072018 **Grade 1** **\$5.35**
2072028 **Grade 2** **\$5.35**

Victory Drill Book

Reading supplement for sounding out and recognizing words.

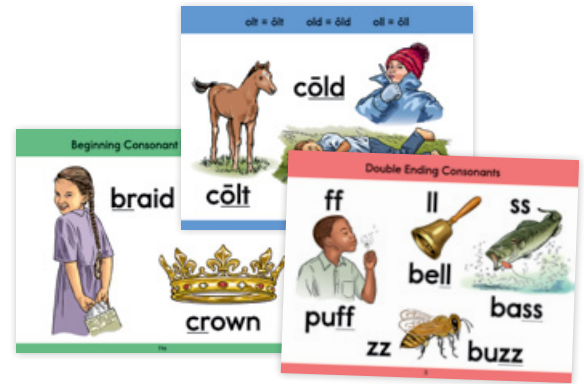

845255 **Grades 1-3** **\$27.95**

Spelling Flash Cards

This set of 443 cards features all the spelling words taught in Grade 2. Using the visual aspect of colorful art, humor, colored-letter combinations, and descriptive sentences, they stamp words into a student's memory. Also useful as vocabulary cards for second-language students. Instructions included. Size 6¾ x 5¼. Full color.

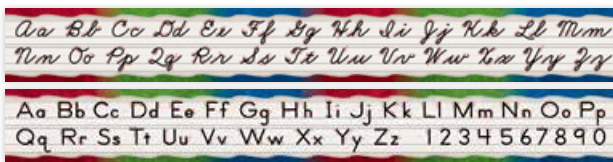

1072027 **Grade 2** **\$59.95**

Phonics Cards for Grades 1 & 2

This set of eighty-eight Phonics Cards illustrates and gives practice words for pronunciation rules taught in Reading and Language Arts. Highly recommended for Grades 1 & 2.

1072019 **Wall Cards** (8¼ x 10¾) **\$30.75**
1072017 **Flash Cards** (5 x 7) **\$21.95**

Alphabet Desk Strips

Self-adhesive strips that can be applied to students' desks give instant access to correct letter formation, using directive arrows.

2 x 17½

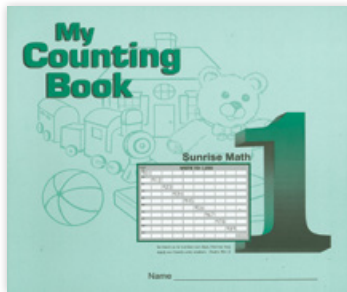

826124 **Cursive** (single) **\$1.95**
826123 **Cursive** (roll of 25) **\$40.95**
826121 **Manuscript** (single) **\$1.95**
826120 **Manuscript** (roll of 25) **\$40.95**

Cursive Alphabet Wall Cards

An attractive addition to any classroom and a reminder to write neatly! Two-sided cards allow for displaying the cards with or without directive arrows.

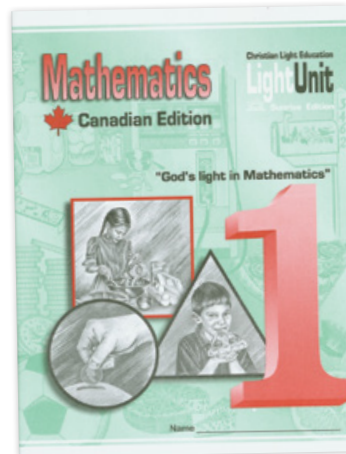

826125 **Wall Cards** 8¼ x 10¾ **\$21.95**

My Counting Book

Students journey to 1,000 by writing ten numbers a day with reward activities at intervals.

2073013 **Grade 1** \$3.50

Canadian Math Sunrise Edition

Sunrise Math with Canadian spellings and coins.

Grade 1 Course Components

10 LightUnits 101-110 \$53.50
2 Teacher's Guides 101-110 \$26.90

Grade 2 Course Components

10 LightUnits 201-210 \$53.50
2 Teacher's Guides 201-210 \$26.90

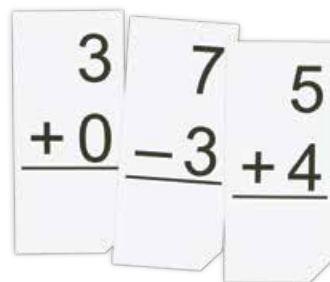

Support items on this page match Canadian Math.

Counting Chart 1-200

Use this double-sided, laminated chart and a dry-erase marker to visualize number patterns and relationships. (Needed for Grades 1 & 2.)

2073014 **Grades 1 & 2** (7 x 8 1/4) \$2.75

Addition and Subtraction Flash Cards

Comes with a guide outlining a system for memorizing all the facts from 0-18. Cards are numbered and tabbed for easy sorting and rearranging into groups. Required for Math Grades 1-4. 204 cards.

1073013 **Grades 1-4** \$38.50

Multiplication and Division Flash Cards

Multiplication facts from 0-12 are on one side, with the matching division facts on the opposite side. Cards for each table can be pulled out to memorize separately. Required for Math Grades 2-4. 156 cards.

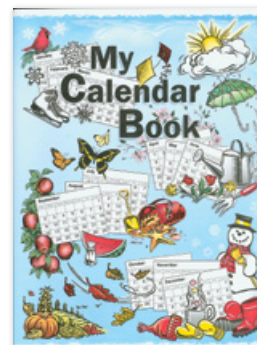

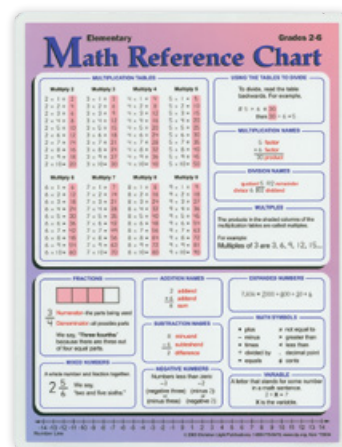

1073033 **Grades 2-4** \$18.65

Student Clock With Gears

A durable plastic clock with gears to maintain the correct hour and minute relationship. Color-coded hour and minute markings.

2073018 **Grades 1 & 2** \$3.70

My Calendar Book

Enrichment activities with charts, graphs, and statistics related to calendars and weather. Teacher notes are included. Can be used as a math supplement for students in Grades 1, 2, or 3 or as a fun activity for older students.

2073019 **Grades 1-3** \$6.75

Elementary Math Reference Chart

This two-sided laminated chart contains multiplication tables, symbols, terms, abbreviations, definitions, metric and U.S. tables of measures, an inch ruler, a centimeter ruler, and more.

2073034 **Grades 2-6** \$4.50

Reading Sunrise 2nd Edition

Reading 2 builds character and develops reading skills using two readers, *Helping Hands* and *Happy Hearts*, both illustrated with full-color paintings. Reading mechanics are systematically taught and reviewed. Study skills and oral reading are emphasized. Exercises teach three types of comprehension: literal, inference, and application.

Using the Course

The **LightUnit study** uses LUs 201-205 with *Helping Hands* and LUs 206-210 with *Happy Hearts*. Students may do some exercises independently. The Teacher's Guide includes LightUnit pages with answers and class discussion ideas.

The **Worksheets study** requires teacher involvement to provide review and prepare students for tests. The two booklets contain a total of 64 two-page lessons. The Teacher's Guide contains answers.

Course Components

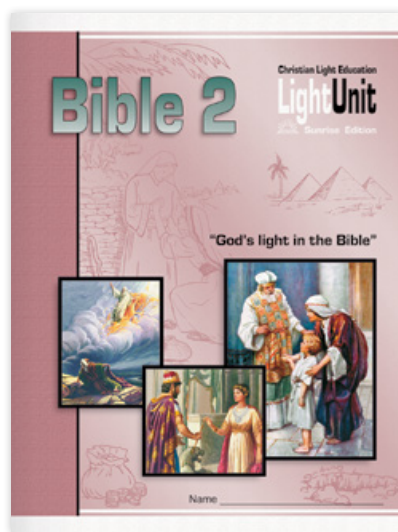

2 Readers – Required for both study methods	
<i>Helping Hands</i>	\$13.50
<i>Happy Hearts</i>	\$13.50

Study by LightUnit method

10 LightUnits 201-210	\$46.00
2 Teacher's Guides 201-210	\$26.90

Study by Worksheets method

2 Worksheet Sets 1-10	\$21.00
1 Tests & Quizzes	\$5.95
1 Teacher's Guide 1-10	\$15.40

Bible Sunrise Edition

Bible 2 contains Old Testament stories written on a child's level. Many of the stories from Grade 1 are retold and expanded. Each two-page lesson includes a simply written, captivating story and a corresponding activity such as ordering events, uncoding a secret message, color-by-number, or a simple crossword puzzle. This course contains no quizzes or tests. It allows the child to simply enjoy the Bible and learn its truths without academic pressure.

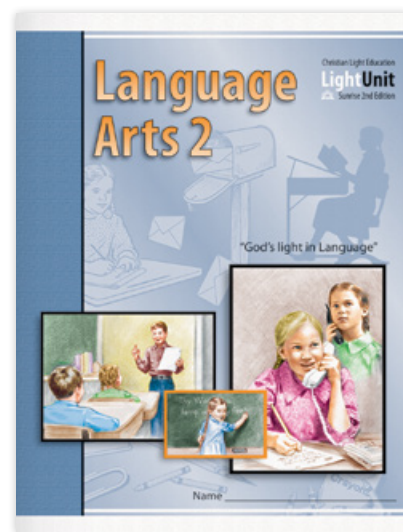

Using the Course

Each of the five LightUnits has sixteen lessons, providing two or three Bible lessons a week for a full school term.

The Teacher's Guide contains the corresponding Bible references, a more detailed version of each story to read aloud, and discussion questions. Reproductions of the student activity pages with answers are also included.

Course Components

5 LightUnits 201-205	\$26.75
1 Teacher's Guide 201-205	\$17.85

Language Arts Sunrise 2nd Edition

Language Arts 2 completes the phonics program begun in Learning to Read and Language Arts 1. Students also learn about nouns, pronouns, adjectives, verbs, capitalization, punctuation, and how to identify sentences and phrases. Spelling and penmanship are included. Each LightUnit contains a creative writing assignment.

Using the Course

Students new to the curriculum should take our Language Arts Diagnostic Test (page 78) to ensure correct grade level placement. Teachers should closely monitor LightUnit progress, but students may do some work independently. Use Extra Practice Sheets for extra review.

The Teacher's Guide includes daily lesson plans and student pages with answers. Appendices include alternate LightUnit tests, a scope and sequence, spelling word lists, and creative writing and penmanship teaching suggestions.

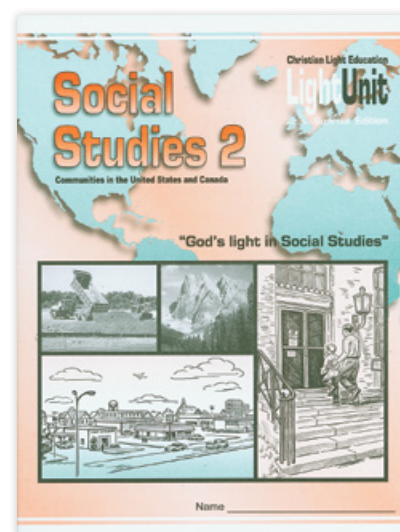

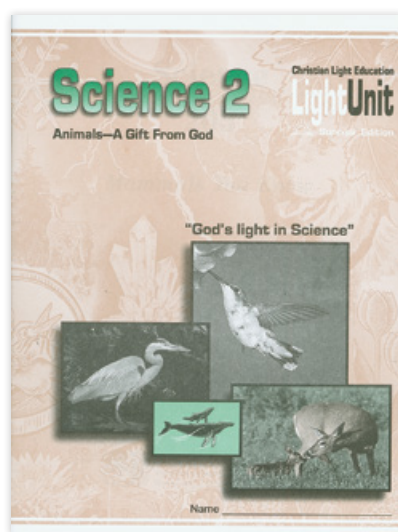

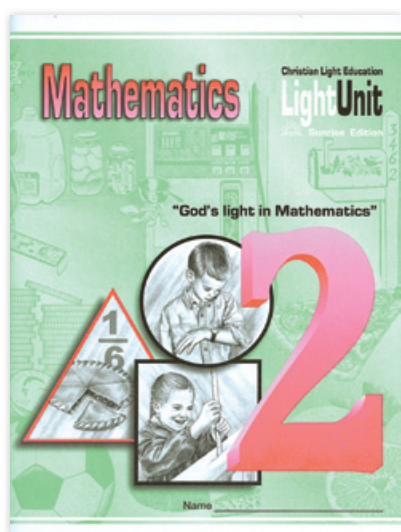

Course Components

10 LightUnits 201-210	\$53.50
1 Teacher's Guide 201-210	\$21.50

Optional Items

Extra Practice Sheets LA 2	\$5.35
or Phonics Flash Cards 5 x 7	\$21.95
Phonics Wall Cards 8 1/4 x 10 3/4	\$30.75
I Can Write Cursive	\$7.25
Spelling Flash Cards	\$59.95

See page 32 & 72 for support items.

Math Sunrise Edition

Math 201 reviews concepts that must be mastered to succeed in Math 2. Math 202-210 teach adding and subtracting multi-digit numbers with carrying and borrowing, fractions, U.S. and metric measurement, and multiplication tables for 0, 1, 2, 5, and 10. LightUnit themes include pets, grandparents, and seasons.

Using the Course

Students new to the curriculum should take our Math Diagnostic Test (page 78) to ensure proper grade level placement. You'll need the Counting Chart and our flash cards for the daily lesson plans. The Teacher's Guides give teaching tips, extra practice, LightUnit answers, and alternate tests.

Course Components

10 LightUnits 201-210	\$53.50
2 Teacher's Guides 201-210	\$26.90
Flash Cards Add. & Sub.	\$38.50
Flash Cards Mult. & Div.	\$18.65

Optional Items

My Calendar Book	\$6.75
Student Clock with gears	\$3.70
Reference Chart Grades 2-6	\$4.50

 See page 33 for Canadian Math.

 See pages 33 & 76 for support items.

Science Sunrise Edition

Supplemental Course. Science 2 is a study of animals and birds. The LightUnit themes are as follows:

- 201 God Gives Us Animals
- 202 Animals and Their Habitats
- 203 Mammals You Know
- 204 Learning About Birds
- 205 Birds and Bird-Watching

Each lesson contains 2-4 pages of activities. For LightUnits 204 and 205, you will need a field guide for bird-watching (see page 74).

Using the Course

Each unit of this course stands alone. Use all or some units in whatever sequence you prefer. The five LightUnits contain half a year's work but may be spread over a whole year.

The Teacher's Guide includes reproductions of LightUnit pages with answers, plus ideas for hands-on enrichment activities.

Course Components

5 LightUnits 201-205	\$26.75
1 Teacher's Guide 201-205	\$17.85
Field Guide	(see p. 74)

 See page 74 for support items.

Social Studies Sunrise Edition

Supplemental Course. Social Studies 2 builds on concepts—families, neighborhoods, communities, and their relationship to the larger world—that were introduced in Level 100. Each unit contains two quizzes and a test.

LightUnit titles are as follows:

- 201 Families and Neighbors
- 202 Communities
- 203 Communities at Work
- 204 Travel
- 205 Children From Different Communities

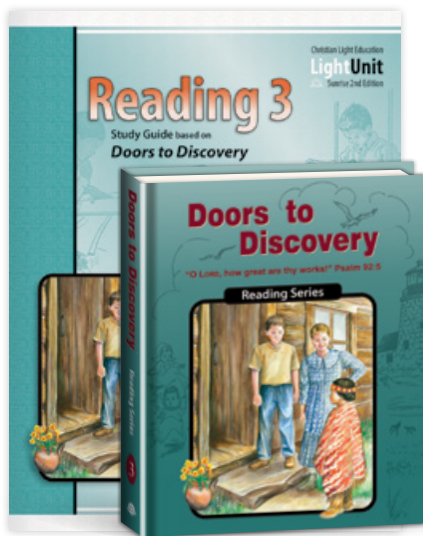

Using the Course

This course is not incremental and doesn't continue review from one unit to the next. You may use all or some units in whatever sequence you prefer. The five LightUnits contain half a year's work but may be spread over a whole year if you prefer.

The Teacher's Guide includes reproductions of LightUnit pages with answers, lesson plans, and suggestions for extra enrichment activities.

Course Components

5 LightUnits 201-205	\$26.75

Bible Christian Light Education Sunrise Edition

Bible 3 is based on the New Testament. LightUnit 301 is a fictional story acquainting students with Jewish culture during the time of Christ.

LightUnits 302-305 begin a study of the Gospels that continues into fourth grade. Each lesson contains an interesting story from Jesus' life. Activities include matching exercises, true or false items, mazes, puzzles, coded messages, and map work. Beautiful, realistic pencil drawings bring life to each Bible scene the children read about.

Using the Course

Each LightUnit contains sixteen lessons, providing two or three Bible lessons a week for a full school term. Each LightUnit includes two quizzes and a test.

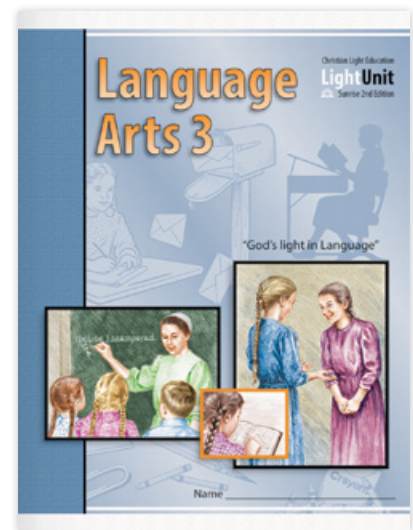

The Teacher's Guide gives objectives and suggestions for teaching each lesson and provides alternate LightUnit tests. Reproductions of the LightUnit pages, quizzes, and tests are included with answers.

Course Components

5 LightUnits 301-305	\$26.75

Optional Item

5 Answer Keys 301-305	\$18.75
-----------------------	---------

Language Arts Christian Light Education Sunrise 2nd Edition

Language Arts 3 teaches grammar, spelling, and penmanship. Students identify nouns, verbs, adjectives, and sentence subjects, and begin diagramming. Language mechanics include punctuation, capitalization, and subject-verb agreement. Each LightUnit contains a creative writing lesson. Students learn to use contents pages, indexes, dictionaries, and encyclopedias.

Using the Course

Use our Diagnostic Test (page 78) to place new students. The teacher should introduce the new concepts; students can then work on the lesson independently.

The Teacher's Guide includes LightUnit pages with answers, review questions, teaching notes, alternate tests, and spelling words.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

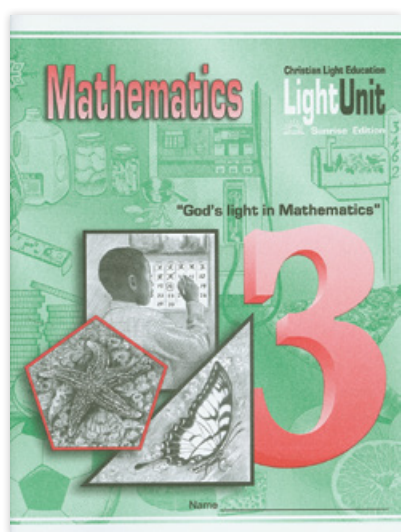

Course Components

10 LightUnits 301-310	\$53.50
1 Teacher's Guide 301-310	\$21.50

See pages 72 & 73 for support items.

Math Sunrise Edition

Math LightUnit 301 reviews concepts that must be mastered to succeed in Math 3. LightUnits 302-310 teach new skills, including multiplication and division tables through 10. We teach U.S. and metric measurements simultaneously. Story problem themes include insects, cooking, the ocean, and a family vacation to Yellowstone National Park.

Using the Course

Students new to the curriculum should take our Math Diagnostic Test (page 78) to ensure proper grade level placement. Each LightUnit contains two quizzes and a test. Flash cards are required for daily fact drills. The Elementary Math Reference Chart contains multiplication tables, symbols, terms, abbreviations, definitions, metric/U.S. tables of measures, and more.

The Teacher's Guide gives teaching tips, extra practice, LightUnit answers, and alternate tests.

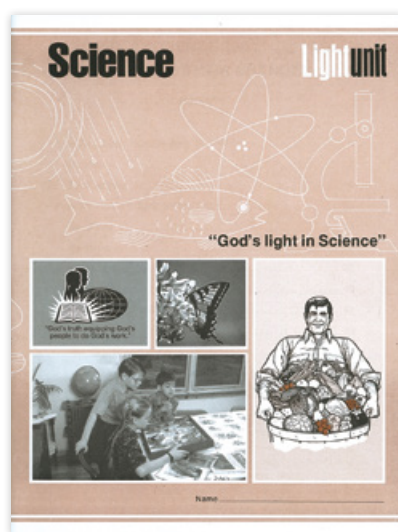

Course Components

10 LightUnits 301-310	\$53.50
1 Teacher's Guide 301-310	\$21.50
Flash Cards Add. & Sub.	\$38.50
Flash Cards Mult. & Div.	\$18.65

Optional Items

Reference Chart Grades 2-6	\$4.50
10 Answer Keys 301-310	\$37.50

 See page 76 for support items.

Science

Science 3 explores scientific fundamentals. The ten LightUnit themes are as follows:

- 301 You Grow and Change
- 302 Plants
- 303 Animals: Growth and Change
- 304 You Are What You Eat
- 305 Properties of Matter
- 306 Sounds and You
- 307 Times and Seasons
- 308 Rocks and Their Changes
- 309 Heat Energy
- 310 Physical Changes

Using the Course

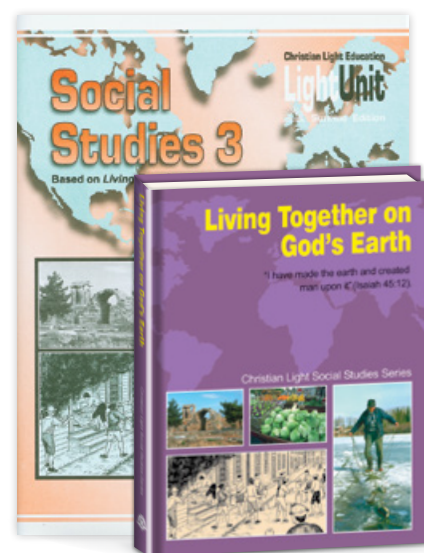

Each LightUnit can be completed in about three weeks and includes self checks and a LightUnit test. Answer keys are required. The ten LightUnits provide a year's work. Science supplies correlating with this science course are available from Home Science Tools®.

No Teacher's Guide is available; the lessons are geared for self-study.

Course Components

10 LightUnits 301-310	\$53.50
9 Answer Keys 301-310	\$33.75

 See page 74 for support items.

Social Studies Sunrise Edition

Social Studies 3 uses *Living Together on God's Earth*. The student recognizes his own community as a small part of the earth, then explores communities from Bible times, Europe, America, and Israel.

You have two options for this course: use the LightUnits or follow the textbook exercises. Both options require the textbook.

Using the Course

The LightUnit study uses exercises, quizzes, and tests. Omit LightUnit 306 for a five-LightUnit course. The Teacher's Guide includes answers, discussion/activity ideas, and reproducible maps.

The textbook study uses the text questions. The Teacher's Guide contains answers, discussion ideas, reproducible maps, and test answers.

Course Components

1 Textbook - Required for both study methods	
<i>Living Together on God's Earth</i>	\$35.85

Study by LightUnit method

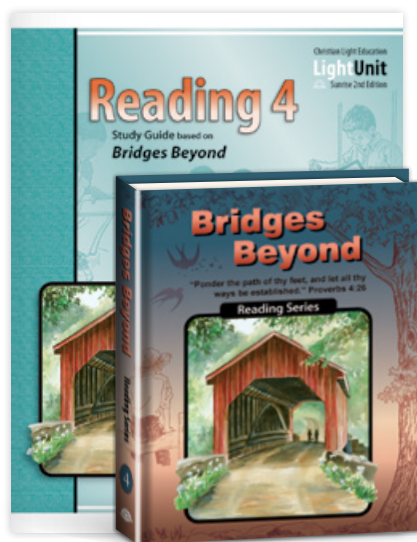

3 LightUnits LUs 301-306	\$27.60
1 Teacher's Guide 301-306	\$17.85
3 Answer Keys 301-306 (opt.)	\$20.25

Study by Textbook method

1 Tests Pack (per student)	\$2.75
1 Teacher's Guide	\$17.85

Optional Item for Textbook method

1 Outline Maps Pack	\$5.95
---------------------	--------

Reading

Reading 4 uses five LightUnits and is based on the reader *Bridges Beyond*, illustrated with full-color art. The stories build bridges to real people, historical events, the animal world, and other cultures. Exercises build vocabulary and employ skills such as inferring, summarizing, recognizing basic story elements, understanding cause and effect, working with figures of speech, and understanding the mechanics of poetry. New concepts are reviewed systematically.

Using the Course

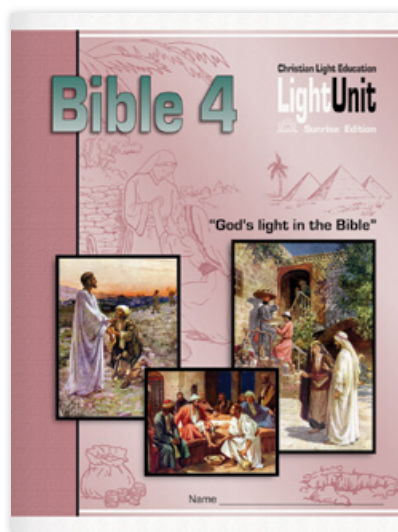

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

or	1 Reader	
	<i>Bridges Beyond</i>	\$16.40
	5 LightUnits 401-405	\$23.00
	1 Teacher's Guide 401-405	\$17.85
	1 Answer Key 401-405	\$8.65
	1 Quiz and Test Answer Key	\$3.75

Bible

Bible 4 expands the study of the Gospels begun in Bible 3. The first LightUnit is a fictional story of children in New Testament times that acquaints students with Jewish culture and geography during Jesus' life on earth. LightUnits 402-405 focus on Christ's earthly ministry, His teachings, and His death and resurrection. Each lesson contains a Bible story followed by workbook activities. Some Bible memory work is included.

Using the Course

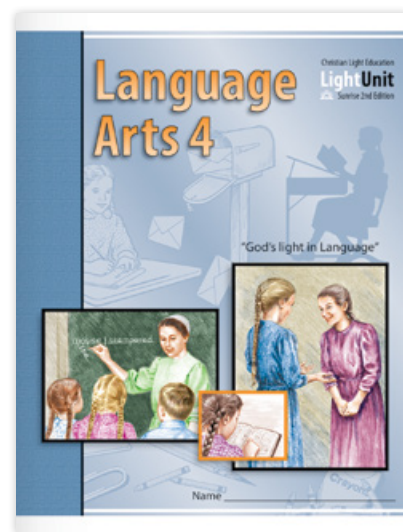

Each LightUnit consists of sixteen lessons, providing two or three Bible lessons a week for a full school term. Each LightUnit includes two quizzes and a test.

The Teacher's Guide gives the corresponding Bible text for each story, detailed lesson plans, and discussion questions. Reproductions of the LightUnit pages, quizzes, and tests are included with answers.

The Answer Key is not needed if you buy the Teacher's Guide.

Course Components

or	5 LightUnits 401-405	\$26.75
	1 Teacher's Guide 401-405	\$17.85
	1 Answer Key 401-405	\$6.75
	 See page 48 for alternate Sunrise course— Elementary Bible Elective I	

Language Arts

Language Arts 4 integrates grammar, spelling, and penmanship. In addition to basic English skills, students learn to research information using encyclopedias and personal interviews, to listen and take notes, and to scan for specific information. Each LightUnit includes two creative writing lessons.

Using the Course

Use our Diagnostic Test (page 78) to place new students. The teacher should monitor daily work, but students can complete most exercises independently. Use the Extra Practice Sheets for additional review.

The Teacher's Guide includes LightUnit pages with answers, teaching notes, spelling words, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

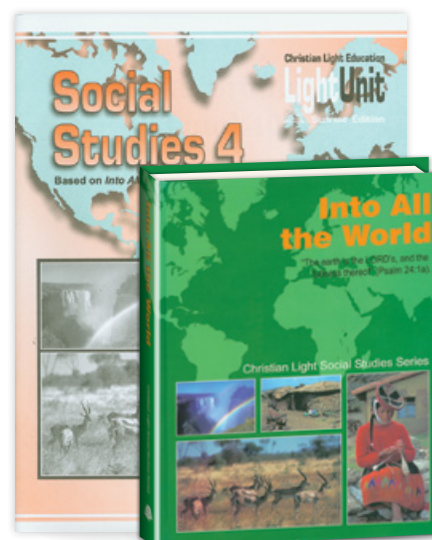

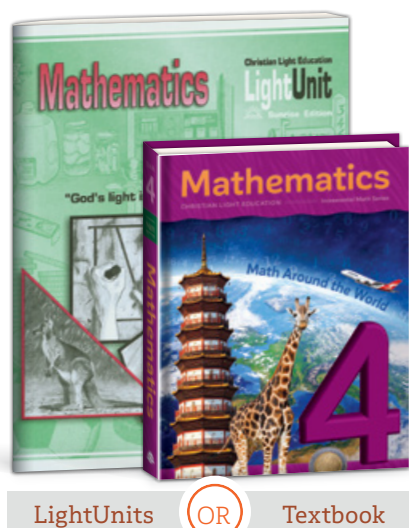

Course Components

or	10 LightUnits 401-410	\$53.50
	1 Teacher's Guide 401-410	\$21.50
	1 Answer Key 401-410	\$15.30
	1 Quiz and Test Answer Key	\$6.75

Optional Items

Reference Chart Grades 3 & 4	\$4.50
Extra Practice Sheets LA 4	\$5.35
Basics of Diagramming	\$4.60
Pentime Penmanship 4	\$8.25

 See pages 72 & 73 for support items.

Math Sunrise Edition

Along with math skills such as long division, fractions, and decimals, Math 4 lays a foundation for later geometry and algebra. Unit themes take students from Italy to Australia to Antarctica.

Using the Course

Use our Diagnostic Test (page 78) to place students new to the curriculum. Choose a study method:

LightUnit Study Method: Students can write in the ten LightUnits. LightUnit 401 is a review of Math 3.

Textbook Study Method: The textbook makes it easy to refer to previous lessons. Students write answers on other paper (except on quizzes and tests). There are two options for answers: Teacher's Guide without solutions or Full Solution Answer Key (see page 19).

Course Components

Study by LightUnit method

10 LightUnits 401-410	\$53.50
2 Teacher's Guides 401-410	\$26.90
2 Answer Keys 401-410	\$13.50

Study by Textbook method

1 Textbook <i>Math Around the World</i>	\$64.50
1 Student Material	\$18.50
1 Full Solution Answer Key	\$19.95
1 Teacher's Guide Includes CD	\$67.50

Required for both study methods

Flash Cards Add. & Sub.	\$38.50
Flash Cards Mult. & Div.	\$18.65

 See page 76 for support items.

Science Sunrise Edition

Science 4 exposes students to the wonders of God's creation, beginning with a study of plants and animals. Students learn about God's gift of the earth, as well as weather and the majesty of the planets and constellations. Students conclude their study with an introduction to the principles of matter, energy, sound, light, magnetism, and electricity.

Using the Course

Five LightUnits provide a total of eighty lessons, including quizzes and tests. Two or three lessons a week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes textbook pages along with teaching instructions, discussion questions, and additional activities and experiments.

Science supplies for this course are available from Home Science Tools.®

Course Components

1 Textbook	\$42.95
5 LightUnits 401-405	\$23.00
1 Answer Key 401-405	\$8.65
1 Quiz and Test Answer Key	\$3.75

Optional Item

1 Teacher's Guide 401-405	\$26.50
<i>Teacher's Guide Available June 2025</i>	

 See page 74 for support items.

Social Studies Sunrise Edition

Social Studies 4 uses the textbook *Into All the World*. Students tour the world, learn the geography of each continent, and discuss stewardship of earth's resources. You have two options for this course: use the LightUnits or follow the textbook exercises. Both options require the textbook.

Using the Course

The LightUnit study provides exercises, reviews, quizzes, and tests. Teacher's material includes lesson notes, discussion/activity ideas, and reproducible maps (or use map pack). Answer keys are required.

The textbook study uses the textbook exercises and requires more teacher help. Teacher's material includes weekly lesson plans, answers, and discussion ideas.

Course Components

1 Textbook – Required for both study methods <i>Into All the World</i>	\$40.75
1 Outline Maps Pack (optional)	\$5.95

Study by LightUnit method

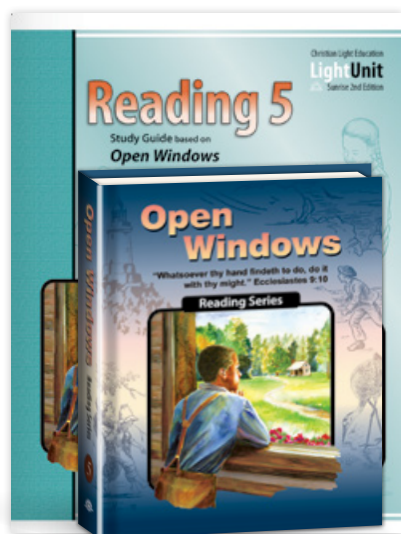

5 LightUnits LUs 401-410	\$46.00
2 Answer Keys 401-410	\$13.50

Study by Textbook method

1 Tests Pack (per student)	\$2.75
1 Teacher's Guide	\$19.50

Optional Item for LightUnit Method

1 Teacher's Guide 401-410	\$15.40
---------------------------	---------

Reading Sunrise 2nd Edition

Reading 5 uses five LightUnits and is based on the reader *Open Windows*, illustrated with full-color art. Stories open windows to memorable events and the wonders of nature.

Using the LightUnits, students develop comprehension by making inferences, analyzing story elements, determining the main idea, comparing and contrasting, completing analogies, working with figurative language, and recognizing literary techniques. Vocabulary, poetry, and lesson applications are included in the course.

Using the Course

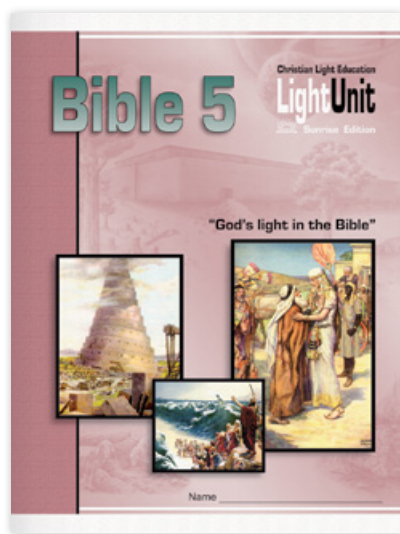

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

1 Reader <i>Open Windows</i>	\$16.40
5 LightUnits 501-505	\$23.00
1 Teacher's Guide 501-505	\$17.85
1 Answer Key 501-505	\$8.65
1 Quiz and Test Answer Key	\$3.75

Bible Sunrise Edition

Bible 5 begins a study of the Old Testament, starting with Creation and ending with the life of Moses. Each lesson contains a well-written Bible story followed by workbook activities. Map exercises help students understand the geography corresponding to the lessons.

Using the Course

Each of the five LightUnits has sixteen lessons including two quizzes and a test. Doing two or three lessons each week will provide Bible teaching for the entire year.

The Teacher's Guide gives objectives and suggestions for teaching each lesson and provides alternate tests. It also contains reproductions of the LightUnit pages with answers.

The Answer Key is not needed if you buy the Teacher's Guide.

Course Components

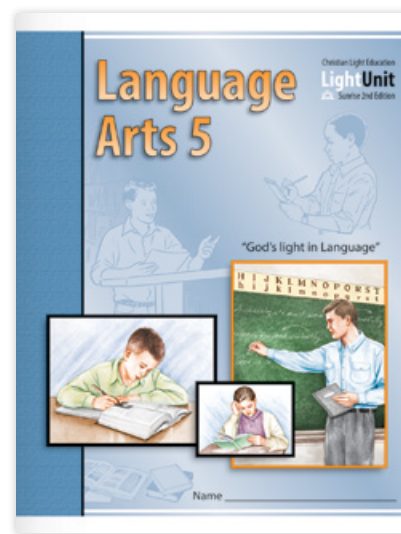

5 LightUnits 501-505	\$26.75
1 Teacher's Guide 501-505	\$17.85
1 Answer Key 501-505	\$6.75

Optional Item

Reference Maps Grade 5 \$4.50

See page 48 for alternate Sunrise course—**Elementary Bible Elective I**

See page 75 for support items.

Language Arts Sunrise 2nd Edition

Language Arts 5 includes grammar, spelling, and penmanship. New skills are introduced daily and secured by frequent review. Students learn to recognize parts of speech and understand the functions that each part of speech can perform. This course also deals with sentence structure, including discussions of complements.

Using the Course

Use our Diagnostic Test (page 78) to place new students. The teacher should monitor daily work, but students can complete most exercises independently. Use the Extra Practice Sheets for additional review.

The Teacher's Guide includes LightUnit pages with answers, teaching notes, spelling words, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

10 LightUnits 501-510	\$53.50
2 Teacher's Guides 501-510	\$26.90
1 Answer Key 501-510	\$15.30
1 Quiz and Test Answer Key	\$6.75

Optional Items

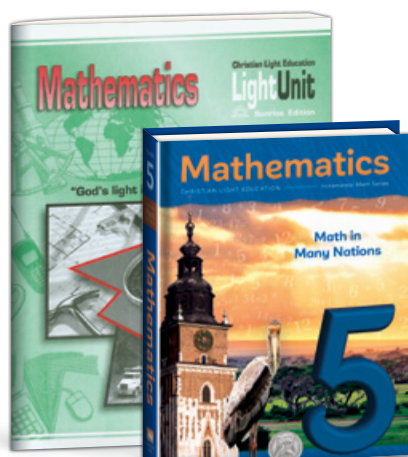

Extra Practice Sheets LA 5 \$5.35

Reference Chart Grades 5 & 6 \$4.50

Basics of Diagramming \$4.60

Pentime Penmanship 5 \$8.25

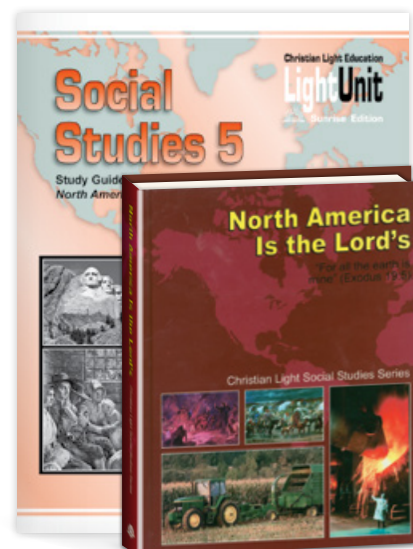

See pages 72 & 73 for support items.

LightUnits

Textbook

Math

Along with math skills of reducing, carrying and borrowing with fractions, multiplying and dividing decimals, and applying the four operations to increasingly complex problems, Math 5 continues building a foundation for later geometry and algebra. Unit themes relate to Christian ministries around the world.

Using the Course

Use our Diagnostic Test (page 78) to place students new to the curriculum. Choose a study method:

LightUnit Study Method: Students can write in the ten LightUnits. LightUnit 501 is a review of Math 4.

Textbook Study Method: The textbook makes it easy to refer to previous lessons. Students write answers on other paper (except on quizzes and tests). There are two options for answers: Teacher's Guide without solutions or Full Solution Answer Key (see page 19).

Course Components

Study by LightUnit method

10 LightUnits 501-510	\$53.50
2 Teacher's Guides 501-510	\$26.90
2 Answer Keys 501-510	\$13.50

Study by Textbook method

1 Textbook	
Math in Many Nations	\$64.50
1 Student Material	\$18.50
1 Full Solution Answer Key	\$19.95
1 Teacher's Guide Includes CD	\$67.50

 See page 76 for support items.

Science

Science 5 is based on the text *God's Marvelous Gifts* and covers the physical world, plants, the heavens, animal life, and other parts of creation. The text reading level is light for competent fifth graders.

You can either use the LightUnits or follow the textbook exercises. Both options require the textbook.

Using the Course

The LightUnit study provides exercises, reviews, self checks, quizzes, and tests. Answer keys are required.

The textbook study uses questions from the textbook and requires more teacher help. Each student needs a test packet. The Teacher's Guide contains answers, teaching tips, and enrichment.

Course Components

- 1 Textbook – Required for both study methods
God's Marvelous Gifts \$36.40

Study by LightUnit method

5 LightUnits 501-505	\$23.00
1 Answer Key 501-505	\$6.75

Study by Textbook method

1 Tests Pack (per student)	\$2.75
1 Teacher's Guide	\$19.50

 See page 74 for support items.

Social Studies

Social Studies 5 is based on the text *North America Is the Lord's*. The text takes a God-centered view of the history and geography of the United States and Canada, countering the humanistic view that our land is a product of human ingenuity and that we control our destiny. You have two options for this course: use the LightUnits or follow the textbook exercises. Both options require the textbook.

Using the Course

The LightUnit study provides self-directed exercises, reviews, self checks, quizzes, and tests. Answer keys are required.

The textbook study uses the questions/activities from the textbook and requires more teacher help. There is no Teacher's Guide, but an Answer Key is provided. Each student also needs a test packet.

Course Components

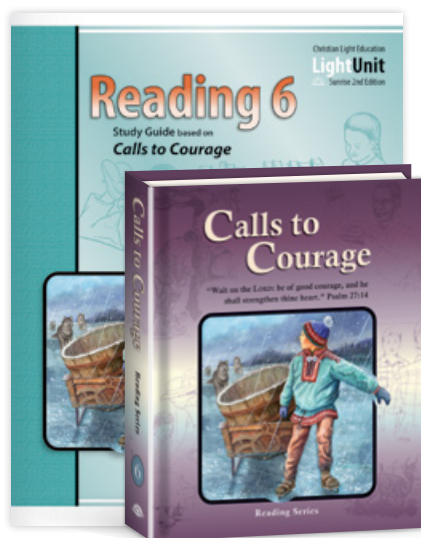

- 1 Textbook – Required for both study methods
North America Is the Lord's \$40.75

1 Answer Key	\$3.75

Reading Christian Light Education Sunrise 2nd Edition

Reading 6 uses five LightUnits and is based on the reader *Calls to Courage*, illustrated with full-color art. Stories of courageous men and women provide good examples for sixth graders to follow.

Using the LightUnits, students build vocabulary, make inferences, identify the author's purpose, analyze story elements, recognize literary techniques, work with fiction and nonfiction genres, examine the mechanics of poetry, and apply lessons from the stories.

Using the Course

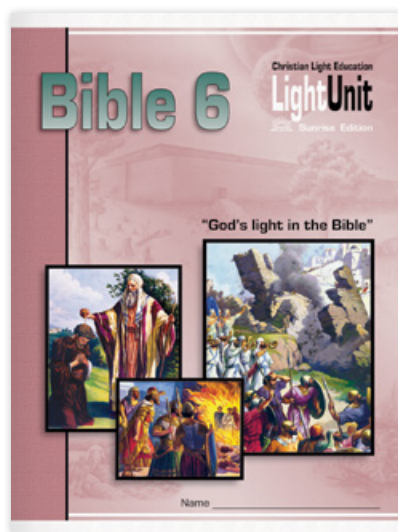

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

1 Reader <i>Calls to Courage</i>	\$16.40
5 LightUnits 601-605	\$23.00
1 Teacher's Guide 601-605	\$17.85
1 Answer Key 601-605	\$8.65
1 Quiz and Test Answer Key	\$3.75

Bible Christian Light Education Sunrise Edition

Bible 6 picks up the study of the Old Testament where Bible 5 ended. It begins with Joshua and the crossing of the Jordan and closes with the return from the Captivity and a look forward to the coming Messiah. Each lesson contains a well-written Bible story and includes workbook activities. In the later LightUnits of the course, students begin reading from the KJV Bible as a part of their lesson text. Map exercises show the geography of the different periods covered.

Using the Course

Bible 6 has ten LightUnits with sixteen lessons in each, including the two quizzes and a test. This provides for one lesson per day for one school year. The Teacher's Guides give objectives and suggestions for teaching each lesson, provide alternate tests, and include the LightUnit pages complete with answers to all activities.

The Answer Keys are not needed if you buy the Teacher's Guides.

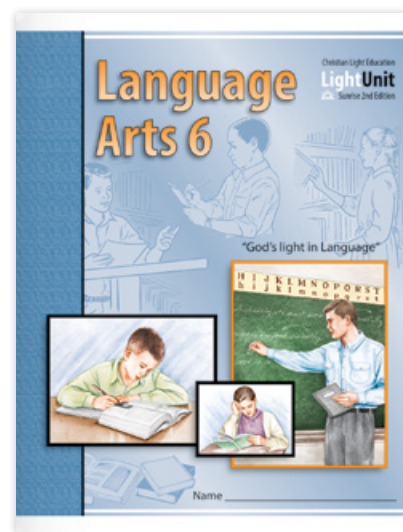

Course Components

10 LightUnits 601-610	\$53.50
2 Teacher's Guides 601-610	\$26.90
2 Answer Keys 601-610	\$13.50

Optional Item

Reference Maps Grade 6 \$4.50

See page 75 for support items.

Language Arts Christian Light Education Sunrise 2nd Edition

Language Arts 6 integrates grammar, spelling, and penmanship. New skills are introduced at the beginning of each daily lesson, followed by review. Lessons conclude with penmanship and spelling. Each LightUnit includes two lessons of creative writing.

Students study appositives, complements, dependent clauses, and pronouns.

Using the Course

Use our Diagnostic Test (page 78) to place new students. The teacher should monitor daily work, but students can complete most exercises independently. Use the Extra Practice Sheets for additional review.

The Teacher's Guide includes LightUnit pages with answers, teaching notes, spelling words, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

10 LightUnits 601-610	\$53.50

 See page 76 for support items.

Science Sunrise Edition

Science 6 gives students a solid basis in a variety of scientific subjects including astronomy, weather, climate, and human anatomy. The updated graphics and pictures help students learn as well as marvel at God's awesome creation. Experiments and demonstrations are included to give students opportunities to apply what they have learned and expand their understanding beyond the text.

Using the Course

Each of the nine LightUnits has sixteen daily lessons including two quizzes, a self check, and a test. Lessons include Looking Back sections that review important concepts to help the student prepare for quizzes and tests.

The Teacher's Guide includes objectives for each lesson, teaching tips, additional activities, and interesting information that goes beyond the lesson.

Science supplies correlating with this science course are available from Home Science Tools.®

Course Components

Reading Christian Light Education Sunrise 2nd Edition

Reading 7 uses five LightUnits and is based on the reader *The Road Less Traveled*. Stories and poems feature characters who faced significant decisions.

Using the LightUnits, students build vocabulary; examine literary elements such as setting, theme, and tone; interpret literary techniques such as metaphors, symbols, allusions, irony, and foreshadowing; identify story genres; practice types of writing; and learn critical thinking skills.

Using the Course

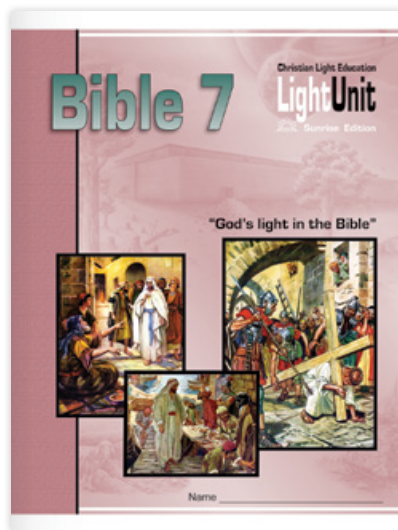

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

1 Reader <i>The Road Less Traveled</i>	\$16.40
5 LightUnits 701-705	\$23.00
1 Teacher's Guide 701-705	\$17.85
1 Answer Key 701-705	\$8.65
1 Quiz and Test Answer Key	\$3.75

Bible Christian Light Education Sunrise Edition

Bible 7 is a study of the Gospels. The first LightUnit gives a brief overview of each Gospel's unique characteristics. The rest of the course follows the chronological order of Luke but includes events and teachings from the other Gospels. Each lesson directs the student to read a portion of Scripture. The passage is then explained in the LightUnit and followed by activities where students interact with what they have learned. The course also teaches students how to use *Strong's Concordance*. Bible memory work is included.

Using the Course

Bible 7 has ten LightUnits with sixteen lessons in each, including the two quizzes and a test. This provides one lesson per day for one school year.

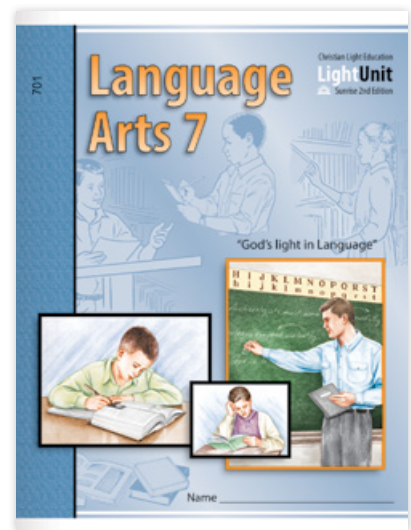

The Teacher's Guides include teacher meditations, lists of lesson emphases, and presentation and discussion suggestions. Extra practice sheets and alternate tests are also provided as well as reproductions of LightUnit pages with answers.

The Answer Keys are not needed if you buy the Teacher's Guide.

Course Components

10 LightUnits 701-710	\$53.50
2 Teacher's Guides 701-710	\$26.90
2 Answer Keys 701-710	\$13.50
<i>Strong's Concordance</i>	\$24.95
A print or electronic version is required for the course.	

See page 75 for support items.

Language Arts Christian Light Education Sunrise 2nd Edition

Language Arts 7 integrates grammar, spelling, and writing. Students study verb voice, subordination of ideas in sentences, verbals, adjective clauses, and adverb clauses. Each LightUnit includes at least two lessons of writing, in addition to periodic journaling exercises. In LightUnit 707, students write a research paper.

Using the Course

Use our Diagnostic Test (page 78) to place new students. Extra Practice Sheets provide additional review. The Teacher's Guide includes LightUnit pages with answers, teaching notes, spelling words, and alternate tests. The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

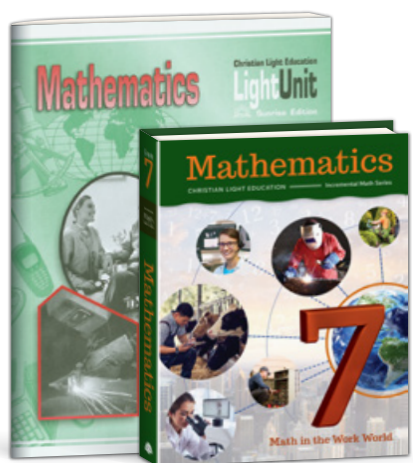

Course Components

10 LightUnits 701-710	\$53.50
2 Teacher's Guides 701-710	\$26.90
1 Answer Key 701-710	\$15.30

 See page 76 for support items.

Science

Science 7 covers a variety of general science subjects that lay a foundation for the high school sciences. Students are given many opportunities to try hands-on experiments and enrichment activities. The LightUnits are as follows:

- 701 God-Designed Plant Systems
- 702 God-Designed Body Systems
- 703 The Behavior of Living Things
- 704 Molecular Genetics
- 705 Chemical Structure and Change
- 706 Light and Sound
- 707 Motion and Its Measurement
- 708 Planet Earth
- 709 The Sun and Other Stars
- 710 Review

Using the Course

Each LightUnit can be completed in about three weeks and includes self checks and a LightUnit test. No Teacher's Guide is needed; the lessons are geared for self-study. Science supplies correlating with this science course are available from Home Science Tools.®

Course Components

10 LightUnits 701-710	\$53.50
5 Answer Keys 701-710	\$18.75

 See page 74 for support items.

Social Studies

Across the Ages takes students through human history from Creation to the early 21st century. This full-color text describes the course of Western civilization while highlighting the hand of God at work in world events. Sidebars, tidbits, and "insight boxes" provide additional context, and the Going Global feature expands the scope beyond Western civilization to cultures and empires around the world.

Using the Course

The LightUnit study provides self-directed exercises. Answer keys are required.

The Worksheet study requires more teacher input. Answer keys are required.

Reading Christian Light Education Sunrise 2nd Edition

Reading 8 uses five LightUnits and is based on the reader *Where Roads Diverge*, continuing the theme of choices begun in the seventh-grade reader.

Using the LightUnits, students build vocabulary; examine literary elements such as conflict, theme, and tone; interpret literary techniques such as metaphors, symbols, allusions, irony, and foreshadowing; identify literary genres; practice types of writing; learn critical thinking skills; and respond to truths illustrated in the stories.

Using the Course

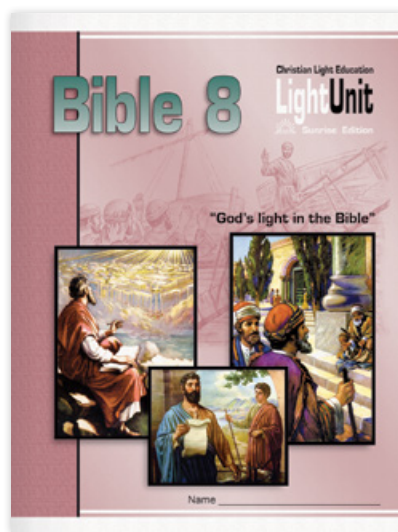

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

1 Reader <i>Where Roads Diverge</i>	\$16.40
5 LightUnits 801-805	\$23.00
1 Teacher's Guide 801-805	\$17.85
1 Answer Key 801-805	\$8.65
1 Quiz and Test Answer Key	\$3.75

Bible Christian Light Education Sunrise Edition

Bible 8 continues the study of the New Testament begun in Bible 7. The first four LightUnits cover the Book of Acts, and the remaining LightUnits give brief overviews of the epistles and Revelation. Each lesson directs the student to read a passage of Scripture. This passage is then explained and followed by activities where students interact with what they have learned. The course includes exercises using *Strong's Concordance* and *Baker's Bible Atlas*. Bible memory work is included.

Using the Course

Bible 8 has ten LightUnits with sixteen lessons in each, including two quizzes and a test. This provides one lesson per day for one school year.

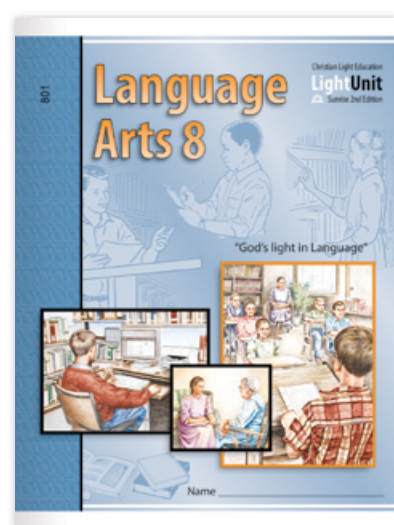

The Teacher's Guides include teacher meditations, lists of lesson emphases, and suggestions for presenting and discussing the lessons. Extra practice sheets and alternate tests are also provided. The Teacher's Guides contain the LightUnit pages complete with answers.

The Answer Keys are not needed if you buy the Teacher's Guide.

Course Components

10 LightUnits 801-810	\$53.50
2 Teacher's Guides 801-810	\$26.90
2 Answer Keys 801-810	\$13.50
<i>Strong's Concordance</i>	\$24.95
<i>Baker's Bible Atlas</i>	\$24.50

See page 75 for support items.

Language Arts Christian Light Education Sunrise 2nd Edition

Language Arts 8 integrates grammar, spelling, and writing. Students study infinitive phrases, transitive and intransitive verbs, compound-complex sentences, and perfect and progressive verb tenses. Each LightUnit includes at least two lessons of writing, in addition to periodic journaling exercises. In LightUnit 807, students write a research paper.

Using the Course

Use our Diagnostic Test (page 78) to place new students. Extra Practice Sheets provide additional review. The Teacher's Guide includes LightUnit pages with answers, teaching notes, spelling words, and alternate tests. The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

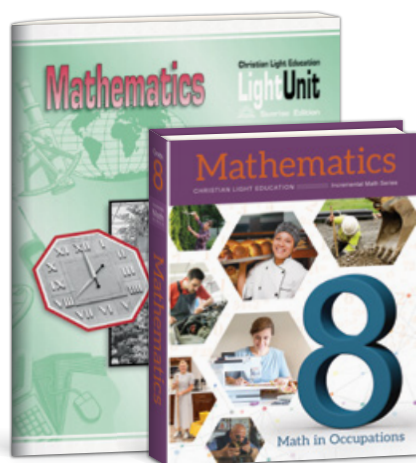

Course Components

10 LightUnits 801-810	\$53.50
2 Teacher's Guides 801-810	\$26.90
1 Answer Key 801-810	\$15.30
1 Quiz and Test Answer Key	\$6.75

Optional Items

Extra Practice Sheets LA 8	\$5.35
Reference Chart Grades 7 & 8	\$4.50
Basics of Diagramming	\$4.60
Pentime Penmanship 8	\$8.25

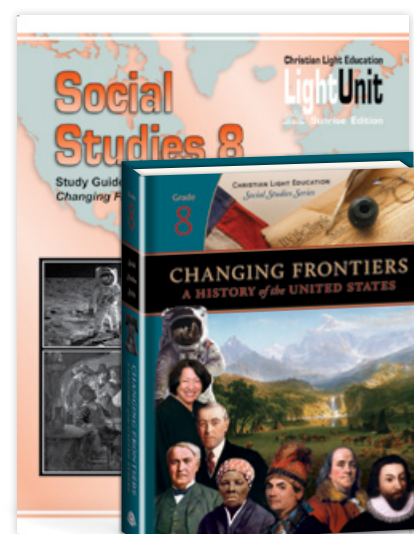

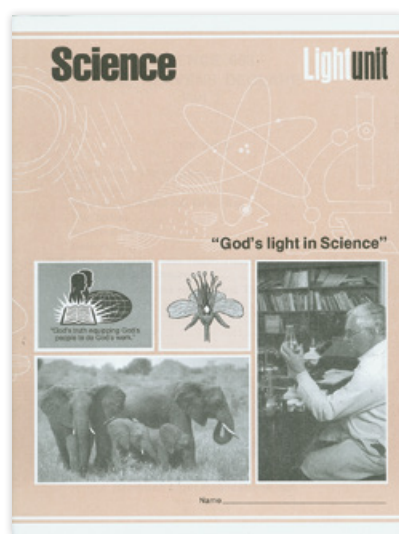

See pages 72 & 73 for support items.

LightUnits

Textbook

Math Sunrise Edition

Unit themes center on family businesses. Pre-algebra and geometry concepts, proportions, and solving/graphing linear equations on a coordinate plane equip students with skills for real-world problems. Unit 10 covers banking, budgeting, and balancing a checkbook.

Using the Course

Use our Diagnostic Test (page 78) to place students new to the curriculum. Choose a study method:

LightUnit Study Method: Students can write in the ten LightUnits. LightUnit 801 is a review of Math 7.

Textbook Study Method: The textbook makes it easy to refer to previous lessons. Students write answers on other paper (except on quizzes and tests). There are two options for answers: Teacher's Guide without solutions or Full Solution Answer Key (see page 19).

Course Components

Study by LightUnit method

10 LightUnits 801-810	\$53.50
2 Teacher's Guides 801-810	\$26.90
2 Answer Keys 801-810	\$13.50

Study by Textbook method

Science

Science 8 covers a variety of general science subjects:

- 801 Science in Our Lives
- 802 Properties of Matter
- 803 Changing Matter
- 804 Health and Nutrition
- 805 Energy
- 806 Magnets and Electricity
- 807 Using Machines
- 808 Levers, Pulleys, Gears, and Things
- 809 Balance in Nature
- 810 Science and Technology

Course Components

10 LightUnits 801-810	\$53.50
5 Answer Keys 801-810	\$18.75

Social Studies Sunrise Edition

From before Christopher Columbus to post-9/11, *Changing Frontiers* aims to present a positive, balanced, and colorful account of United States history. Students learn about pre-Columbus Americans, European explorers, and colonists; then they follow the formation, growth, and struggle of the nation. Sidebars and "perspective boxes" sharpen students' understanding.

Using the Course

The LightUnit study provides self-directed exercises. Answer keys are required.

The Worksheet study requires more teacher input. Answer keys are required.

Course Components

Art

Studio Articulations

Are you at a loss in knowing how to teach art? Are you ready to move beyond random craft projects? *Studio Articulations* art curriculum gives students a well-rounded, wide-ranging art education. Students learn art history, study the work of many different artists, and complete projects in a variety of mediums. Art examples are designed for Christian schools and homeschools and do not include inappropriate content.

Each level provides material for two years of instruction and is presented in twenty-four unit plans that each cover three class periods. Includes supply lists, teacher scripts, grading rubrics, step-by-step illustrations, and inspiration posters. Pictures illustrate each step in a project. Each level includes a teacher's book and poster packet.

For more detailed information, visit www.studioarticulations.com.

Bible

Elementary Bible Elective I Sunrise Edition

Acts Through Revelation

Designed for fourth or fifth grades, this course follows the growth of the New Testament church. The first four LightUnits focus on events in the Book of Acts. The last LightUnit briefly overviews the epistles and the Book of Revelation.

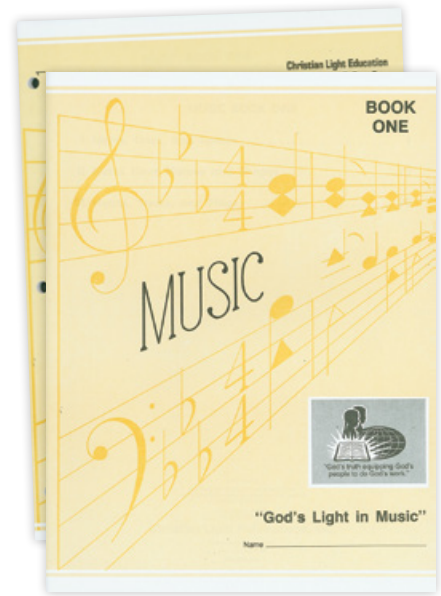

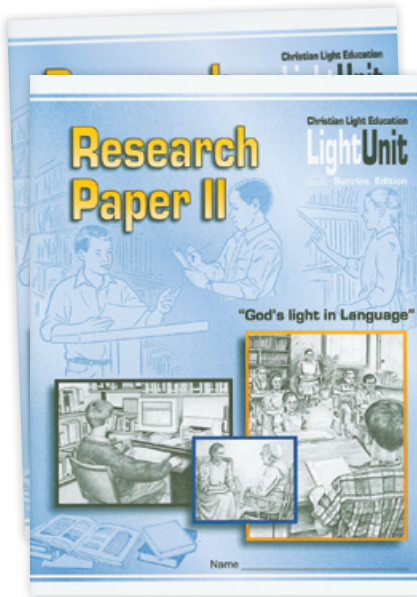

Each lesson contains a story and workbook activities. The Teacher's Guide gives objectives and suggestions for teaching lessons and provides alternate LightUnit tests. Reproductions of the LightUnit pages, quizzes, and tests are included with answers.

Each of the five LightUnits has sixteen lessons, providing two or three Bible lessons a week for a full school term. Each LightUnit includes two quizzes and a test.

Language Arts

But Not Forsaken Book Study

Students complete this sixteen-lesson study guide while reading *But Not Forsaken*. They learn what it was like to be a refugee family after World War II while also studying literary techniques such as foreshadowing, allusion, and flashback. The study guide includes two quizzes and one test. Recommended for Grades 7 and 8.

263025	But Not Forsaken	\$12.45
652550	Study Guide	\$5.35
652551	Answer Key	\$3.75

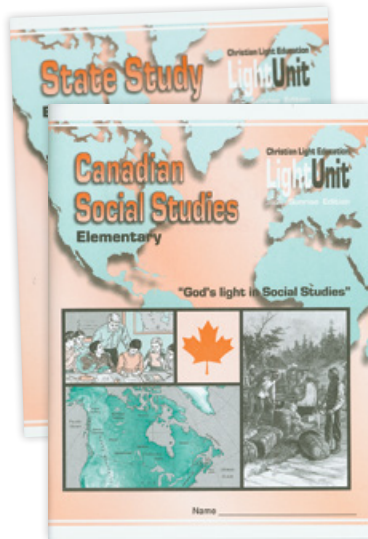

Music

Our music curriculum is designed to teach children using shaped notes commonly used in Anabaptist song-books. The course consists of one book and answer key per grade and a teacher's manual.

Each book reviews concepts learned in previous levels. Books 4-8 are also suitable for older students who have not had previous systematic music instruction.

The teacher's manual gives helpful suggestions for teaching Grades 1-8 and for developing a well-rounded music class. It also includes reproducible blackline master drill sheets to reinforce the concepts taught in the music books. They may be used as timed drills or as self-paced worksheets.

8 Music Books	each	\$5.35
8 Answer Keys	each	\$3.75
1 Teacher's Manual		\$6.75

Social Studies

State Study LightUnit Sunrise Edition

This mid-elementary study will help your student learn more of the geography, history, and government of your state. Can be used with any state. The Teacher's Guide includes teacher helps, outline maps, state songs, and contact information for each state.

652520	LightUnit	\$5.35
652521	Teacher's Guide	\$6.75

Canadian Social Studies Elementary Sunrise Edition

Help your Canadian students learn more about their country. This one-LightUnit course covers Canadian history, geography, and government on a 4th-6th grade level. Some lessons focus on your particular province. The Teacher's Guide includes detailed teacher plans, outline maps, and more. Forty-two lessons.

2080401	LightUnit	\$5.35
1080401	Answer Key	\$3.75
1078004	Teacher's Guide (optional)	\$6.75

Canadian Social Studies Grade 7

 Sunrise Edition

A five- or ten-unit course based on A Goodly Heritage. The first five units are study guides based on the textbook, and the last five are optional teacher-led unit studies. The course covers Canadian history up to Confederation. The teacher's material includes help for teaching the course, alternate LightUnit tests, and more.

1	Textbook A Goodly Heritage	\$27.75
	Hardcover. 363 pages.	
3	Workbooks LUs 701-705	\$23.00
1	Answer Key 701-705	\$6.75
1	Teacher's Guide (optional)	\$13.45

Canadian Social Studies Grade 8

 Sunrise Edition

A five- or ten-unit course based on Pleasant Places. The first five units are study guides based on the textbook, and the last five are optional teacher-led unit studies. Begins with Confederation and covers Canadian history up to the end of the 20th century. Teacher's material includes teaching helps, alternate LightUnit tests, reproducible outline maps, and more.

1	Textbook Pleasant Places	\$27.75
	Hardcover. 405 pages.	
3	Workbooks LUs 801-805	\$23.00
1	Answer Key 801-805	\$6.75
1	Teacher's Guide (optional)	\$13.45

Spanish

Speedy Spanish I Grade 5+

This course teaches students how to begin to read and speak Spanish. It teaches 500 Spanish words. Two workbooks include instructions to the student, matching exercises, grammar explanations, and a review and test after every five lessons. The audio USB drive gives the pronunciation for words, phrases, memory verses, and short songs.

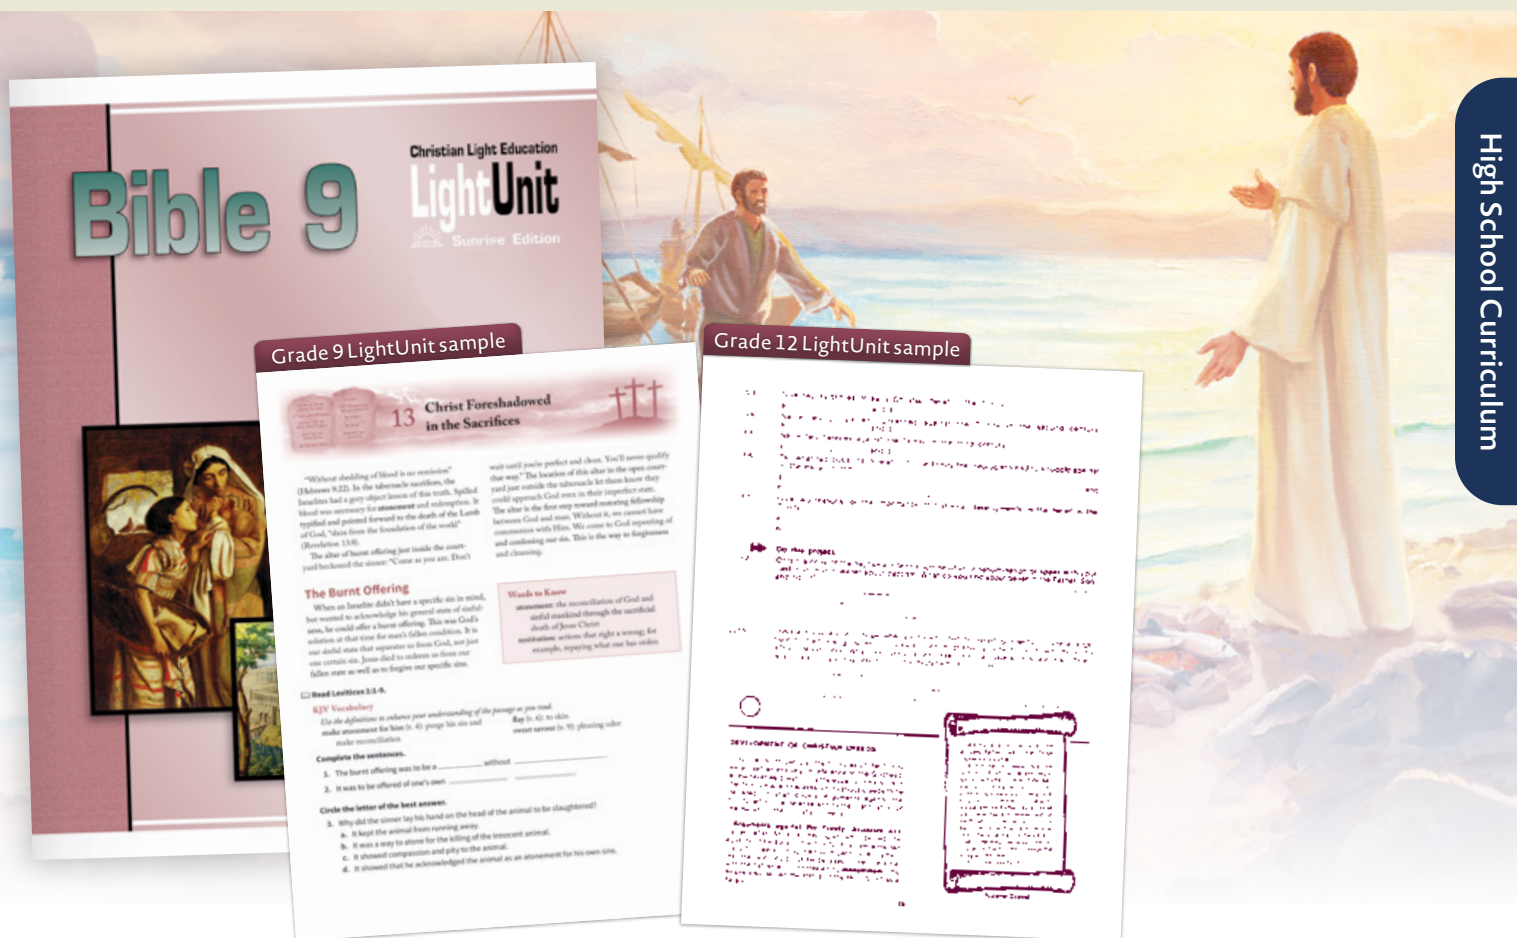

The Teacher's Guide includes answers, practice sentences, explanations, and activities. Speedy Spanish I is a self-study course though it would be more effective with a teacher.

783401	Workbook A	\$5.35
783402	Workbook B	\$5.35
783403	Audio USB Drive	\$20.95
783404	Flash Cards	\$10.95
783405	Teacher's Guide	\$15.50

Speedy Spanish II Grade 6+

Speedy Spanish II reviews material from the first book and adds more than 500 new words. It teaches conjugation of verbs and writing and translating Spanish words.

783406	Workbook A	\$5.35
783407	Workbook B	\$5.35
783408	Audio USB Drive	\$20.95
783409	Flash Cards	\$10.95
783410	Teacher's Guide	\$15.50

Christ in the Old Testament

Grade 9 Sunrise Edition

As students follow Old Testament events, they catch glimpses of Christ and gain deeper insights.

Each lesson directs the student to read portions of Scripture. Explanations and activities help the student interact with what he reads. This course includes exercises using *Strong's Concordance* and *Baker's Bible Atlas*. The Teacher's Guide includes teaching helps but not answers.

Course Components

10 LightUnits	\$53.50
2 Answer Keys	\$13.50
<i>Strong's Concordance</i>	\$24.95
<i>Baker's Bible Atlas</i>	\$24.50
1 Teacher's Guide (opt.)	\$15.40

See page 75 for support items.

New Testament Survey

Grade 10 (Old Grade 9)

- 901 Introduction to the New Testament
- 902 The Gospels
- 903 The Acts of the Apostles
- 904 The Pauline Epistles
- 905 The General Epistles
- 906 The Revelation of Jesus Christ
- 907 Biblical Literature: Job and Suffering
- 908 How to Share Christ With My Friends
- 909 God's Will for My Life
- 910 Review

Course Components

10 LightUnits	\$53.50
5 Answer Keys	\$18.75

- 1201 Knowing Yourself
- 1202 Preparing for Service
- 1203 Serving in the Church
- 1204 Godhead
- 1205 Holiness and Goodness of God
- 1206 The Epistles of James and John
- 1207 Biblical Literature: Daniel
- 1208 Comparative Religions
- 1209 Wisdom for Today's Youth
- 1210 Practical Christian Living for Young Adults

Course Components

10 LightUnits	\$53.50
5 Answer Keys	\$18.75

English I (Grade 9) Sunrise Edition

This course covers grammar and usage. Students dive deep into parts of speech, clauses, phrases, and punctuation. They also practice writing and speaking.

LightUnit 3 includes writing a personal narrative and a character sketch. LightUnit 4 includes writing an essay answer. LightUnit 5 focuses on researching, outlining, preparing, and presenting speeches. In LightUnit 9, students write a research paper. In LightUnit 10, they research and write an essay and give a speech.

Course Components

10 LightUnits	\$53.50
2 Answer Keys	\$13.50
2 Teacher's Materials (optional)	\$7.50

Optional Items

Basics of Diagramming	\$4.60
English Handbook	\$23.90

English II (Grade 11) Sunrise Edition

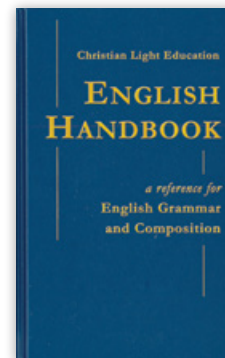

This course teaches composition and literature study skills. Teacher's material includes LightUnit overviews, a list of books for writers, a scope and sequence of the course, alternate LightUnit tests, and a comprehensive index of the course.

- LU 1 Usage and Literature
- LU 2 Clarity in Writing
- LU 3 Organization in Writing
- LU 4 Writing Short Stories
- LU 5 Writing Poetry
- LU 6 Research
- LU 7 Understanding Words
- LU 8 Listening and Reading Skills
- LU 9 Communication Skills
- LU 10 Reading and Thinking

Course Components

10 LightUnits	\$53.50
2 Answer Keys	\$13.50
1 Teacher's Material (optional)	\$3.75

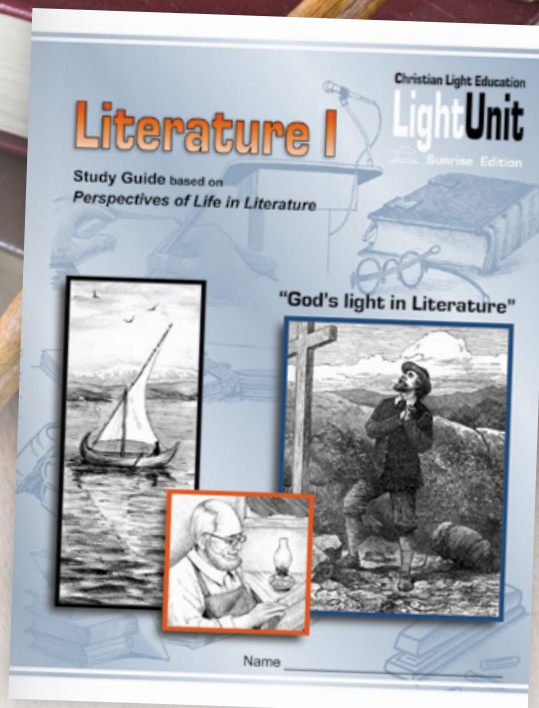

English Handbook

This optional reference book correlates with English I. Reference numbers beside the exercises refer to pages in the English Handbook so students can quickly find what they are looking for.

Sections include parts of speech, sentence structure, usage rules and mechanics, and composition. Each chapter includes plenty of examples, making it useful for both students and teachers. The English Handbook can also stand alone as a reference book. It includes practice exercises and answers.

296025 306 pages, hardcover \$23.90

Literature I (Grade 10) Sunrise Edition

A course based on *Perspectives of Life in Literature* that includes short stories, poetry, biographies, selections on Christian victory, and allegories. Exercises develop vocabulary, understanding of literary technique, reading comprehension, and thinking and composition skills.

LU1-2 The Short Story
LU3-5 Poetry
LU 6 Biography
LU7-8 Reflections
LU9-10 Allegory

The teacher's material includes LightUnit overviews, grading information, a scope and sequence of the course, and alternate tests.

Course Components

1 Textbook
Perspectives of Life in Literature \$44.00

Study by LightUnit method

10 LightUnits \$46.00
2 Answer Keys \$13.50
1 Teacher's Material (optional) \$4.60

Study by Worksheets method (Prelim.Ed.)

2 Worksheet Sets 1-10 \$21.00
1 Quizzes, Reviews, & Tests \$5.95
2 Worksheet AK Sets 1-10 \$19.90
1 Quizzes, Reviews, & Tests AK \$6.75
1 Teacher's Guide \$15.40
(includes textbook answers)

Literature II (Grade 12) Sunrise Edition

A course based on *Perspectives of Truth in Literature* that includes short stories, poetry, essays, and Scripture selections. Exercises develop vocabulary, understanding of literary technique, reading comprehension, and thinking skills. LightUnits contain all student work including quizzes, self checks, and tests.

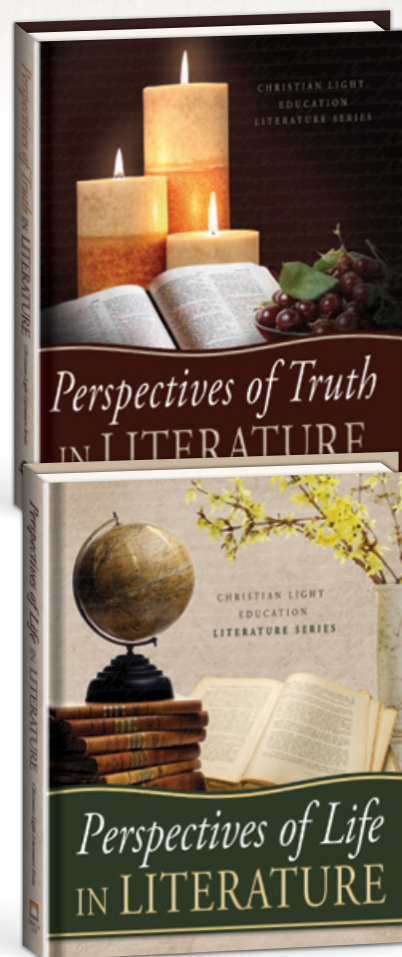

LU 1 Anthology of Literature About Truth
LU2-4 Short Story
LU 5-7 Poetry
LU8-10 Essay

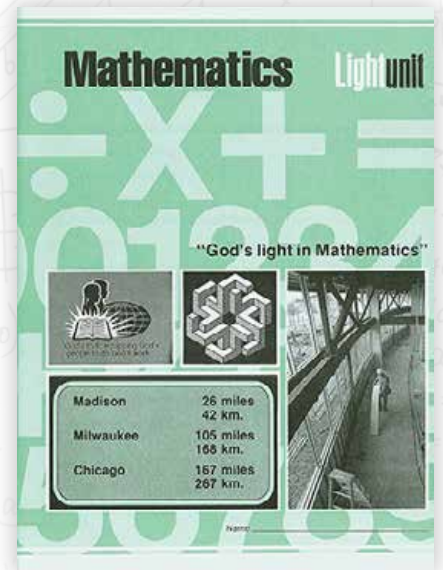

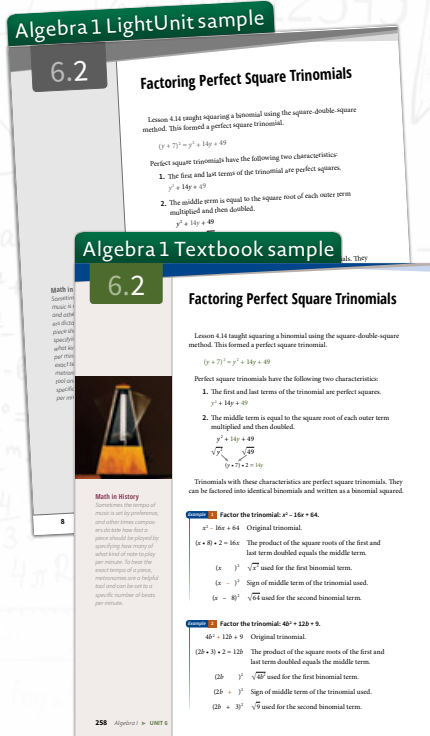

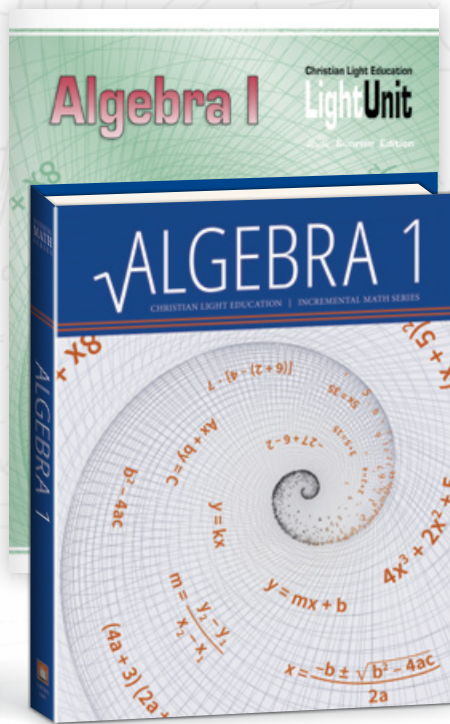

The teacher's material includes LightUnit overviews, brief teacher's notes, a scope and sequence of the course, and alternate tests.

The textbook answer key provides answers to the exercises in the textbook and is not needed when using LightUnits. It is required only for classroom teachers teaching the book without using LightUnits.

Course Components

1 Textbook
Perspectives of Truth in Literature \$44.00
10 LightUnits \$46.00
2 Answer Keys \$13.50
1 Teacher's Material (optional) \$3.75
1 Textbook Answer Key (optional) \$6.75

+ Alternate courses:
Practical Math (page 67) and
Consumer Math (page 64).

Algebra 1 (Grade 9) Sunrise Edition

Algebra 1 is designed with the Sunrise model of incremental learning and continuous review. The course is available in two formats: ten LightUnits or a textbook. The exercises and solution keys are the same for both options. The solution keys feature a complete list of steps for each problem.

LightUnits Study Method

Students can write in the LightUnits. Quizzes and tests are included and do not need to be ordered separately.

Textbook Study Method

The textbook is printed in color. It requires students to work exercises on other paper (except on quizzes and tests). The textbook makes it easy to refer to previous lessons. Quizzes and tests must be purchased separately.

Course Components

Study by LightUnit method

10 LightUnits	\$53.50
2 Solution Keys	\$39.90

Study by Textbook method

1 Textbook	\$68.50
1 Quizzes and Tests	\$5.95
2 Solution Keys	\$39.90

Geometry (Grade 10)

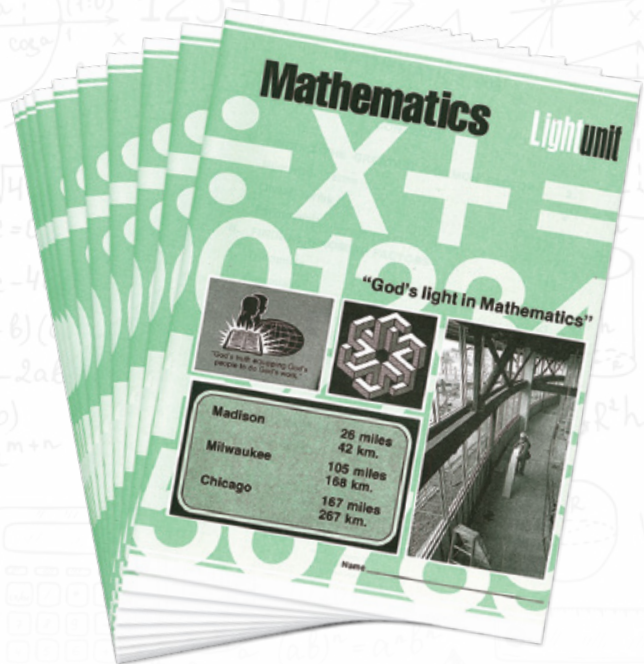

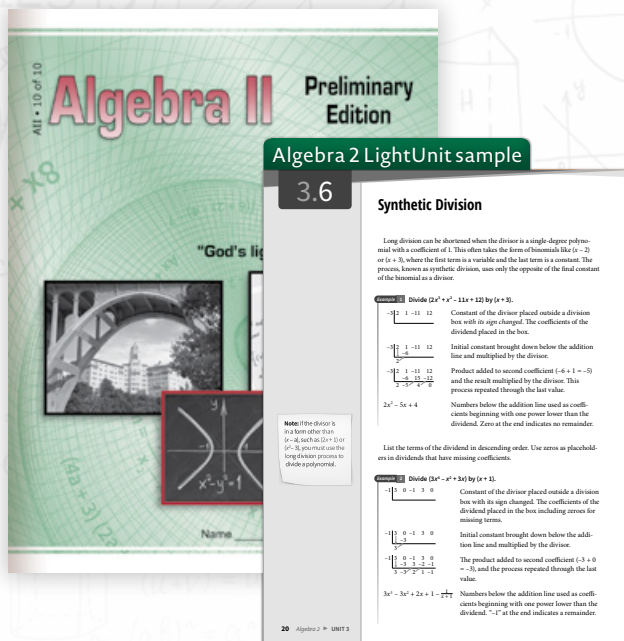

This geometry course is based on a course from Alpha Omega Publications. Each LightUnit can be completed in about three weeks. Because this is not a Sunrise Edition course, the material is presented in sections rather than daily lessons. Each section ends with a self test, which is similar to a quiz.

A Teacher's Guide with answers shows how each math problem or a similar one is solved and can be used in place of the Answer Keys. Because the Teacher's Guide developed by Alpha Omega does not always match the Christian Light LightUnits, an update booklet is included.

- 1001 A Mathematical System
- 1002 Proof
- 1003 Angle Relationships and Parallels
- 1004 Congruent Triangles and Quadrilaterals
- 1005 Similar Polygons
- 1006 Circles
- 1007 Construction and Locus
- 1008 Area and Volume
- 1009 Coordinate Geometry
- 1010 Geometry Review

Course Components

10 LightUnits	\$53.50
5 Answer Keys	\$18.75
1 Teacher's Guide includes answers	\$30.40

Algebra 2 (Grade 11) Sunrise Edition

Preliminary Edition

Sunrise Algebra 2 follows the methods of incremental teaching and continuous review used in Algebra 1. It reviews and expands on algebraic concepts from Algebra 1, and introduces new concepts such as matrices, probability, conic sections, logarithms, complex numbers, and trigonometry.

These preliminary edition LightUnits will be available for several years while the material is being refined for a textbook. Quizzes and tests are contained in the LightUnits. NOTE: Daily lessons do not have space for student computations.

The solution key features a list of steps for each problem to make it easy to find errors in the student's work.

Course Components

10 LightUnits	\$53.50
1 Quizzes and Tests	\$6.75
1 Solution Key	\$18.65

Functions and Trigonometry (Grade 12)

Algebra I and Algebra II are prerequisites for this course from Alpha Omega Publications. Each LightUnit can be completed in about three weeks. Because this is not a Sunrise Edition course, the material is presented in sections rather than daily lessons. Each section ends with a self test, which is similar to a quiz.

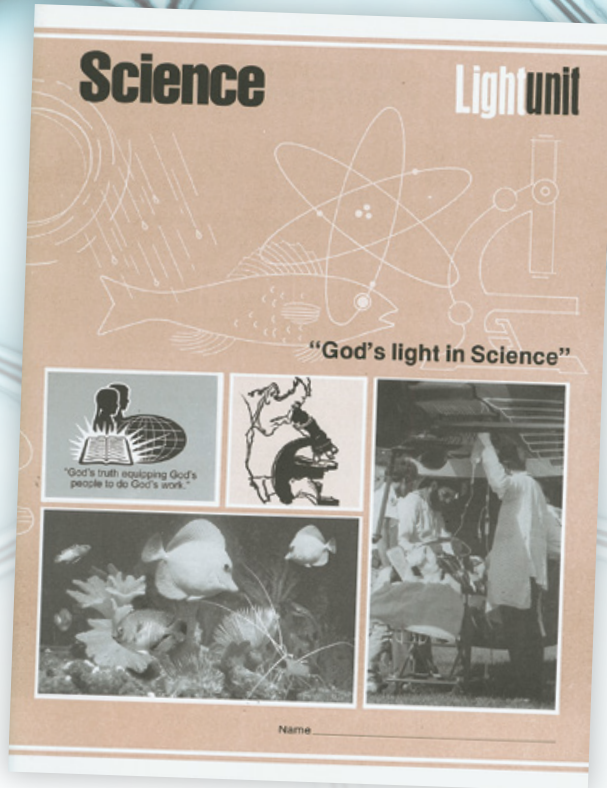

A Teacher's Guide with answers shows how each math problem or a similar one is solved and can be used in place of the Answer Keys. Because the Teacher's Guide developed by Alpha Omega does not always match the Christian Light LightUnits, an update booklet is included.

Grade 12

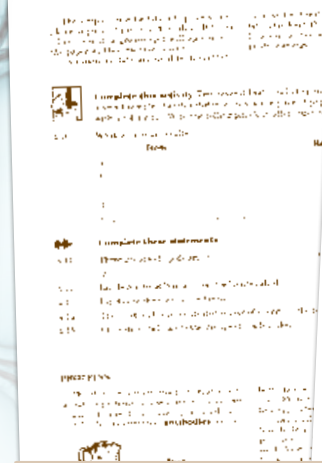

- 1201 Relations and Functions
- 1202 Functions
- 1203 The Trigonometric Functions
- 1204 The Circular Functions and Their Graphs
- 1205 Identities and Functions of Multiple Angles
- 1206 Application of Trigonometric Functions
- 1207 Trigonometric Functions and Polar Coordinates
- 1208 Quadratic Equations
- 1209 Probability
- 1210 Calculus and Review

Course Components

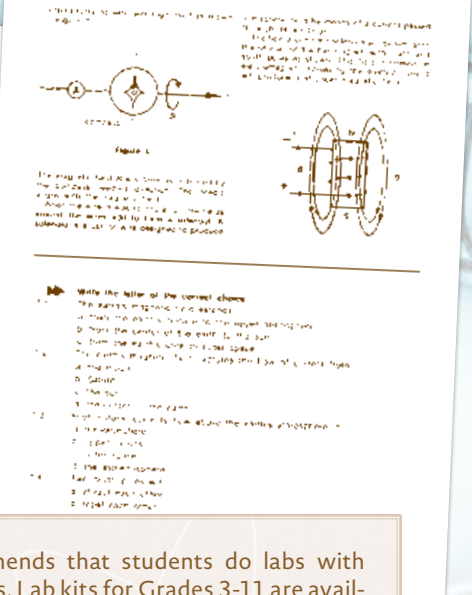

10 LightUnits	\$53.50
1 Teacher's Guide includes answers	\$30.40

Grade 10 Light Unit sample

Grade 12 Light Unit sample

Christian Light recommends that students do labs with high school science courses. Lab kits for Grades 3-11 are available at Home Science Tools. Though science courses can be completed without the experiments and the kits do add to the expense, the benefits of the student practicing and participating in this integral aspect of science should be seriously considered. For more information, see page 74.

- For alternate science courses, see page 58.
- For science supplies, see Home Science Tools (page 74).

Biology (Grade 10)

Throughout history, man has used his knowledge of living things to provide food and shelter, cure diseases, and invent new technologies. Biology is the systematic study of what we have learned about living things since Creation and how this knowledge can be used to benefit others.

In addition to its practical uses, studying biology draws us to God. Neither a bacterium nor a wildflower can exist independently of other living things. Through a variety of interactions, living things form a complex system in which every organism affects many other organisms. Through its complexity, order, and beauty, nature proclaims its all-knowing and perfect Creator.

Christian Light Biology teaches students how living things function both internally and within their environments. It surveys the main groups of living things and discusses the characteristics, physiology, life cycle, and ecology of each group.

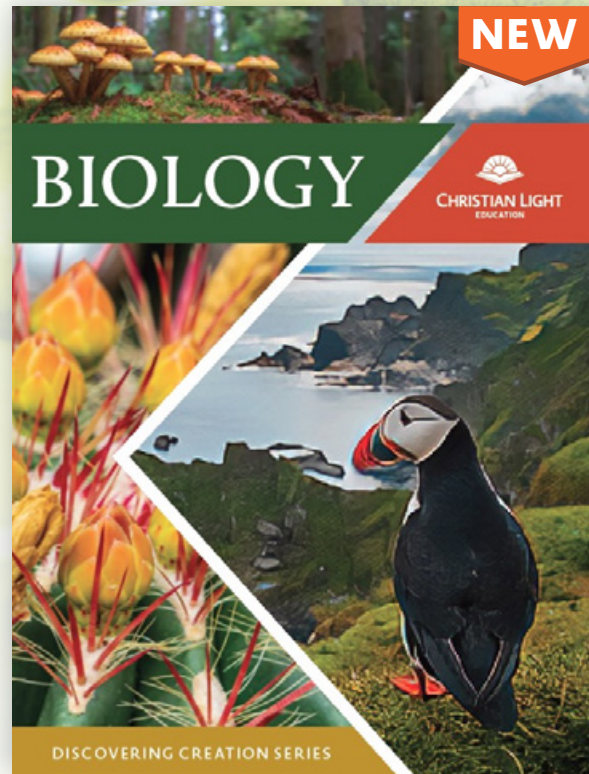

Real-life examples, interesting sidebars, and over eleven hundred photos and illustrations help bring the textbook to life and make Biology a class to anticipate.

The ten LightUnits contain exercises that help students comprehend and retain the concepts taught in the textbook. The LightUnits include quizzes and tests, as well as instructions for lab assignments. All course components are required to complete the course.

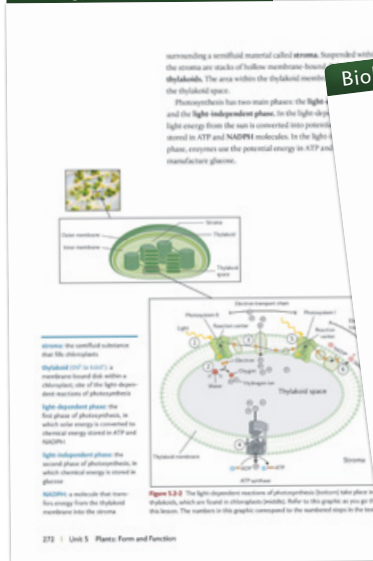

Course Components

5.3 Photosynthesis: Light-independent Phase

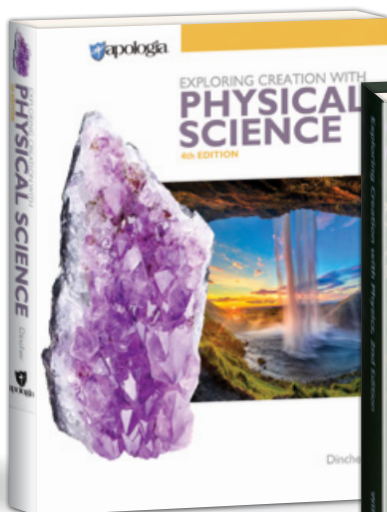

Read 5.3

Exercises

Circle the letter of the correct answer(s). Some questions have multiple answers.

- Which molecules link the two phases of photosynthesis?
 - ATP
 - GDP
 - glucose
 - NADPH
- What three processes does the Calvin cycle accomplish?
 - production of G3P
 - fixation of glucose from G3P
 - reduction, producing three-carbon

These courses are alternatives to Christian Light science LightUnit courses.

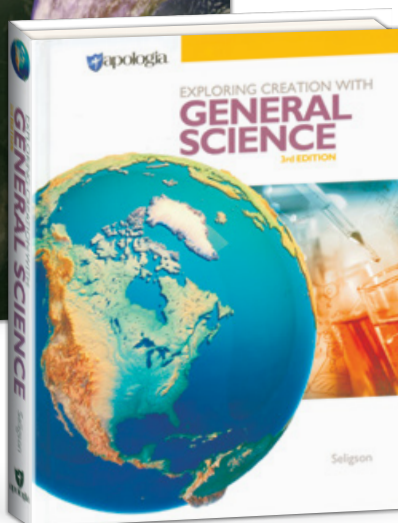

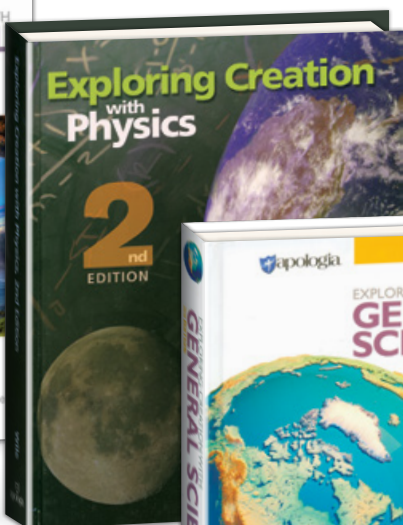

Apologia Science

Science textbooks published by Apologia are written to students in a conversational tone that cultivates independent learning.

Solutions/Tests manuals include the tests and solutions for each course. They may be photocopied.

Student Notebooks are designed to help students develop independent study skills with daily schedules, note-taking pages, and lab report forms for each experiment.

Physical Science 1 Credit, Grade 9

959091	Textbook 4th Ed.	\$89.00
959093	Course Guide & Answer Key	\$27.00
959092	Student Notebook	\$49.00

Physics 1 Credit, Grade 12

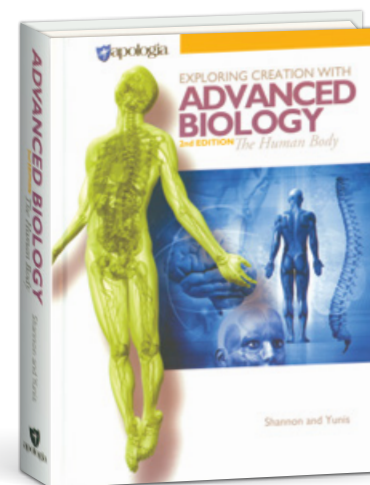

957121	Textbook 2nd Ed.	\$89.00
957123	Solutions/Tests	\$27.00

Berean Builders Science

This high school chemistry course is designed for students who have completed Algebra 1. This independent-study, college-preparatory course covers fundamental aspects of chemistry. Tests may be photocopied.

Chemistry 1 Credit, Grade 11

957211	Textbook	\$69.00
957213	Answer Key/Tests	\$10.00

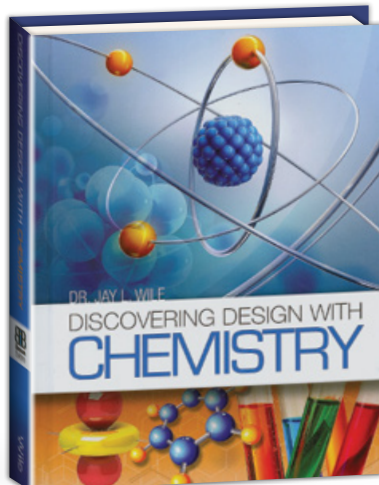

Advanced Biology: The Human Body

1 Credit, Grade 12

This advanced biology course covers both the anatomy and physiology of each of the human body's organ systems for those students who have successfully completed high school biology and chemistry. Please note that the reproductive system is covered in detail, including accurate yet respectful illustrations and descriptions. Although the Anatomy Coloring Book is optional, the textbook does assign activities from the coloring book.

957131	Textbook 2nd Ed.	\$89.00
957133	Solutions/Tests	\$27.00
957132	Student Notebook	\$49.00
957134	Coloring Book	\$29.99

Most course experiments can be done with household items. A lab kit for Chemistry is available from:

High School Electives

Changing the oil in the car. Preparing a nutritious homemade meal. Understanding Spanish. Don't we all have things we wish we had learned when we were younger?

Elective courses help students gain practical experience and learn valuable information they will use for the rest of their lives.

Vocational Electives allow high school students to expand their education into fields of interest beyond traditional academic subjects.

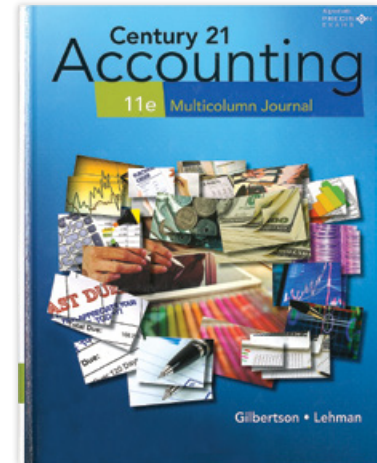

Students can also choose from electives related to spiritual development.

In some situations, it is acceptable to choose an elective to substitute for core Math, Science, or Bible credits to fulfill graduation requirements (see chart below)

Elective Course	Grade Level	Credit	Possible Substitute Credit
Accounting	11+	1.0	Math
Auto Fundamentals	11+	1.0	
Auto Upkeep	9+	0.5	
Carpentry	10+	1.0	
Charting a Course	10+	0.5	Bible
Christian Ethics for Youth	9+	0.5	Bible
Church History I	10+	0.5	
Computer Basics	9+	0.5	
Computer Service & Repair	11+	1.0	
Consumer Math	9+	1.0	Math
Exploring Agriscience	8+	1.0	Science
Exploring Woodworking	9+	1.0	
Home Economics I	9+	1.0	
Home Economics II	10+	0.4	
Horticulture Today	9+	1.0	Science
Keyboarding	9+	1.0	
Modern Residential Wiring	10+	1.0	
Music	9+	0.5	
Pilgrim's Progress	9+	0.5	Bible
Practical Math	9+	1.0	Math
Print Reading for Construction	10+	1.0	
Recordkeeping	9+	1.0	Math
Small Engine & Equipment Maint.	9+	0.5	
Small Gas Engines	10+	1.0	
Spanish A	8+	0.5	
Spanish B	8+	0.5	
Technical Sketching & Drawing	9+	0.5	

Textbook-based electives consist of a quality textbook from another publisher accompanied by Christian Light student guides and tests. Textbooks are carefully screened for objectionable content, but may not measure up to standards for books we publish. Courses are as reasonably priced as possible, but are often expensive. Used and less expensive textbook copies may be found online by searching with the ISBN.

LightUnit-based electives consist of five or ten self-contained workbooks.

Accounting

1 Credit, Grade 11+

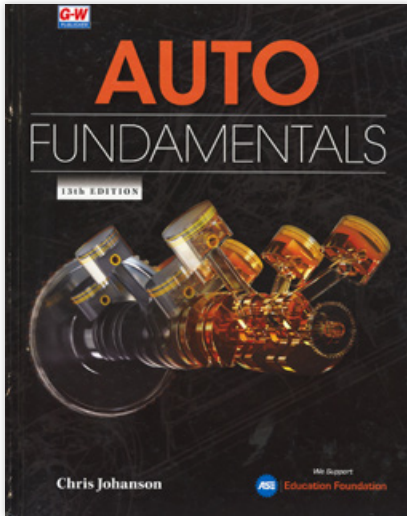

Accounting is the process of planning, recording, analyzing, and interpreting financial information. Accounting skills are applicable in a variety of business situations. Entrepreneurs find it helpful to have a basic understanding of accounting terms and principles.

Using sample businesses conducting everyday transactions, the textbook teaches accounting for proprietorships and corporations. Students also learn from real-life examples and case studies from companies such as UPS and Starbucks.

The student material consists of two Accounting workbooks, a student guide, and ten tests. The teacher material consists of an answer key for the workbooks and one for the student guide.

Course Components

606650	Textbook	\$164.95

606655	Student Material	\$104.95
606657	Teacher Material	\$42.00

Auto Fundamentals

1 Credit, Grade 11+

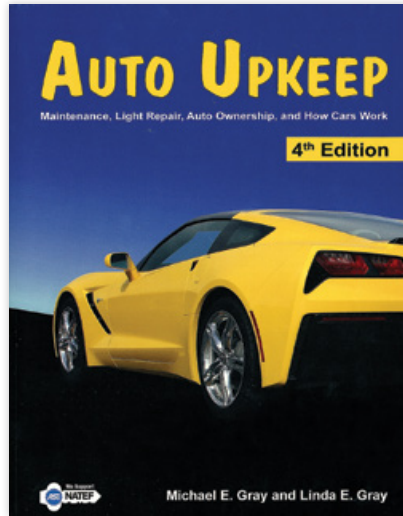

What happens under the hood of your car when you turn the key, put it in gear, and step on the accelerator? The textbook *Auto Fundamentals* explains each automotive system in detail, starting with its basic function and describing its individual components.

Students learn about ignition, fuel injection, cooling and lubrication systems, transmissions, axles, brakes, and much more.

The student material consists of an *Auto Fundamentals* workbook, a student guide, and ten tests.

Course Components

606770	Textbook	\$166.64
13th Edition ©2024 ISBN: 9781685844103		
606775	Student Material	\$51.95
606780	Answer Key	\$6.75

Auto Upkeep

½ Credit, Grade 9+

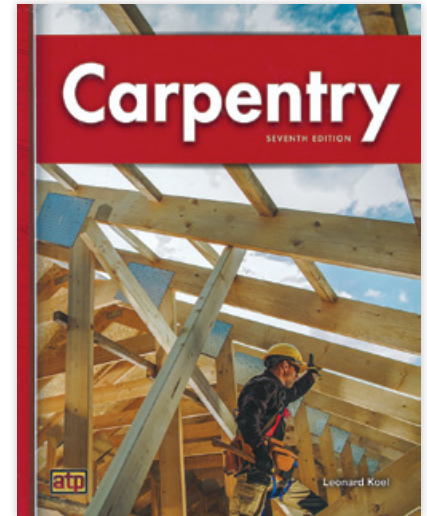

From purchasing a vehicle to performing basic maintenance and repairs, this half-credit course prepares students for car ownership. Learning how to maintain your vehicle improves safety and can potentially save you thousands of dollars.

The course is based on the textbook *Auto Upkeep*, which provides an easy-to-follow overview of vehicle systems. It is less detailed than our *Auto Fundamentals* course. The textbook includes optional web links to explainer videos for students who want more in-depth information.

The student material consists of an *Auto Upkeep* workbook, a student guide, and five tests.

Course Components

606720	Textbook	\$45.00
4th Edition ©2018 ISBN: 9781627020114		
606725	Student Material	\$44.30
606730	Answer Key	\$6.75

Carpentry

1 Credit, Grade 10+

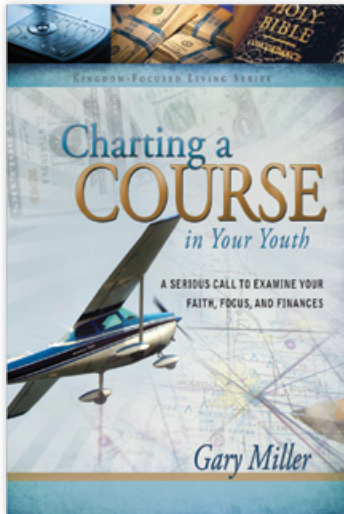

Based on the textbook *Carpentry*, this one-credit course introduces students to every aspect of the carpentry trade.

Students learn about construction materials, methods, equipment, reading blueprints, survey tools, foundations and slabs, frame construction, post and beam construction, insulation and sound control, stairway construction, concrete construction, and more. Up-to-date safety practices and related OSHA regulations are also covered.

The student material consists of a *Carpentry* workbook, a student guide, and ten tests.

Course Components

607485	Textbook	\$160.00
7th Edition ©2021 ISBN: 9780826908230

Charting a Course

½ Credit, Grade 10+

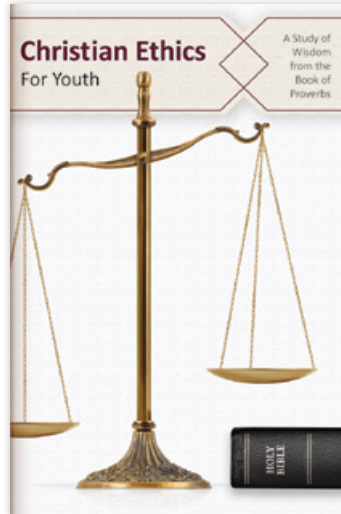

Based on the book *Charting a Course in Your Youth*, this half-credit course helps students think seriously about finances and life, challenging them to channel their time, talents, and resources into God's kingdom.

The course offers practical guidance on saving, giving, budgeting, spending, and borrowing, illustrated by stories of real people. It explains how financial needs change throughout life and gives ideas for avoiding harmful effects of advertising, peer pressure, easy credit, and materialism.

Five LightUnits provide exercises and tests.

Christian Ethics

½ Credit, Grade 9+

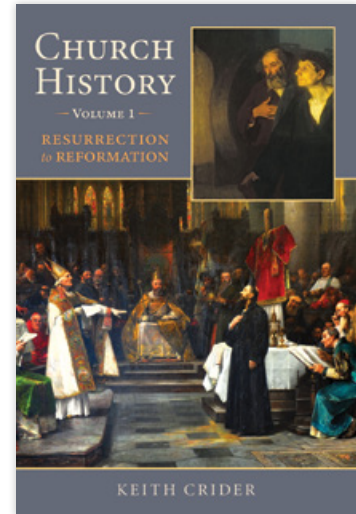

The world tries to blur the lines between right and wrong. In contrast, the Book of Proverbs gives us clear guidance for everyday living and clear warnings about the results of wrong choices.

Based on the book *Christian Ethics for Youth*, this half-credit course is a study of wisdom from the Book of Proverbs. Subjects include trust, obedience, submission, pride, purity, friendship, the strange woman, the virtuous woman, and the faithful man.

Five LightUnits provide exercises and tests.

Course Components

640060	Textbook	\$16.55
2060060	5 LightUnits 1-5	\$23.00
1060061	1 Answer Key 1-5	\$6.75

Church History I

½ Credit, Grade 10+

What happened to the church after the New Testament? The history of the church is a history of real people—popes and priests, monks and martyrs, and many ordinary folks like us. All claimed to follow Christ, but not all had the same understanding of what it meant to be Christian.

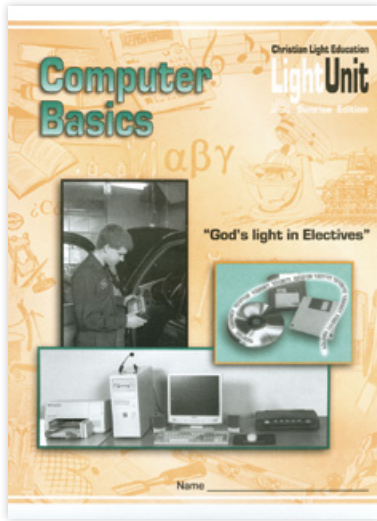

In this half-credit course based on the book *Church History: Resurrection to Reformation*, students learn the history of the church from Acts to the beginning of the Anabaptist movement in the 1500s.

Understanding how the church grew and changed over the centuries gives us a better perspective on our own times and can inspire us to faithfulness.

Five LightUnits provide exercises and tests.

Course Components

274170	Textbook	\$19.50
2060070	5 LightUnits 1-5	\$23.00

Computer Basics

Sunrise Edition

½ Credit, Grade 9+

LightUnits

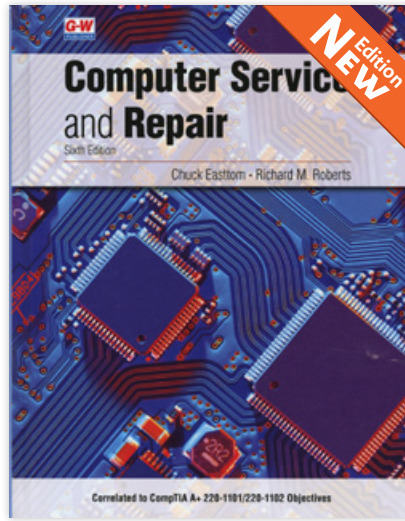

This five-LightUnit course gives students a foundation for learning computer applications. LightUnits 1 and 2 include a basic history of computers and describe how computers work. LightUnits 3 and 4 deal with computer software, including word processing, databases, spreadsheets, and desktop publishing. LightUnit 5 deals with computers in the workplace.

With the many changes in technology since this course was published in 2004, some details are outdated. However, much of the course is still relevant in learning the history of computing and how computers and software work.

Course Components

2060020 **5 LightUnits 1-5** **\$26.75**

1060021 **1 Answer Key 1-5** **\$6.75**

Computer Service and Repair

1 Credit, Grade 11+

As the use of computers and mobile devices increases, so does the need for IT technicians to maintain them. Based on the textbook *Computer Service and Repair*, this one-credit course equips students who have an interest in information technology to upgrade, configure, troubleshoot, and network personal computers.

The course gives students a foundation for pursuing other technical areas, such as networking or cybersecurity. No previous experience is required. With a focus on troubleshooting, repair, maintenance, and support, it is more advanced than our *Computer Basics* course.

The student material consists of a student guide and ten tests.

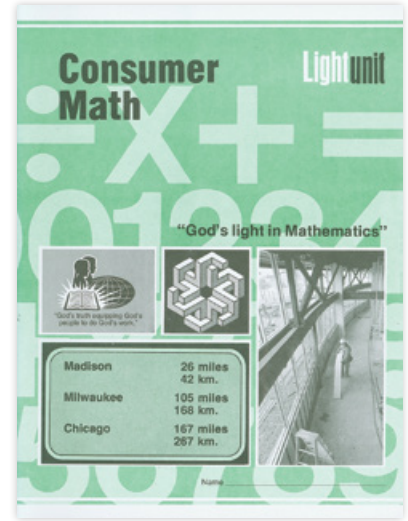

Course Components

Consumer Math

1 Credit, Grade 9+

LightUnits

This ten-LightUnit course applies math to everyday situations. There is no Teacher's Guide because the LightUnits are geared for self-study. Each LightUnit takes about seventeen days to complete.

Because consumer prices and technology have changed from when the course was published in 1980, many examples and student problems are outdated. This course can still be useful in helping students learn practical math skills because the principles have not changed. The themes for each LightUnit are as follows:

LU 1 Creative Arithmetic

LU 2 Fractions, Decimals, and Percent

LU 3 Family Finances 1

LU 4 Family Finances 2

LU 5 Construction and Building Trades

LU 6 Service Occupations

LU 7 Transportation

LU 8 Business Services

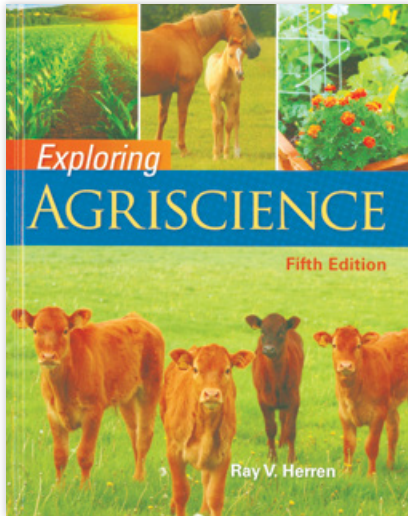

LU 9 Occupational Diagrams

LU 10 Review

Course Components

600500 **5 Solution Keys 1-10** **\$18.75**

Exploring Agriscience

1 Credit, Grade 8+

The development of agriculture undergirds civilization. We depend on the agricultural industry for food, clothing, and shelter.

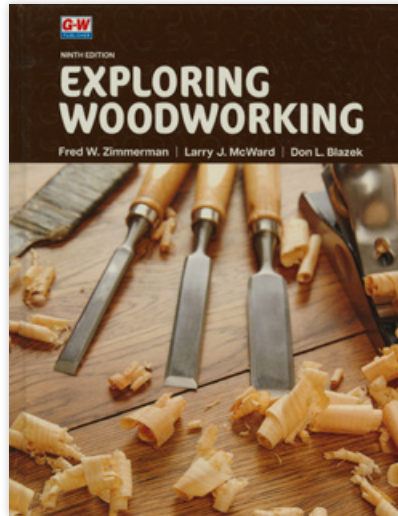

This one-credit course is based on an engaging middle school textbook, *Exploring Agriscience*. It introduces students to a wide range of agricultural topics: forestry, landscaping, biofuels, aquaculture, floriculture, row crops, the dairy and poultry industries, and more.

A few details in the textbook are from an evolutionary worldview.

The student material consists of a student guide and ten tests.

Course Components

Exploring Woodworking

1 Credit, Grade 9+

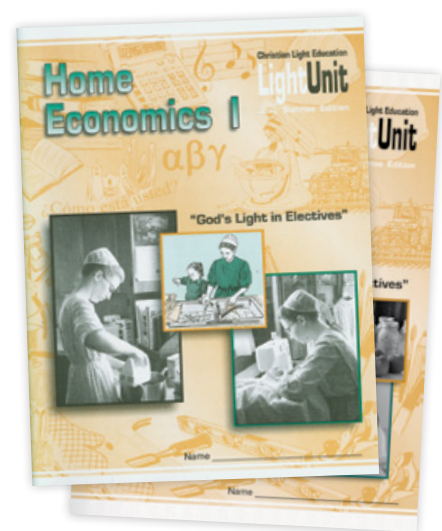

This one-credit course is based on the textbook *Exploring Woodworking* and serves as a foundation for future study in carpentry, cabinetry, or residential construction. It introduces the practical woodworking skills and tools needed to produce small woodworking projects.

The course discusses types and uses of wood, hand and power tools, project planning, construction, assembly, preparation for finishing, and finishing. For the last unit, the student designs and constructs a project. The textbook includes plans and pictures for some projects.

The student material consists of an *Exploring Woodworking* workbook, a student guide, and ten tests.

Home Economics I & II

Sunrise Edition

Home Ec I: 1 Credit, Grade 9+

Home Ec II: 1/10 Credit each LU, Grade 10+

LightUnits

Anyone can live in a house, but creating a home is the result of love and training.

Themes for Home Economics I:

- 1 Introduction to the Kitchen
- 2 Nutrition and Food Preparation
- 3 Food Shopping and Kitchen Organization
- 4 Meal Planning, Preparation, and Presentation
- 5 Getting Ready to Sew
- 6 Sewing for the Home
- 7 Sewing for Yourself
- 8 Godly Homekeeping
- 9 Child Growth & Development
- 10 Growing into Godly Womanhood

Themes for Home Economics II:

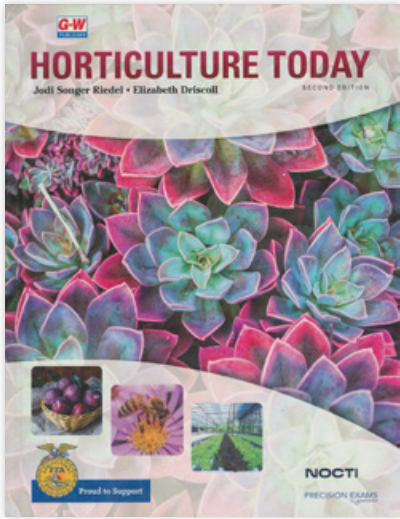

- 1 Baking Breads
- 2 Baking Pies and Cakes
- 3 Food Gardening and Preservation
- 4 ABCs of Money Management

Home Economics I Components

206000	10 LightUnits	1-10	\$53.50

Home Economics II Components

2060040	4 LightUnits	1-4	each \$5.35
(Each LightUnit includes an Answer Key.)			

Horticulture Today

1 Credit, Grade 9+

Is your high school student interested in landscaping, gardening, fruit farming, or crop farming?

This one-credit course is based on the textbook *Horticulture Today*. It covers all aspects of horticulture, including plant taxonomy and biology, soils and media, and plant growth and reproduction.

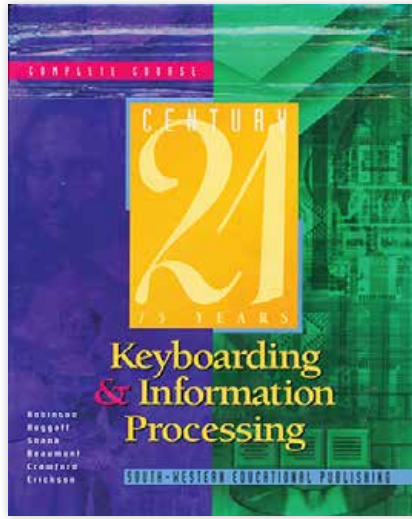

Students learn about greenhouse management, container planting, alternative growing methods, fruit and nut production, grafting and budding, landscaping, and pest control.

The student material provides a student guide, a *Horticulture Today* workbook, and ten tests.

This textbook contains some photos that do not meet Christian Light standards.

Keyboarding

1 Credit, Grade 9+

Learning to type well is a skill with lifelong benefits regardless of occupation. Based on the textbook *Keyboarding and Information Processing*, this one-credit course teaches keyboarding skills, including the numeric keypad, along with document formatting.

The course uses the first 150 lessons in the textbook. The alternate textbook, which only contains these first 150 lessons, also works with this course.

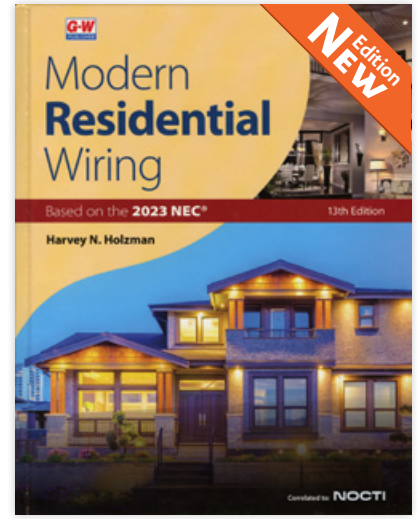

The student material consists of a student guide and ten tests. The teacher material consists of two answer keys.

Modern Residential Wiring

1 Credit, Grade 10+

Whether you are interested in becoming an electrician or simply want to be able to install a light in your closet, this course is a good place to start.

Based on the textbook *Modern Residential Wiring*, this one-credit course covers basic information for installing electrical wiring in homes or light industrial applications.

It introduces electrical energy fundamentals, circuit theory and components, an electrician's tools, grounding essentials, types and components of wiring systems, device wiring, reading prints, remodeling, and more. The text is based on the 2023 National Electrical Code, which is recommended for completing the course.

The student material consists of a *Modern Residential Wiring* workbook, a student guide, and ten tests.

Course Components

Music ½ Credit, Grade 9+

Music is powerful. It can edify or destroy. Why is music a moral issue? How can Christians make wise music choices?

The textbook for this half-credit course, *Music in Biblical Perspective*, addresses these questions and helps students consider whether their music honors God. It also includes a chapter on hymn appreciation. This part of the course consists of the textbook, a study guide, and an answer key.

The other part of the course consists of Music Books 5-8 (see page 49). These music books each have their own answer key.

------------------	--------

The Pilgrim's Progress

½ Credit, Grade 9+

This half-credit course is a study of *The Pilgrim's Progress*, a powerful Christian classic by John Bunyan.

Warned of the impending doom of his hometown, Christian sets out for the Celestial City. He encounters many true-to-life characters: Obstinate, Pliable, Faithful, Talkative, Ignorance, Hopeful, and others. Some help him, some hinder him, but each of them teaches him—and us—something about the Christian life.

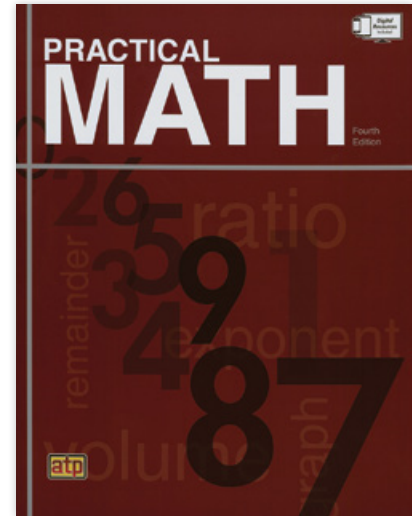

We, too, are finding our way to the Celestial City, and we can learn much from Christian's journey. Literature I also includes a study of this allegory.

Students read the textbook and complete exercises in the study guide. Five tests are included.

Course Components

265465	Textbook	\$13.45
391116	Study Guide	\$6.75
391118	Answer Key	\$3.75

Reference page numbers match the Christian Light edition of *Pilgrim's Progress* shown above. Other editions can be used, but it will be more difficult to locate vocabulary words.

Practical Math

1 Credit, Grade 9+

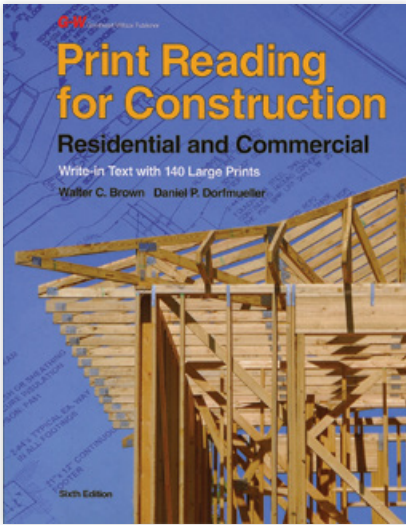

We all use math every day, usually without thinking about it. Gaining solid math skills is important preparation for life.

This one-credit course covers essential math concepts and how they are applied in real life in fields such as agriculture, alternative energy, culinary arts, construction, electrical, HVAC, manufacturing, plumbing, and more.

The textbook, *Practical Math*, is consumable. It teaches whole numbers, factors and cancellation, fractions, decimals, percentages, measurements, powers and roots, ratios and proportions, plane figures, solid figures, and graphs.

Course Components

604410	Textbook	\$78.00

Print Reading for Construction

1 Credit, Grade 10+

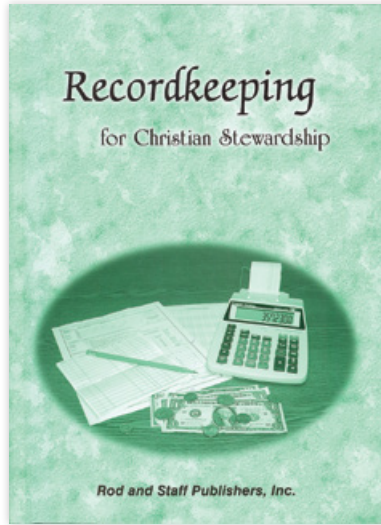

Interpreting construction drawings is an essential skill for working in the construction industry. Based on the textbook *Print Reading for Construction*, this one-credit course provides hands-on experience for students considering a career in construction or building trades.

Students write in the consumable textbook and work with actual construction prints. The course includes 140 large foldout prints (17 x 22) for both residential and commercial projects.

The student material consists of a student guide and ten tests. A grid overlay helps students locate answers on the large construction prints.

Course Components

Recordkeeping

1 Credit, Grade 9+

Keeping track of finances is important for both household and business health. Based on the textbook *Recordkeeping for Christian Stewardship*, this one-credit course covers three areas.

Personal recordkeeping covers topics such as personal banking, budgeting, credit, and taxes.

Business recordkeeping includes topics such as cash receipts and records as well as inventory, invoicing, and payroll.

Business accounting teaches double-entry accounting and the use of ledgers, journals, and financial statements. Each section ends with a project reviewing the concepts in the section.

The student material includes two *Recordkeeping for Christian Stewardship* workbooks, a student guide, and twenty-two chapter tests.

Course Components

603400	Textbook	\$32.50
603405	Student Material	\$43.95
603410	Teacher's Manual	\$37.25

Small Engine and Equipment Maintenance

½ Credit, Grade 9+

Do you know how your lawn mower engine works and how, through proper maintenance, you can make it run better and last longer?

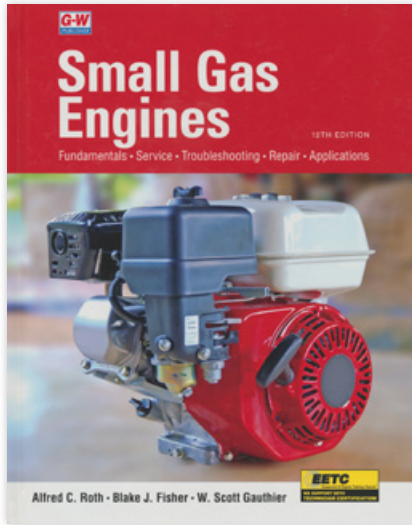

Based on the textbook *Small Engine and Equipment Maintenance*, this half-credit course teaches troubleshooting and repair of lawn mowers and tractors, snow blowers, pressure washers, generators, tillers, and wood chippers.

The textbook covers compression, fuel, governor, electrical, cooling, and lubrication systems but is not as in-depth and comprehensive as our *Small Gas Engines* course. The textbook includes instructions for basic, intermediate, and advanced repair projects. A supplementary CD-ROM is included.

The student material consists of a *Small Engine and Equipment Maintenance* workbook, a student guide, and five tests.

Course Components

606500	Textbook	\$73.00

Small Gas Engines

1 Credit, Grade 10+

Based on the textbook *Small Gas Engines*, this one-credit course is helpful for students interested in engines as well as future do-it-yourselfers. It is more in-depth than our *Small Engine and Equipment Maintenance* course.

Written in easy-to-understand language, the textbook contains information about small engine construction, operation, lubrication, maintenance, troubleshooting, service, rebuilding, and repair. It covers one-, two-, and three-cylinder engines, and both two-cycle and four-cycle engines. Students disassemble and reassemble a two- and four-stroke engine.

The student material consists of a *Small Gas Engines* workbook, a student guide, and ten tests.

Spanish A & B

½ Credit each, Grade 8+

Though the textbooks for these two Spanish courses are called *Spanish for Children*, the depth and scope of grammar they teach is worth one-half credit each.

These courses teach students how to form their own sentences and express themselves in Spanish rather than memorizing hundreds of phrases. Because of this systematic approach, students learn how the language works.

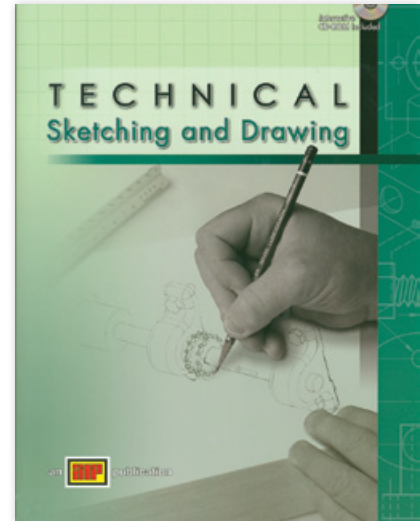

The student material for both courses consists of a student guide and the consumable course textbook (primer). Spanish A includes a pronunciation CD. The teacher material for Spanish B consists of two answer keys.

Spanish A Course Components

606550	Student Material	\$33.35
606555	Answer Key	\$6.75

Spanish B Course Components

Technical Sketching and Drawing

½ Credit, Grade 9+

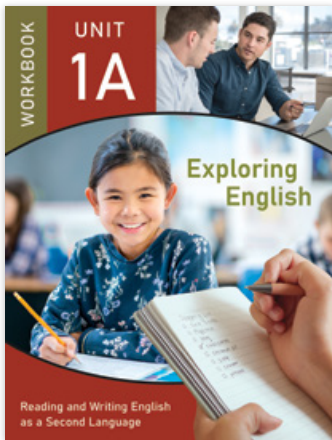

Based on the textbook *Technical Sketching and Drawing*, this half-credit course teaches both the basic and advanced skills needed to communicate technical information quickly and accurately.

The textbook covers drawing fundamentals, pictorial drawings, geometric construction, dimensioning and tolerancing, and prints. Multiview, auxiliary view, and sectional view drawings are also covered. A supplementary CD-ROM is included.

The student material consists of a *Technical Sketching and Drawing* workbook, a student guide, and five tests.

Course Components

Exploring English

Exploring English is a reading, writing, and grammar course to teach English as a second language. Some conversation is included. Lessons are designed for Grades 4-8 but may also be used to teach adults. Each unit includes three workbooks (A, B, C) and a Dialogue Workbook. Each workbook has four lessons and a quiz; Workbook C also has a unit review and a unit test. This makes a total of seventeen lessons per unit.

The Teacher's Guide provides step-by-step teaching instructions, exercise answers, and class activities. Oral drill using flash cards is essential. The Dialogue Workbook pairs conversation and stories with pictures. For more advanced conversation skills, or if the student does not know any English, supplement with Conversational English. When complete, the course will have five units.

Course Components

Unit 1	Unit 2	Unit 3

Conversational English for Second-Language Learners

This course is designed for teaching conversational English to international learners. Each level contains forty lessons. Lessons include vocabulary and sentence structures that students practice in class and then use in daily life.

The Teacher's Guides provide instructions, activities, and games to simulate real-life contexts. Lessons are designed for ages 11-16 but can be adapted for a range of ages. Contact us for other options in international or mission settings.

Course Components

Level A—Talk It Out

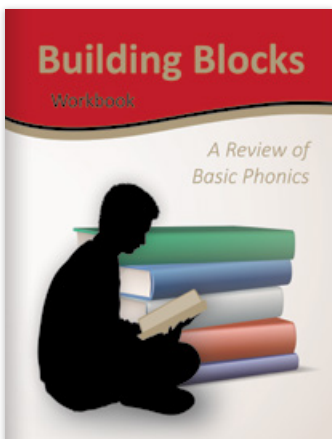

225501 Workbook A1	\$7.50	225510 Teacher's Guide	\$135.00

Building Blocks

Building Blocks uses twenty lessons of selected material from Learning to Read to teach letters and sounds, long/short vowels, four digraphs, and some consonant blends. It uses the same flash cards as Learning to Read. The reader contains stories from Learning to Read.

Developed for students learning English as a second language (ESL), this course may also be used to help any student get back up to speed after summer break. Building Blocks is not a replacement for Learning to Read, and it is not designed to help with learning disabilities.

Course Components

822405 Workbook	\$5.35	1070007 Letter Flash Cards (from Learning to Read)	\$15.95
822410 Teacher's Guide	\$11.25	824825 Sight Word Flash Cards (from Learning to Read)	\$25.20
822400 Reader	\$10.95		

Phonics Foundations: Remedial Reading and Spelling for Students With Dyslexia

Phonics Foundations uses the Orton-Gillingham method of instruction to teach students with dyslexia to read and spell. The course does not diagnose dyslexia. The student begins by taking two assessments and then completes tailored lessons targeting the areas needing remediation. A student may not need to complete all six units.

For more information, order a free print copy of the brochure *Introduction to Phonics Foundations* or download it from our website.

Starter Pack

The Starter Pack includes the Training Book and Assessment Book. The Training Book provides instructions on how to teach the course.

The Assessment Book includes two types of assessments. The Phonological Awareness Assessment correlates to Unit 1 and tests the student's ability to hear and manipulate sounds. The Letter and Sound Assessments correlate to Units 2-6. They test the student's ability to hear sounds and connect them with the symbols that represent the sounds.

Teacher's Guides and Student Workbooks

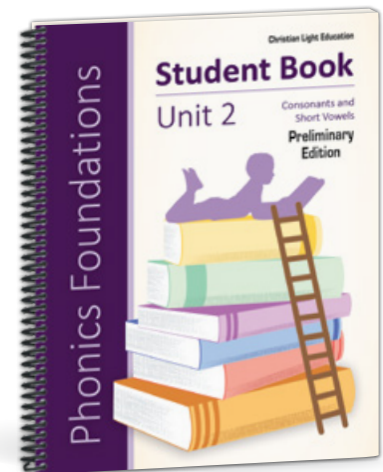

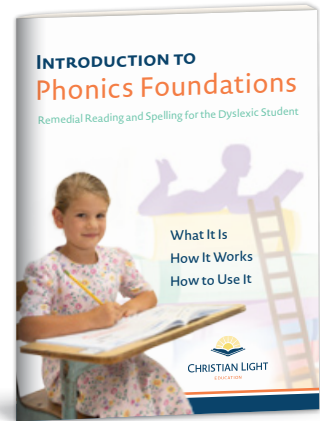

The Teacher's Guides provide instructions, answers, and activities for each unit. Because Unit 1 is solely auditory training, there is no student workbook for Unit 1.

Teacher Cards

The Teacher Cards include three sets of cards. Teaching Cards are used to introduce new phonemes or rules. Rule Review Cards introduce and review spelling rules. Instruction Cards list procedures for the teacher.

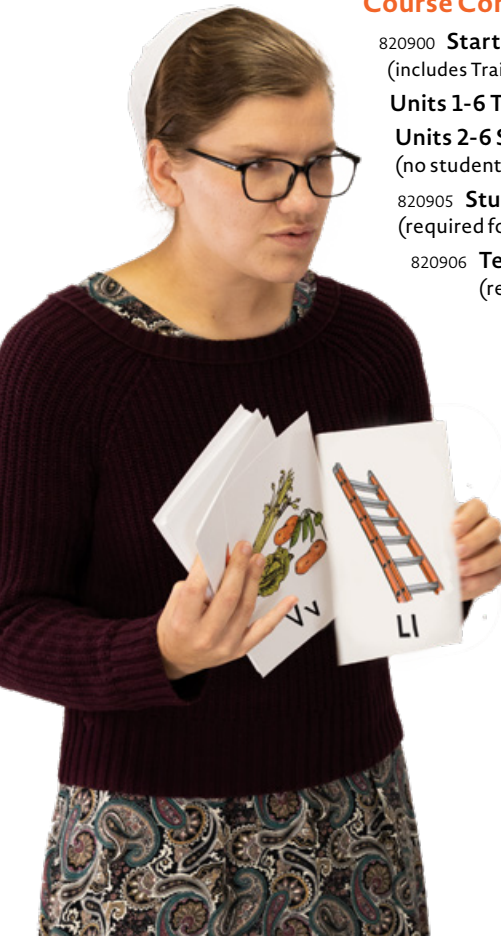

Student Flash Cards

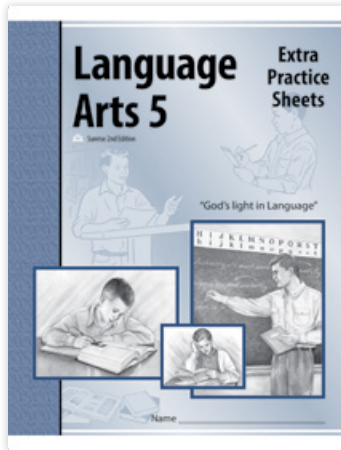

Student Flash Cards are used to introduce new letters or letter combinations. Cards are added to the student's deck for daily drill.

Course Components

820900	Starter Pack	\$85.00
	(includes Training Book and Assessment Book)	
	Units 1-6 Teacher's Guides	\$100 each
	Units 2-6 Student Books	\$30 each
	(no student book for Unit 1)	
820905	Student Flash Cards	\$50.00
	(required for Unit 2 and above)	
820906	Teacher Cards	\$50.00
	(required for Unit 2 and above)	

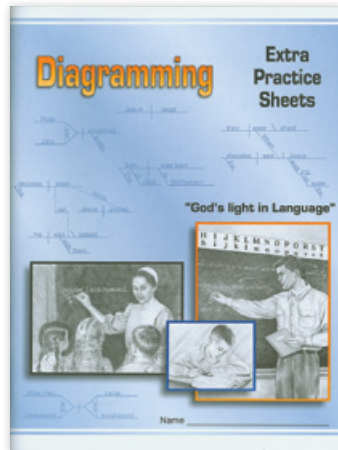

Language Arts

Extra Practice Sheets

Offer specific, concentrated review for new or difficult concepts. Approximately 30 pages in each level. (Reproducible.)

2072018	Grade 1	\$5.35
2072028	Grade 2	\$5.35
2072038	Grade 3	\$5.35
2072048	Grade 4	\$5.35
2072058	Grade 5	\$5.35
2072068	Grade 6	\$5.35
2072078	Grade 7	\$5.35
2072088	Grade 8	\$5.35

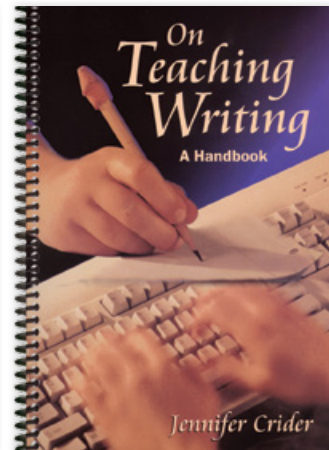

Diagramming

Extra Practice Sheets

Does your student struggle with sentence diagramming? This book of reproducible sheets can be used for students unfamiliar with diagramming, for students needing extra practice, or for teachers needing a refresher course. Exercises are arranged by grade level from Grades 2–8.

652515	Student	\$5.35
652516	Answer Key	\$3.75

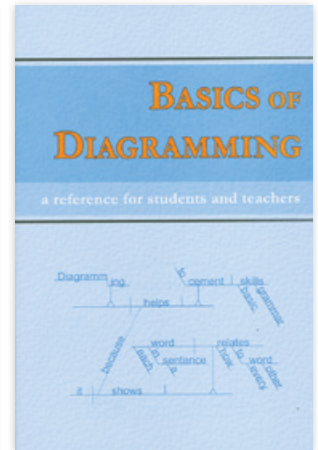

On Teaching Writing

Jennifer Crider

Good writing isn't automatic—it is taught. How do you teach writing? Where do you start? *On Teaching Writing* contains insights into the minds of young writers, instructions for teachers, the four steps used by successful writers, and many story starter ideas.

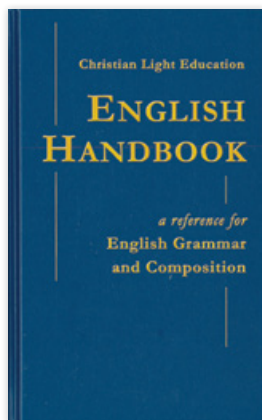

296050 **\$11.25** 133 pages, Spiral

Basics of Diagramming

A reference guide giving examples for diagramming all parts of speech, phrases, clauses, and sentence types. It provides a quick reference source for students and teachers when they need to be refreshed on how to diagram a specific part of a sentence.

652510 **\$4.60**
20 pages, Paperback

English Handbook

Karen Birt

This reference tool is designed to help both students and teachers. Though it correlates with English 1, it can be used with any curriculum. Includes practice exercises and answers.

296025 **\$23.90** 306 pages, Hard

Pentime Penmanship Books

Designed to teach children handwriting with minimal assistance, these books supplement Language Arts for students needing extra penmanship practice. Students build cursive skills by using increasingly smaller lines and by copying increasingly longer paragraphs.

652203	Grade 3	\$8.25	652206	Grade 6	\$8.25
652204	Grade 4	\$8.25	652207	Grade 7	\$8.25
652205	Grade 5	\$8.25	652208	Grade 8	\$8.25

Creative Writing Books 1 and 2

Jennifer Yoder

This course adds fun and flair to the writing process through small manageable lessons and plenty of student-written examples. Students craft creative lists, simple poetry, imaginative dialogue, and learn tips and tricks to make sentences sparkle. Freewriting lessons familiarize students with writing. In Reading Response lessons, students analyze and respond to other pieces of writing. Each spiral-bound workbook contains a grading rubric and seventy-five lessons appropriate for Grades 5–8.

296080	Book 1	\$19.75
296085	Book 2	\$19.75

Language Arts Wall Posters

If you wish for more ways to help grammar rules stick in the student's mind, these colorful wall charts are just what you need! There are two sets of charts.

Set 1 (Miscellaneous) has eight charts with basic information for Grades 1–4: punctuation; abbreviations of measurements, time, titles of respect, and words in addresses; holidays; months; the alphabet; and numbers 1-100.

652530 Posters (17 x 23) \$40.95

652540 Mini Posters (8¼ x 10¾) \$10.50

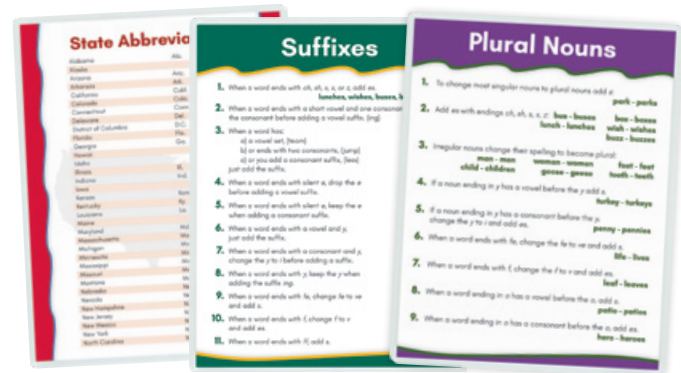

Set 2 (Parts of Speech) has eight charts covering the eight parts of speech and related elements.

652531 Posters (17 x 23) \$40.95

652541 Mini Posters (8¼ x 10¾) \$10.50

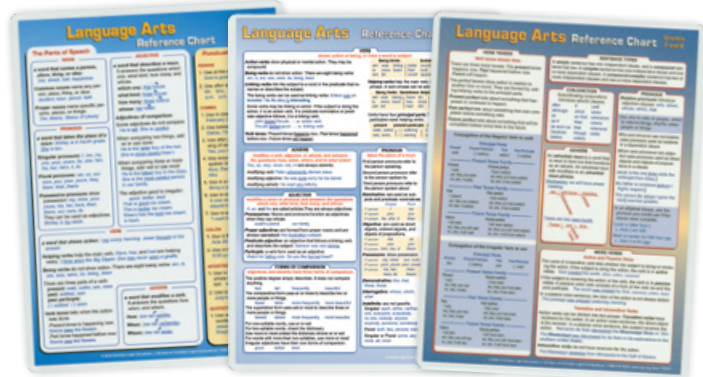

Language Arts Charts

Attractive and durable laminated charts containing a wealth of grammar information at a glance.

Information Charts (8 x 10¾)

2072002	State/Province Abbreviations	\$3.95
2072003	Suffixes/Dividing Syllables	\$3.95
2072004	Plural Nouns/Capitalization	\$3.95
2072001	Set of Three Charts	\$11.95

Reference Charts (8 x 10¾)

Grades 3 & 4 chart includes parts of speech, punctuation, and a simple friendly letter with parts labeled.

Grades 5 & 6 chart includes parts of speech in more detail, a basic outline, and punctuation and capitalization rules.

Grades 7 & 8 chart includes verb tense and voice, verbals, and clauses.

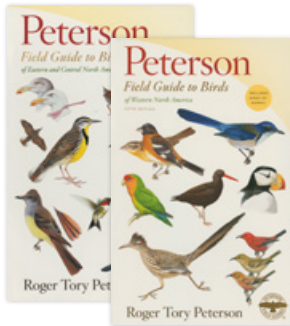

2072034 Grades 3 & 4 \$4.50

2072054 Grades 5 & 6 \$4.50

2072074 Grades 7 & 8 \$4.50

Spelling Word Lists in Audio

Save time giving spelling tests! Audio MP3 CDs for LA Grades 3-8 spelling quizzes and tests are available by calling: **260-445-7140** or email: dcmliller808@gmail.com
(Computer or MP3 player required—will not play in a standard CD player.)

Peterson Field Guides

These colorful guides emphasize visual differences between species to help with identification.

350000 **Eastern Birds** \$21.99

396 pages, Paper, 4 $\frac{3}{8}$ x 7 $\frac{1}{4}$

350005 **Western Birds** \$19.99

484 pages, Paper, 4 $\frac{3}{8}$ x 7 $\frac{1}{4}$

Peterson Field Guide Coloring Book

Detailed pictures to color help students learn to identify birds and wildflowers. Full color samples provided for guidance.

350100 **Birds Color-In Book** \$11.99

64 pages, Paper, 8 $\frac{1}{2}$ x 11

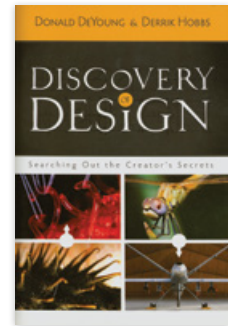

Instincts by Design

This colorful book explores over eighty examples of instincts with photos, graphics, and easy-to-read text. Engaging for both children and adults.

350300 **\$24.99**

192 pages, Paper, 8 $\frac{1}{2}$ x 11

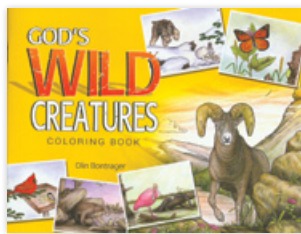

Discovery of Design

An exciting look at research and design elements taken from creation: batteries, paint, credit card security, and many more have links to natural designs.

350110 **\$14.99**

236 pages, Paper, 6 x 9

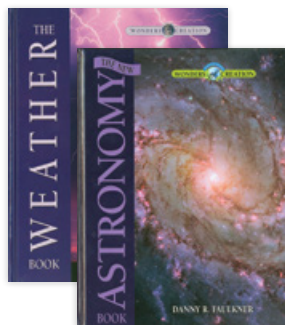

God's Wild Creatures Coloring Book

Beautifully detailed artwork of North American wildlife for children and adults to color.

334260 **\$4.99**

63 pages, Paper, 10 $\frac{1}{2}$ x 8

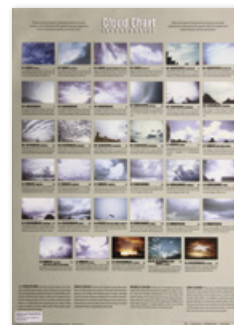

Wonders of Creation Books

Written in an easy-to-understand format. Includes full-color photos and charts.

350221 **The Weather Book** \$18.99

270313 **The New Astronomy Book** \$18.99

Cloud Charts

Chart A 35 formations and simplified weather forecasting. Grade 6+.

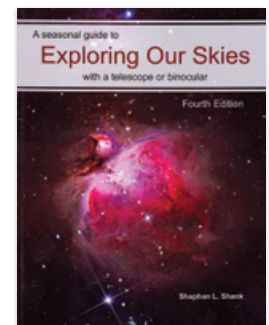

Chart B A student version with more details.

846054 **Chart A** \$9.00

17 $\frac{1}{2}$ x 22 $\frac{1}{2}$

846055 **Chart B** \$6.00

11 x 17

Exploring Our Skies

A seasonal guide for learning how to find nebulae, galaxies, and star clusters with your telescope or binoculars.

350265 **\$27.50**

110 pages, Paper, 8 $\frac{1}{2}$ x 11, DRO

Strong's Exhaustive Concordance

James Strong

Every word of the Bible is listed, along with its meaning in the original language. Includes Hebrew and Greek dictionary helps.

230210 **\$24.95**
1780 pages, Hard

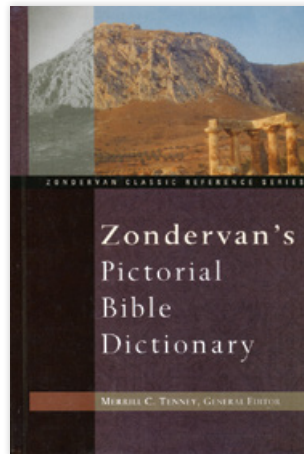

Baker's Bible Atlas

C. Pfeiffer

Maps, pictures, drawings, and more cover the scope of Biblical geography. Includes Biblical archaeology, a Bible history time line, and a gazetteer that supplement the maps and explanations.

230005 **\$24.50** 347 pages, Hard

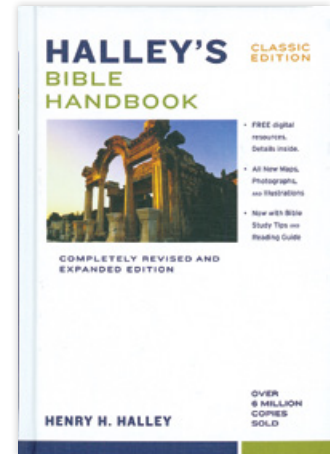

Zondervan's Pictorial Bible Dictionary

Merrill C. Tenney Includes

916 pages of Bible helps with black-and-white photographs, diagrams, and charts throughout. Based on the King James Version.

230315 **\$32.95** 916 pages, Hard

Halley's Bible Handbook

Henry H. Halley

A good first Bible commentary. Includes fascinating notes on Bible history and archaeological discoveries. Biblical nonresistance is not always upheld.

230135 **\$34.99** 1135 pages, Hard

Power Bible CD

This helpful, easy-to-use program includes many English Bible translations and several Bibles in Spanish and other languages. Strong's word definitions are easily accessible.

Other resources included are topical Bibles, Bible dictionaries, and many commentaries. Some content may not reflect Anabaptist doctrine.

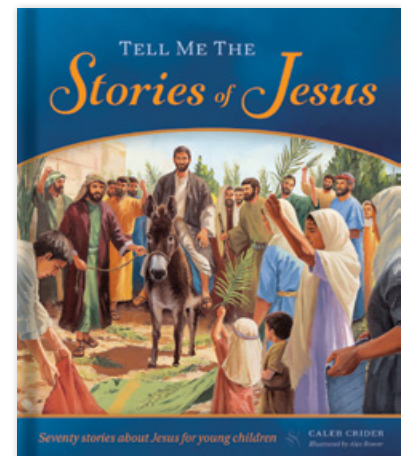

305000 **\$13.25** Windows 95+, Online Pub.

Tell Me The Stories of Jesus

This read-aloud Bible storybook helps children see Jesus as a real person who did real things, a caring Friend whom they can trust. Each of the seventy stories is illustrated with an original painting and includes three questions that promote interaction about the story. The coloring book includes thirty-five pictures.

265100 **Storybook** **\$23.50**
155 pages, Hard

265102 **Coloring Book** **\$5.95**
40 pages, Paper

Bible Reference Maps

These durable, laminated, two-sided maps depicting Bible lands may be used for Bible classes, for Sunday school, or for personal use but are especially designed to support Sunrise Bible. Grade 5 maps show the Fertile Crescent and Canaan before the Israelites' conquest. Grade 6 maps show the Persian Empire and the land of Palestine with the boundaries of the tribes of Israel.

7 3/4 x 10 1/2

2071054 **Grade 5** **\$4.50**

2071064 **Grade 6** **\$4.50**

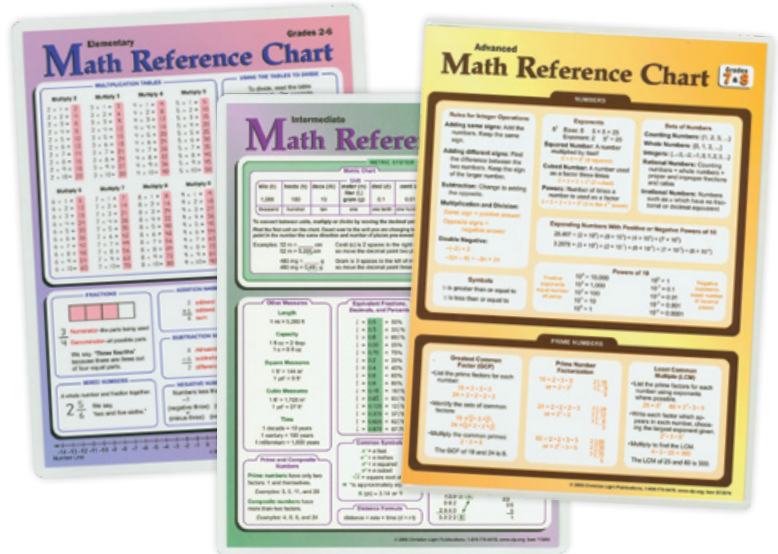

Math Reference Charts

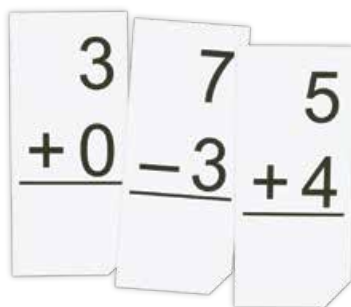

Elementary (Grades 2-6) Contains multiplication tables, symbols, terms, abbreviations, definitions, metric and U.S. tables of measures, and more.

Intermediate (Grades 5-8) Contains a metric chart for converting units; tables of measures; equivalent decimals and percents for common fractions; squares and square roots up to 15; divisibility rules; geometry formulas; and more.

Advanced (Grades 7 & 8) Includes integer and exponent operation rules, examples of prime factorization for finding the GCF and the LCM, order of operations for simplifying expressions and solving equations, definitions of algebra terminology, geometry formulas, trigonometric ratios, and more.

- 2073034 **Grades 2-6** (8 x 10 3/4) **\$4.50**
 2073054 **Grades 5-8** (8 x 10 3/4) **\$4.50**
 2073074 **Grades 7 & 8** (8 x 10 3/4) **\$4.50**

Addition & Subtraction Flash Cards

Cards are numbered and tabbed for easy sorting and rearranging into groups. Required for Grades 1-4. 204 cards.

- 1073013 **Addition & Subtraction** **\$38.50**

Multiplication & Division Flash Cards

Small size (3 1/2 x 5) cards are handy to use one-on-one, but large clear numbers make these useful in a classroom setting also. Multiplication facts from 0-12 are on one side, with the matching division facts on the opposite side. Required for Grades 2-4. 156 cards.

- 1073033 **Multiplication & Division** **\$18.65**

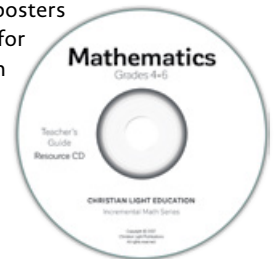

Math Drill Sheets

Improve proficiency in basic addition, subtraction, multiplication, and division facts. Twenty-one sets of exercises based on one-minute daily drills. May be photocopied.

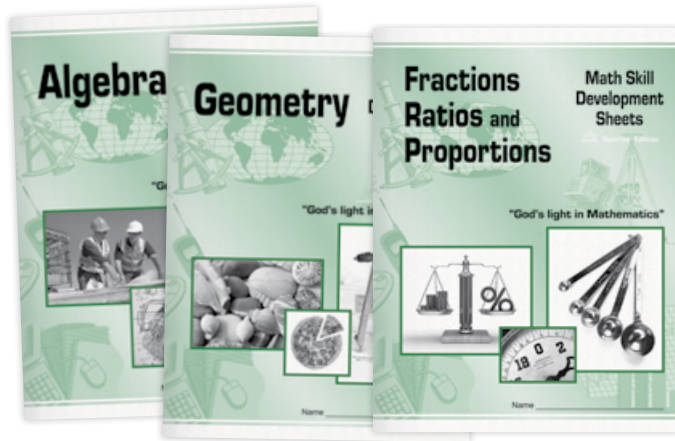

- 735400 **Drill Sheets** **\$6.75**

Math Resource CD

Printable full-color posters and practice sheets for use in teaching Math Grades 4-6. Posters include fractions, place value charts, steps to solve word problems, steps of division, divisibility rules, order of operations, prime numbers, and others.

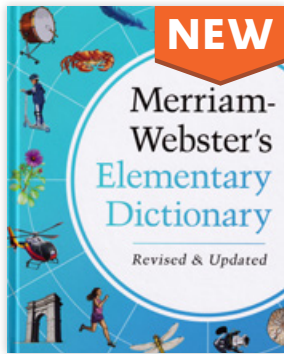

- 652315 **Resource CD** **\$13.15**

Math Skill Development Sheets

Extra practice sheets for concepts taught in Sunrise Math Grades 4-8. In each skill, worksheets build from simple to complex. Teachers choose worksheets that fit the individual student's needs and bring him up to the desired level. Reproducible for classroom use.

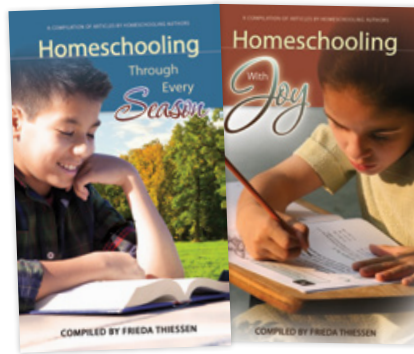

- 652300 **Algebra** **\$5.35**
 652301 **Algebra Answer Key** **\$3.75**
 652305 **Geometry** **\$5.35**
 652306 **Geometry Answer Key** **\$3.75**
 652310 **Fractions, Ratios, and Proportions** **\$5.35**
 652311 **Fractions, Ratios, and Proportions Answer Key** **\$3.75**

Merriam-Webster's Elementary Dictionary

With over 37,000 entries and 900 illustrations, this dictionary is a helpful resource for elementary students. In addition to pronunciation and word divisions, it includes inflected forms, usage examples, synonyms and cross-references, and occasional notes on word roots and history. An appendix includes a map of the United States and a world map.

815180 **\$21.95** 848 pages, Hard, 8 x 10

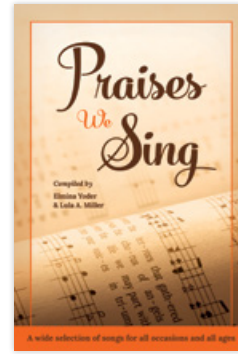

Homeschooling Through Every Season and Homeschooling With Joy

A collection of articles in two books by home educators who have learned valuable lessons that can benefit your life and your homeschool. Encouragement for the difficult challenges of homeschooling so that with the hard work, there is joy!

241510 **\$11.95** 201 pages, Paper, 5 1/4 x 8 1/4

241511 **\$9.95** 136 pages, Paper, 5 1/4 x 8 1/4

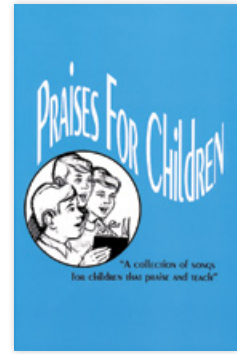

Praises We Sing

382 songs ranging from easy-to-learn children's songs to hymns that have stood the test of time. In shaped notes.

285061 **Hardcover \$15.75**

285063 **Softcover \$14.45**

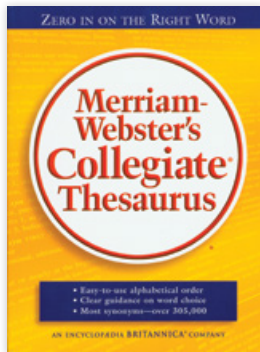

Praises for Children

152 songs that children love to learn and sing. In shaped notes.

121 pages, Paper, 5 1/2 x 8 1/2

Merriam-Webster's Collegiate Thesaurus

A good thesaurus for any student or writer. It not only gives synonyms and related words for each entry, but also lists contrasting words and antonyms for many. Short definitions help make entries clearer, and the separate entries for multiple definitions are helpful. Companion volume to Merriam-Webster's Collegiate Dictionary.

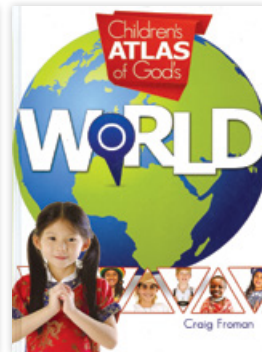

815171 **\$22.95**
1162 pages, Hard, 7 1/2 x 10

Merriam-Webster's Collegiate Dictionary

Contains over 225,000 extensive definitions, hundreds of illustrations, usage notes, etymologies, and a handbook of style. Includes a free digital download. Note: As a descriptive dictionary, it includes some substandard and slang expressions and vulgarities.

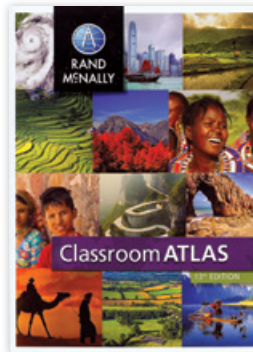

815150 **\$27.95**
1624 pages, Hard, 7 1/4 x 10

Children's Atlas of God's World

Most atlases are filled with both evolutionary thought and secular worldviews. This special atlas explores the creation with unique insights into Christian history makers, amazing landmarks, and discoveries found around the world. Visually engaging, this full-color book provides a dual purpose as a curriculum resource and a valued reference tool.

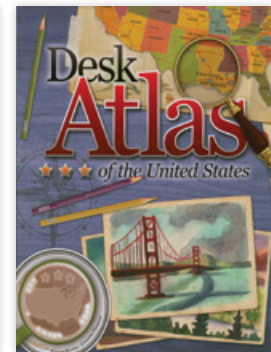

350260 **\$24.99**
96 pages, Hard, 10 x 13 3/4

Rand McNally Classroom Atlas

A high-quality, easy-to-use world atlas for upper-elementary and junior-high students. Over 200 pages packed with maps, photos, infographics, critical-thinking questions, and brain teasers. As the product of a secular publisher, it contains a few evolutionary assumptions, but is very worthwhile overall.

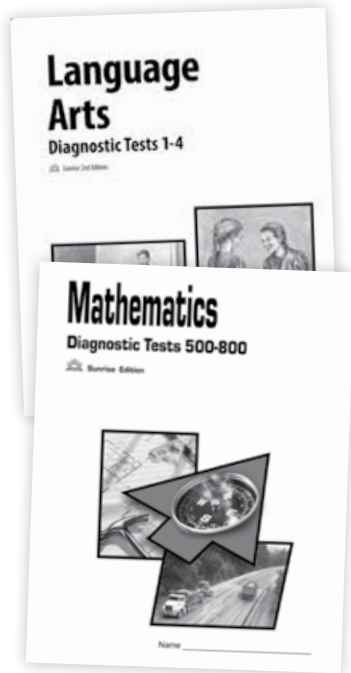

350285 **\$15.00**
208 pages, Paper, 8 1/2 x 11

Desk Atlas of the United States

A visual (and informational) treat. Each state covers a two-page spread. It has the appearance of a desk blotter, showing a map and an overview of the state. Surrounding the map are notes, dates, illustrations, and trivia. Includes state birds, flowers, seals, flags, statistics, quarters, people, etc. Thematic maps show resources, expansion, population, climate, and regions.

350270 **\$19.95**
132 pages, Paper, 9 1/2 x 12

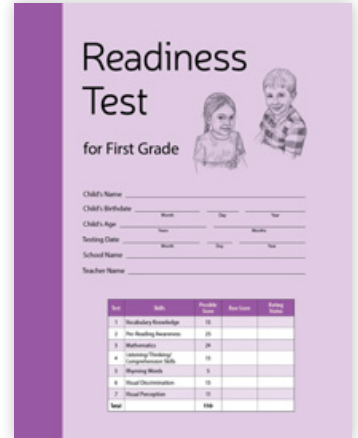

Diagnostic Tests

Diagnostic tests for Language Arts and Math are used to place students in Christian Light curriculum. You can purchase paper copies or download free printable PDFs. Levels 100-400 (Grades 1-4) are in one book, and Levels 500-800 (Grades 5-8) are in another book. The Teacher's Manuals contain directions for administering the test and scoring the test for placement. Placement in other subjects may be based on standardized achievement test results in reading.

Teacher Planner and Grade Record

This tool helps busy teachers stay organized. The *Teacher Planner* consists of forty weekly spreads with eight period/subject blocks for each weekday, forty-two spreads of ten weeks each for recording grades, a chores section, and seating plan charts. Designed for use in schools but can be used by homeschool teachers.

846066 **\$16.50**
98 pages, Spiral-bound, 8 x 10½

Student Planner

Give your student the feeling of accomplishment that comes from planning their work and working their plan! Each week in this student planner covers four pages: a chart for listing appointments and responsibilities, a two-page spread for scheduling daily goals for all subjects, and a page for notes. Each week also includes a verse and a self-evaluation checklist of character qualities.

846065 **\$16.50**
212 pages, Spiral-bound, 8 x 10½

Stay accountable, reach your family's academic goals, and homeschool with confidence.

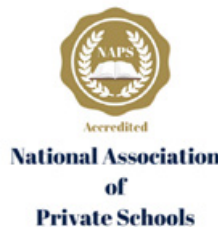

Christian Light Academy is an accredited recordkeeping and diploma program.

Christian Light Academy was formerly known as Homeschool Plus.

CHRISTIAN LIGHT
ACADEMY

✓ **Work under an accredited program.**

Christian Light Academy is accredited by the National Association of Private Schools.

✓ **Consult with an academic counselor.**

Your Christian Light academic counselor will answer your questions as you make educational decisions.

✓ **Earn a high school diploma from Christian Light.**

Students who successfully complete the work required for graduation and pass a diploma-qualifying test are awarded a high school diploma. Acceptable alternatives to the diploma qualifying test include the GED test, SAT, or ACT. Christian Light graduates have been accepted into over 400 colleges and universities worldwide.

✓ **Get transcripts for college applications and other needs.**

Transcripts for schools or colleges are provided upon request for students currently or formerly enrolled in Christian Light Academy.

✓ **Receive a report card after each quarter.**

We will send your student's report cards each quarter based on the scores you have reported.

✓ **Use Christian Light's achievement testing service.**

When your student is enrolled, you may use achievement testing services from Christian Light.

“Our daughter has been in college for two years and just applied for LPN training. She wants to earn an RN degree. Thank you for the excellent preparation you gave her. She has done so well in her college courses.” —*Homeschool parent*

“I have truly appreciated the Christ-centered curriculum and the many benefits of the program that make my job so much easier.” —*Kentucky*

“Thank you for serving as a Christian school. We will miss you, but on to godly goals and choices because of this example. God bless you.” —*A graduate's mother*

With Christian Light Academy, you can:

- ✓ Enroll at any time of the year.
- ✓ Use approved courses from other publishers.
- ✓ Save money with a 10% discount on library books and non-curriculum items.
- ✓ Receive a discount for renewing consecutive years.

See enrollment information on page 83.

Graduation Requirements

**CHRISTIAN LIGHT
ACADEMY**

When enrolled in Christian Light Academy, students can choose between three diploma levels to accommodate their interests, academic abilities, and vocational plans. The credit requirements for each course of study are given in the chart below.

Academic Diploma

The Academic diploma is recommended for students who are academically capable or who plan to go to college. All courses must be high school level, and a foreign language credit and physical education credit are required.

General Diploma

The General diploma does not require a foreign language credit and allows some eighth-grade courses to count for credit if they are completed in high school.

Vocational Diploma

The Vocational diploma accommodates students who struggle academically. This level does not require a foreign language or physical education credit and allows credit for some elementary courses if they are completed in high school.

Graduation Requirements for a High School Diploma

A student receives high school credit when he enters his ninth year of school or when he begins working in ninth grade material, whichever comes first. Credit cannot be earned for 5th - 8th grade work unless it is completed after the student enters ninth grade. One credit = 10 LightUnits. One credit = 120 hours of classroom work or 240 hours of laboratory-type activity.

Subjects	Academic Diploma		General Diploma		Vocational Diploma	
	Course	Credits	Course	Credits	Course	Credits

BOOKS FOR YOUR Family Library

Christian Light publishes more than just curriculum. Browse a selection of books for you and your family on the following pages.

New Releases

Midnight Tea Party

Midnight Tea Party is a collection of twenty stories about eight-year-old Rosy. Why are she and Grandmother up at midnight? Did big brother Eddy really put a frog in the bread dough? Can Rosy sew a dress for baby Emily without Mother's help? And will she finish her homework in time to go on a sleigh ride?

265690 **\$9.95** 133 pages

Not Made to Fly

Children are always ready for another story, and this collection provides a fresh supply of good ones! Brenda the parachutist, who thought grocery bags would help her fly; Rick the bragger, who couldn't stop tooting his own horn; Clark the scholar, who thought he was happy being miserable; and more. The children in these stories invite young readers to learn timeless truths along with them.

265695 **\$10.95** 170 pages

Little Jeannie

Little Jeannie longs to grow up and become a teacher like Miss Gail. But Jeannie isn't sure she'll ever be big and brave enough to be a teacher. When her little brother is in danger, Jeannie is brave without even thinking. And when Miss Shirley takes Miss Gail's place at school, Jeannie discovers that even small people can be good teachers.

265730 **\$9.95** 103 pages

Pilgrims in the Library

When Faith married a lifelong city dweller, the city shocked her. Rats on the doorstep. Drug dealers next door. Her growing family brought more challenges. However, Faith found unexpected opportunities and unexpected joy. Now, she wouldn't want to live anywhere else. *Pilgrims in the Library* is packed with stories from twenty years of city living. It encourages mothers everywhere to find joy in serving the Lord in their own setting.

265635 **\$11.95** 201 pages

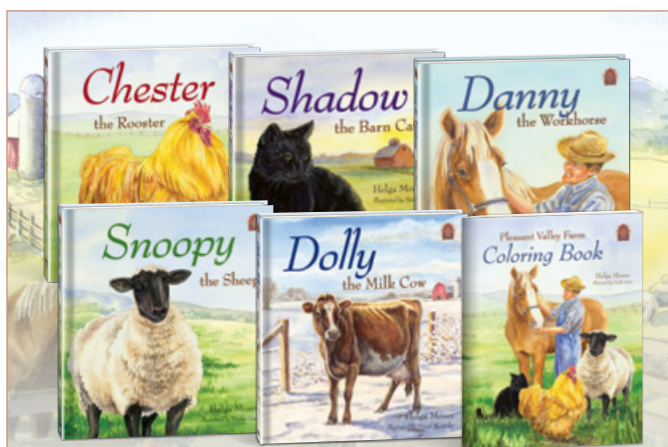

Even Irina

There was not one church house in Irina's town in Kazakhstan. The government made sure of that. Papa and Mama and others who wanted to have church met in each other's houses. Papa prayed every day that Irina would grow up to obey God. But Irina's teacher said that God did not exist. "Do you believe in God?" Irina's teacher asked. What would happen to Papa and Mama if Irina told the truth? A true story that shows what life was like for believers in a Communist country.

265740 **\$10.95** 197 pages

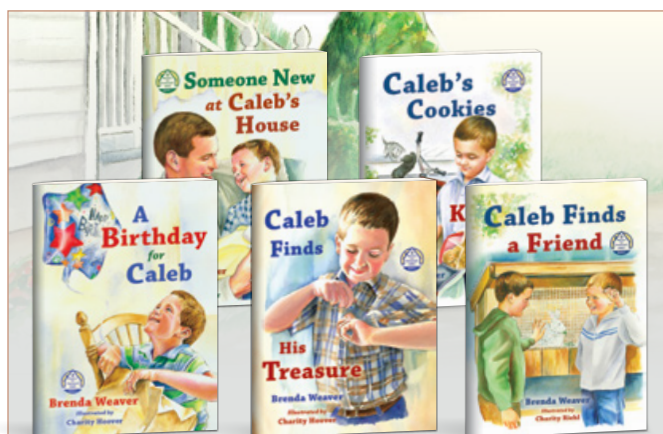

Picture Storybooks

Pleasant Valley Farm series

Whether it's the laziness of Danny the Workhorse or the pride of Chester the Rooster, the story of each lovable animal has something to tell us about growing in character. Beautiful paintings on every page. Hardcover.
